

# M'ADOO PLACED ON DEFENSIVE

## KLAN ISSUE IS PUSHED TO THE FORE BY FOES

Californian's Supporters Charge Opponents Using Unfair Tactics---Dark Horse Talk Persists.

(United Press.)

NEW YORK, June 21.—Opponents of William G. McAdoo tonight have him on the defensive in the fight for the democratic presidential nomination.

By raising the klan issue against him they have effected a situation wherein McAdoo's spokesmen are constantly called upon to declare he is not pro-klan.

Because the position of a candidate on the defensive is distinctly disadvantageous, it may be stated that his position before the convention tonight is not as strong as it was ten days ago.

Furthermore, to add to his difficulties, the New York democratic press does not favor him. "The World" is vigorously attacking him. There is no doubt about the effect the party newspapers in the home city of a convention have upon the delegates to that convention.

McAdoo personally is saying nothing. His representatives, however, are outspoken in what they term unfair tactics of the democratic press here, and McAdoo himself is said to be distinctly upset by the trend of the convention.

Still Have Confidence.

By this it is not meant that there is any lack of confidence on the part of the McAdoo supporters. They are the people's element at the convention. But there is more and more talk among them that it looks like a long session and "McAdoo can win only if he can personally hold his forces in line."

What was regarded as very significant developed in the McAdoo camp late today when headquarters were opened here by supporters of Senator Carter Glass, who is a McAdoo leader but who is willing to stand as a compromising candidate in case of a deadlock between McAdoo and Smith.

The Glass boom actually got under way when friends of his arrived in Richmond. "When the various delegations arrive tomorrow, permanent 'Glass for president' committee will be organized, according to a statement by John Stewart Bryan, who is leading the Glass campaign.

Similar To Wood's Position.

Briefly McAdoo goes into the convention in the same position that General Wood entered the republican convention four years ago and that against McAdoo went that Wood employed again. Wood in Chicago and Charles Kuhn entered the Baltimore convention of 1912. The same wearing down tactic will be employed against McAdoo here that were employed against Wood in Chicago and Clark at Baltimore.

But Governor Smith does not occupy the same strategic position of strength Woodrow Wilson did twelve years ago. Rather, he is in a position analogous to that of Gov. Frank O. Lowden at Chicago, four years ago. Under the tactics of the party leaders, it would seem that the first drive will be to eliminate McAdoo, as the republican convention side-track Wood, and then gives

**FIND LAWRENCE IS NOT GUILTY**

Jury In Knox County Murder Trial Brings In a Verdict Of Not Guilty After Hearing Sensational Testimony.

CENTER, Neb., June 21.—A jury in district court here today brought in a verdict of acquittal in the case of the state against George Lawrence, the defendant having been charged with the murder of Francis Wabashaw.

It was alleged by the state that Lawrence had killed Wabashaw with a club, but this was denied by the defendant. It being contended that the club was thrown by Henry Lawrence, a brother of George, and that it struck Wabashaw by accident.

Much interest was manifested in the trial, which was a very sensational one of the principal witnesses.

**PRE-CONVENTION RAIDS ARE MADE**

Dry Sleuths Make Strenuous Effort to Stop Gotham Liquor Dealing.

Liquor to Be Exceedingly Scarce On Broadway, Officials Say.

(Associated Press)

NEW YORK, June 21.—Eight men were arrested and thousands of dollars worth of liquor were seized in a series of raids carried out by prohibition agents here tonight.

Four cases of whisky were seized just as they were being smuggled into the Hotel Waldorf Astoria, where many headquarters for the democratic national convention, which opens next week, are established.

Agents went through the city visiting cafes and other places suspected of having liquor.

Arrests Promised.

"The man or woman caught drinking or carrying whisky in public will be arrested," Yellowley said.

"The agents are ordered to do their duty without fear or favor all the time. Transporters, bootleggers and bartenders will be arrested. We will play no favorites."

Meantime Wayne B. Wheeler, general counsel for the Anti-saloon League of America, was conducting a personal check on prohibition enforcement.

Clarke and Timm were trying out a new plane.

Both trousers became caught in the rudder control, threw the plane on its side into a wingslip, and sent it crashing to the lake. The machine struck a shallow spot, sinking twenty-five feet to the bottom.

When the men kicked themselves free, the plane rose slowly to the surface. Clarke and Timm clung to it till rescued by a Lincoln Park tug.

Airplane Plunges To Lake Bottom; Aviators Escape

CHICAGO, June 21.—Henry C. Clark and Ben Timm, Chicago aviators, had a miraculous escape from death here today when their airplane plunged twenty-five feet and carried both to the bottom of Lake Michigan. By desperate efforts Clarke and Timm managed to fight their way through the tangle of wire sand canvas to the surface.

## FIND LAWRENCE IS NOT GUILTY

Jury In Knox County Murder Trial Brings In a Verdict Of Not Guilty After Hearing Sensational Testimony.

CENTER, Neb., June 21.—A jury in district court here today brought in a verdict of acquittal in the case of the state against George Lawrence, the defendant having been charged with the murder of Francis Wabashaw.

It was alleged by the state that Lawrence had killed Wabashaw with a club, but this was denied by the defendant, it being contended that the club was thrown by Henry Lawrence, a brother of George, and that it struck Wabashaw by accident.

Much interest was manifested in the trial, which was a very sensational one, the wife of the defendant being one of the principal witnesses.

## Airplane Plunges To Lake Bottom; Aviators Escape

CHICAGO, June 21.—Henry C. Clark and Ben Timm, Chicago aviators, had a miraculous escape from death here today when their airplane plunged seventy-five feet and carried both to the bottom of Lake Michigan. By desperate efforts Clarke and Timm managed to fight their way through the tangle of wire sand canvas to the surface.

Clarke and Timm were trying out a new plane.

Clark's trousers became caught in the rudder control, threw the plane on its side into a wingtip, and sent it crashing to the lake. The machine struck a shallow spot, sinking twenty-five feet to the bottom.

When the men kicked themselves free, the plane rose slowly to the surface. Clarke and Timm clung to it till rescued by a Lincoln Park tug.

BALTIMORE, Md., June 21.—Irvin Hyannis, son of Irvin H. Hartman, millionaire furniture dealer of Chicago, who was hurriedly sent away from his home Thursday after his father had received a threatening note demanding \$10,000 on pain of having his son kidnapped, is here at the apartment of his grandmother Mrs. Josephine Reinebold. It was learned tonight.

## TWO FORMER BANKERS FREED

Herbert H. Barge and Math J. Raemakers, who were sentenced for embezzlement, given paroles by the State Board.

### EX-TREASURER OF NANCE TURNED DOWN

Shorten Time of Arlo D. Sutter, Convicted of Killing Wife in Lincoln—McPherson Must Stay in the Pen.

Herbert H. Barge and Math J. Raemakers, bankers who pleaded guilty to embezzlement and have been serving terms in the penitentiary, are both paroled by the state pardon and granted to their families and to jobs which are awaiting them outside the prison. Announcement of the board's decision in their cases was made Saturday.

Finds J. Anderson, defaulting ex-treasurer of Nance county, must serve a longer time, the board decrees. He also pleaded guilty to the charge of embezzlement, which in his case was about \$30,000. The shortening was made good in its entirety, with interest, by himself, his father, and his brother.

Anderson has been in the penitentiary about one year, his sentence being from one to five. Raemakers was given a term of the same duration and served a little over two years. Barge drew a sentence of one to ten years, of which he has spent three at the prison. Raemakers was the managing officer of a bank at Raeville, while Barge ran one at Hoskins.

**Sutters' Time Cut Down.** Arlo D. Sutter, who has been serving from one to five years for killing his wife in Lincoln, will get a deduction of 15 months and 16 days in addition to the regular good time allowance. This will let him out along in March or April next year, if he does not forfeit any good time through misconduct. The period subtracted from his term by the board of pardons is to cover time he spent in jail, but being kept saddled as a dark horse possibility.

**SENATOR CARTER GLASS.** Out in the open now as a candidate in event of a Smith-McAdoo deadlock.

**JAMES M. COX.** An unknown quantity, but has few votes outside his own delegation.

**RALSTON.** Net running at all place, but showing no net gain except as recognized by some weakening of McAdoo's position.

## 30,171 BIRTHS IN STATE LAST YEAR

Records Show 332 Pairs Of Twins And Only One Set Of Triplets

Thirty-one Babies of Japanese Parentage and 107 Infants Among Indians.

Based on the number of births which occurred in Nebraska during 1923, the Japanese population of this state exceeds 1,300 at the present time. Records of the vital statistics office at the capitol show 31 babies of Japanese parentage born in the year, in a total of 30,171 for all races and nationalities. This is a little more than one-tenth of 1 per cent. At the total population of Nebraska was almost 1,300,000 in 1920, and is considerably above that figured now, the Japanese proportion would be more than 1,300. While the birth rate in Japanese families is higher than among Americans, there are a larger proportion of unmarried Japanese than of the home population, and that fact would tend to equalize the ratio of births.

Scotts Bluff county, which has a large Japanese colony employed in the better sugar industry, reported 18 births of that parentage. Lincoln county, where there is another settlement registered 7 Japanese babies. The other six were distributed as follows:

Hall, 1; Keith, 1; Kimball, 1; Lancaster, 1; Madison, 1; Pierce, 1.

### Mexicans More Numerous.

The number of Mexican babies born in Nebraska last year was 161—almost twice as many as Japanese. Many of these were born in counties where sugar beets are raised or sugar factories are located. However, the Mexican population appears to be pretty well scattered over the state, the men being employed in ordinary agriculture, on railroad track work, and ordinary labor.

By counties, the births of Mexican nationality were distributed thus:

Box Butte, 1; Buffalo, 1; Dakota, 34; Dawson, 7; Dodge, 4; Douglas, 34; Fillmore, 1; Hall, 3; Keith, 1; Kimball, 2; Lancaster, 18; Lincoln, 6; Merrick, 1; Morrill, 13; Nuckolls, 1; Pawnee, 1; Phelps, 2; Red Willow, 8; Scotts Bluff, 31; Seward, 1; Sioux City, 1; Thayer, 1.

Only five Chinese births are included in the 1923 statistics. Of these, four were in Omaha and one in Lincoln.

### Negroes and Indians.

The negro population of Nebraska was increased by 265 births last year according to the vital statistics division's summary. The number of negro births in Lancaster and Douglas counties, where most of the colored people in the state reside, is not given separately, though included in the total. Here are the figures for other counties:

Box Butte, 5; Buffalo, 2; Dakota, 2; Hall, 1; Madison, 1; Nuckolls, 1; Otoe, 1; Seward, 1.

There were 107 newborn infants

## Hearing Restored Often In 24 Hours

### Amazing Results Secured in One Day by Use of K-17 Formerly Known as Rattlesnake Oil.

Deafness and Head Noises need not be dreaded any longer as it is possible for some of the most obstinate cases of deafness to be relieved in a day's time by the application of a prescription formerly known as Rattle Snake Oil. This treatment is meeting with wide success all over the country.

Mr. D. D. Day, a Nebraska resident, 67 years old, says, "I have used the treatment for only two weeks and my hearing is restored perfectly. The relief was almost instantaneous and now the head noises have disappeared. My cataract, a case of many years standing, is improving wonderfully."

This compound, which is known as K-17, is easily used at home and seems to work almost like magic in its application on people of all ages.

So confident are we that K-17 will cure you, that we offer to send a large \$2 bottle for only \$1 on 10 days' free trial. If the results are not satisfactory, it costs you nothing. Send no money—just your name and address to the Greene Laboratories, 225 Greene Bldg., Kansas City, Kas., and the treatment will be mailed at once. Use it according to the simple directions. If at the end of 10 days your hearing is not relieved, your cataract and asthma, showing wonderful improvement, just send it back and your money will be refunded without question. This offer is fully guaranteed so write today and give this wonderful compound a trial.—Advertisement.

## INFLUENCE OF WILSON FELT AT CONVENTION

(Continued from page One.)

The political views of the war president, once jotted down on a penciled memorandum before death claimed him, were revived when the conferees agreed to use the Virginia state democratic platform as a basis for future discussions of the national platform. The Virginia document, virtually a Wilson platform, was written by Senators Carter Glass and Claude A. Swanson, both war friends of the late president, after studying the Wilson memorandum.

It was Wilson's wish, as expressed by his own hand, that the 1924 platform be progressive. He desired that it should sound a clarion call to the liberals of the nation. And this was the word sent out tonight by Homer S. Cummings of Connecticut, who will be chairman of the platform committee.

### Will Be Progressive.

"The democratic platform will be progressive," Cummings said tonight. "It will be courageously progressive. It will appeal to every believe in liberal democracy."

Rumors even persisted tonight that the Wilson-inspired Virginia platform would remove the chief article of contention from the platform conference—the demand for a direct denunciation of the Ku Klux Klan. It was said that both the anti's and Klan factions were willing to agree upon the Virginia anti-Klan plank which reads:

"Any sect or creed which assails, or seeks openly or covertly, to impair this inalienable right of religious freedom is to be condemned and resisted as a menace to organized society."

Wilson's memorandum, which read that the war president had drafted an entire platform before he died, for submission to the convention, was explained tonight by Senator Carter Glass, a cabinet member under Wilson and one of his closest associates.

### Only Tentative Views.

"Mr. Wilson prepared a tentative memorandum in lead pencil shortly before his death," said Glass. "It dealt with subjects which he believed should be treated upon in the democratic platform for the coming election. It was not in any sense a platform and no man could conscientiously present it here as Mr. Wilson's platform, but it did contain his tentative views."

"Sure I discovered Dempsey," he said. "I know a prize fighter when I see one."

Lyons' entry into McAdoo headquarters comes today in true political style. Even his costume was an evidence of strategic compromise. He wore light tan golf shoes; crimson

socks, a salt and pepper suit, a double breasted vest and an army campaign hat adorned with a red ribbon announcing his nativity in Colorado.

Bill is considerably of politician.

"Do I know politics?" he asked. "I've been in it ever since I was a baby. When it was necessary to stuff ballot boxes I knew how to stuff 'em. When it has been necessary to take a Winchester and kick 'em from delivering the ballot boxes for count, I knew how to pick up a gun. I've busted states and made candidates overnight. I've served jail sentence for contempt of the Supreme court just to make Alva C. Adams

go to jail."

This rough and ready politician of the great open spaces carries two watches and they're his proudest possessions. One is a \$3,500 affair presented to him at Christmas time, 1920, by Jack Dempsey. On its dial are pictures of Dempsey, Jack Kearns and Wild Bill. The other watch was a present from Freddy Welsh, former lightweight champion of the world, in recognition of boxings last in Colorado. This time pieces bear pictures of Welsh and the senator.

"Sure I discovered Dempsey," he said. "I know a prize fighter when I see one."

# PENSIONED AFTER 44 YEARS SERVICE

Freeman S. Holmes, Telephone Company Employee, On Retired List.

Has Seen Remarkable Growth in Communication Field Since 1880.

After forty-four years service, Freeman S. Holmes, veteran employee of the Lincoln Telephone and Telegraph Co. has been retired and placed on the pension roll. W. E. Bell, commercial superintendent of the company said he had been honored with retirement because it became effective June 1.

Entering the service in 1880 at Newton, Iowa, as a pole setter and line man, Mr. Holmes had worked his way up in the telephone field until

FREEMAN S. HOLMES.

he had been manager of different stations in Iowa, including Newton, Creston, Grinnell, and Iowa City before coming to Lincoln May 10, 1901 and taking up toll line work under N. W. Thompson, then manager here.

Mr. Holmes has seen the telephone business grow from what was once considered a luxury, until today it is indispensable both in business and the individual home.

Mr. Holmes says there is a vast difference in the telephone business of the present day and the days of long ago when he first entered the communication work as a line man. In the old days he described the telephone as being mostly made of wood and, in fact, the only thing a man had to know was how to climb poles in order to work up in the business.

During the time Mr. Holmes has been in Lincoln he has seen the passing of the old style telephone and the installation of the automatic along with the telephone of many other more modern and up to date methods. So many have been these changes that there is no similarity between telephonic communication today compared with the earlier period.

For several years Mr. Holmes has been special agent in the commercial department.

Mr. Holmes said Friday that the greatest regret of his life was the fact that the company considered it necessary to place him on the pension list.

Officials of the telephone company in retiring Mr. Holmes de-

clared that the young man because he has been a faithful employee always courteous and conscientious.

Mr. Holmes, with Mrs. Holmes will continue to live at 2318 Orchard street, their home for years. Mr. Holmes has accepted a position with the Old Line Bankers Life company.

## TWO FORMER BANKERS FREED

French And English Premiers In Secret Discussion At Chequers Court.

British Prime Minister Confident of Strengthening of Entente.

LONDON, June 21.—The first Anglo-French reparations conference since the British cabinet took power in June, Britain and the socialists'壮大 domination of the French government, opened at Chequers Court tonight.

Discussions, which will be informal and secret, will continue until late tomorrow afternoon when the French premier, Edouard Herriot, will leave for Paris.

Premier Ramsay MacDonald was confident that the conferences will result in a strengthening of the Anglo-French entente, the bonds of which have been nearly broken more than once during the stormy ministerial career of Raymond Poincaré at Paris.

It was anticipated that the following issues would be discussed either directly or indirectly.

—Best method of hastening execution of the Dawes reparations plan.

—The length of the Franco-Belgian occupation of the Ruhr.

—Security of the eastern frontier, not only to protect the eastern frontier but to make sure France obtains the money due her from Germany under the Versailles treaty.

German Armaments.

—The armament situation in Germany, which is soon to be investigated by the League of Nations.

—Advisability of admitting Germany to the League of Nations. If the British government shows sincerity in meeting all the obligations of the Dawes plan.

—Inter-allied war debts, notably

spending in penitentiary and county jail prior to second conviction.

## MACDONALD AND HERIOTT TAKE UP MANY PROBLEMS

France's debts to England and the United States.

7.—The advisability of foregoing an inter-allied conference to consider the Dawes plan in interests of greater speed.

8.—A proposed "common front" by France and England toward Germany.

It was anticipated that the premiers also would touch upon Russia's position and the advisability of France and England acting in concert upon the question of recognition for the soviet government.

The meeting is entirely informal and there will be no important decisions effected by the cabinet and the participation of the two countries.

According to the present plan, no communiqué will be issued.

Mr. Holmes said Friday that the greatest regret of his life was the fact that the company considered it necessary to place him on the pension list.

Officials of the telephone company in retiring Mr. Holmes de-

clared that the young man has been a faithful employee, always courteous and conscientious.

Mr. Holmes, with Mrs. Holmes will continue to live at 2818 Orchard street, their home for years. Mr. Holmes has accepted a position with the Old Line Bankers Life company.

## TWO FORMER BANKERS FREED

(Continued from Page One.)

the penitentiary under his first conviction and life sentence, which the supreme court subsequently set aside, and in the county jail while he was waiting to be tried the second time. The jury at his retrial returned a verdict of second degree murder and recommended commutation.

No Parole for McPherson.

Edward McPherson's defiant letters to State Probation Officer Harmon, in which he gave notice that he was going to bring suit against somebody for false imprisonment if the board let him out, will not have that opportunity. His application to be paroled is turned down, the reason that he has a record of several previous convictions in different penitentiaries and the law does not authorize the board to parole any prisoner who has been convicted of a felony more than once.

McPherson was sentenced from Douglas county in 1911 for breaking into a private home in Omaha. He was paroled in 1913, but before the present legal procedure became effective, and shortly afterward escaped and went to Missouri. There he served two prison terms, afterward being brought back to Nebraska. He is also a former inmate of the Colorado state penitentiary.

Withholds Findings on Two.

Action of the board is suspended in the cases of Mr. Supik, Knox county, serving 20 years for shooting with murderous intent and Art Nowak, Sioux county, 1 to 7 years for grand larceny. Supik was found guilty of shooting William Haggie, a young farmer, through a window with a shotgun, while the latter was courting a young woman. Jealousy was supposed to be the motive.

Must Return to Germany.

Despite the protestations against being sent back to his native country, Germany, as an undesirable alien, that is what the immediate future holds in store for Fred Miller, under 5-year sentence for stealing hogs in Knox county. He asked to have his sentence commuted, but the board paroled him instead and United States officials will take charge of him for deportation.

Penitentiary Paroled.

Fred Peterson, Adams, grand larceny, 1-7.

Fred Miller, Knox, hog stealing and breaking jail, 5 years.

Herbert H. Barge, Nance, embezzlement, 1-10.

Mathias J. Raemakers, Boone, embezzlement, 1-5.

Art D. Barnes, Douglas, robbery, 3-15.

Henry Jackson, Pawnee, robbery, 3-15.

Fred Jones, Pawnee, robbery, 3-15.

Claus Peterson, Otoe, violating liquor law, 1-2.

## MACDONALD AND HERRIOTT TAKE UP MANY PROBLEMS

French And English Premiers In Secret Discussion At Chequers Court. British Prime Minister Confident of Strengthening Of Entente.

LONDON, June 21.—The first Anglo-French reparations conference since the laborites came into power.

Great Britain and the socialists obtained domination of the French government, opened at Chequers Court tonight.

Discussions, which will be informal and secret, will continue until late tomorrow afternoon when the French premier, Edouard Herriot, will leave for Paris.

Former Ramsay MacDonald was confident that the conferences will result in a strengthening of the Anglo-French entente, the bonds of which have been nearly broken more than once during the stormy ministerial career of Raymond Poincare at Paris.

It was anticipated that the following issues would be discussed either directly or indirectly:

—Best method of hastening execution of the Dawes reparations plan.

—The length of the Franco-Belgian occupation of the Ruhr.

—Security and guarantees for France, not only to protect the eastern frontier but to make sure France obtains the money due her from Germany under the Versailles treaty.

—German armaments.

—The armament situation in Germany which is soon to be investigated by the League of Nations.

—Advisability of admitting Germany to the League of Nations, if the Berlin government shows sincerity in meeting all the obligations of the Dawes plan.

—Inter-allied war debts, notably

penitentiary and county jail prior to second conviction.

Mens' Reformatory Paroled.

Bert L. York, Douglas, grand larceny, 2-5.

Michael McWilliams, Otoe, burglary, 1-10.

France's debts to England and the United States.

7.—The advisability of foregoing an inter-allied conference to consider the Dawes plan in interests of greater speed.

—A proposed "common front" by France and England toward Germany.

It was anticipated that the premiers also would touch upon Russia's position and the advisability of France and England acting in concert upon the question of recognition for the soviet government.

—The new measures to be taken by France and England toward Germany.

According to the present plan, no communiqué will be issued.

Francisco in Eleven and  
One-half Hours.

SAN FRANCISCO, June 21—Aver-  
aging better than 100 miles an hour  
and covering the distance in thirteen  
hours, Lieut. John S. Griffith, United  
States army air service flier, who  
ate breakfast at Kelly Field, Texas,  
yesterday morning and dinner here  
last night, was believed tonight to  
have hung up a new record for the  
distance.

It was revealed for the first time  
tonight that Lieutenant Griffith  
made the trip and that his actual fly-  
ing time for the trip was eleven and  
one-half hours. Short stops were  
made near Tucson, Ariz., and at San  
Diego.

**Forty and Eight  
Holds Initiation  
At Electric Park**

NEW YORK, June 21—"I don't  
want to bring back the saloon—but  
I do want a national referendum!"

Miss Gertrude A. Yates, and her  
mother, Mrs. Edith Yates, 725 W  
street, University Place, will leave  
Monday on a vacation trip to Califor-  
nia.

Mr. and Mrs. I. D. Oberholzer of  
Independence, Kas., are visiting at  
the home of Mrs. Oberholzer's sister  
and brother-in-law, Mr. and Mrs. M.  
L. Flinley, 2445 J street.

**COLUMBUS KNIGHTS  
Plan Initiation**

COLERIDGE, Neb., June 21—About

25 candidates from the various

towns in northeast Nebraska, includ-  
ing Coleridge, Wayne, Crofton, For-  
dyce and Hartington, will be initiat-  
ed into the Hartington council of  
the Knights of Columbus at Hart-  
ington, Sunday afternoon, June 22.

State Deputy Matthews of Omaha,  
and other state officers of the order

are expected to be present for the  
initiatory work.

"People are beginning to realize  
that the real problem has always  
been the saloon rather than prohibi-  
tion. France, Germany and  
Italy have never had the prohibition  
problem because of the same institu-  
tions of the open air cafe. I have never  
seen these cafes or beer gardens but  
from descriptions I feel safe in saying  
that they are a wholesome social in-  
stitution."

"Perhaps with the re-introduction  
of light wines and beer something  
like the foreign cafe might be  
introduced in this country. When men  
drink with their families and out in  
the open air, there is seldom vicious-  
ness in their drinking."

S. S. S. is sold at all good  
drug stores in two sizes. The  
larger size is more economical.

**Dayton Winner  
In Golf Match  
With Johnstone****CHILD WELFARE  
CAMPAIGN OBJECT**

The demands of the gentleman who  
eds the Prompter's Box have been  
satisfied. Saturday afternoon, Peter  
Johnstone, chief of police, went down  
in defeat in golf before the prowess  
of Commissioner George Dayton.  
Score for nine holes, Dayton 56,  
Johnstone 53.

"It was just like shooting' fish in  
a cistern," declared Dayton after the  
match.

"My head is bloody but unbowed."  
Johnstone is said to have asserted  
just before challenging Dayton to a  
return match.

Dayton was coached by Fred  
Schmidt and Johnstone by Dave  
Cravens, who lost a dinner to Leon-  
ard Barwick on the final outcome.

Neither Dayton or Johnstone had  
ever touched a golf club before.

The date hasn't been set for the  
return game.

**ISSUES BULLETIN  
ON HYDROPHOBIA**

L. O. Vose Says Disease Has  
Increased in Last Two  
Years.

State Bacteriologist Tells Of  
Treatment in Dog Bite  
Cases.

Because of an increase in hydro-  
phobia among dogs in the United  
States during the past two years,  
State Bacteriologist L. O. Vose has  
issued a bulletin for the information  
of Nebraska people, telling what to  
do when a dog has bitten a human  
being or other animal.

Two or three days ago, the head of a  
dog which had bitten a woman at  
Alexandria was sent into the state  
laboratory for examination. The  
brain was tested and found to show  
symptoms of rabies. This woman is  
now being given Pasteur treatment  
to counteract the infection, and  
it is expected she will recover.

It is not necessary, says Mr. Vose,  
for the victim of a supposed mad  
dog's bite to go to an institution to be  
detected. The Pasteur method of  
neutralizing the hydrophobic taint so  
inflicted is well known to the medical  
profession, he declared, and any  
doctor can obtain the material nec-  
essary to treat the patient in his  
own home. If a case is given prompt  
attention, the treatment is almost al-  
ways successful.

Rabies never originates except with  
bites of the canine family, including  
dogs, wolves, foxes and hyenas, says  
the state bacteriologist. Owners of  
dogs can prevent it by inoculating  
their animals with a specific vac-  
cine for that purpose he asserts.

**Gives Instructions.**

The following instructions to assist  
the bacteriological laboratory in  
determining whether or not a dog is  
mad are given in the bulletin:

"When a dog has bitten anyone  
it should not be killed but should be  
caught, tied up where no other ani-  
mals can get to it, and kept under  
observation. Dogs with rabies are  
usually drowsy, listless and death  
shows more or less typical symptoms of  
the disease. If the dog remains  
healthy and shows no symptoms for  
two weeks after biting, it is very  
improbable that it has transmitted  
the disease.

"If a dog suspected of having rabies  
is killed before symptoms have  
developed, it may be impossible to  
make the diagnosis by laboratory ex-  
amination.

"It is possible for rabies to have  
progressed far enough for the dog to be  
capable of transmitting the disease  
but not far enough for suffi-  
cient negri bodies to have appeared in  
the brain tissue to make a positive  
diagnosis possible.

"If the dog under observation shows  
symptoms of sickness accompanied by  
paralysis, jaw drop or other signs  
of rabies, it should be killed taking  
care not to injure the head, the head  
should be placed in a water tight re-  
ceptacle and this surrounded by  
cracked ice in a second container so  
that the ice comes in contact with the  
head. Shipment should be made by  
express as soon as possible.

The laboratory should be notified  
by wire or telephone so that no delay  
will occur in getting the head to  
the laboratory.

"If by chance the dog has been  
killed or has died this same procedure  
should be followed."

**Forty and Eight  
Holds Initiation  
At Electric Park**

It is possible for rabies to have  
progressed far enough for the dog to be  
capable of transmitting the disease  
but not far enough for suffi-  
cient negri bodies to have appeared in  
the brain tissue to make a positive  
diagnosis possible.

"The laboratory should be notified  
by wire or telephone so that no delay

# Keep Cool!

## Epworth Lake Park

40 Acres of Cool, Shady Woods

Illustrated pro-  
grams will be  
ready for distri-  
bution July 1st.  
Let us mail one  
to your address.

July 31st to Aug. 10th

The Nebraska Epworth Assembly will offer one of the best programs ever placed before the public. Music, lectures, entertainment, reunions, picnics and just plain rest crowded into ten days of wholesome, healthful, out-of-doors enjoyment.

### Plan Now

To take your vacation in beautiful Epworth Lake Park during the Assembly. No long, tiresome trip and where could a vacation be more enjoyable for so small an expense? Boating, tennis, and plenty of outdoor games and exercises and a safe, health building spot in which the kiddies will love to play.

## WILLYS-OVERLAND SERVICE AFTER OFFERING NEW CAR SALES FEATURE

Latest Model Designed For Cooperation of Buyer and Salesmen, Doctors and Small Families.

Is Business Coupe On Overland Chassis Made to Sell At Low Price.

Having in mind the particular requirements of the city and traveling salesman the doctor, the small family and the woman in the home who wants a small car for her own personal use, the Overland company increases the production of its new business coupe on its popular Overland chassis to sell at \$650 f. o. b. Toledo.

We believe that this new car is the last word in convenience, roominess and all round driving comfort in the comment of Mr. L. M. local Willys-Overland dealer on the factory's announcement.

The new car is equipped with doors of motor width 31 1/8 inches across the opening thus providing for easy entrance and exit on either side. The wide straight seat gives ample room for two large people and will accommodate three in a pinch.

**Body Heavy Metal**  
The body is built of exception-ally heavy metal, studly reinforced and under parts are taken with the finishing operations fourteen being required to insure the lasting durable finish.

The interior of the body is finished in durable long grain Spanish upholstery.

The design of this car renders available more leg and elbow room than in any other coupe class or near Overland's price class. Inside width of the car is only 48 inches, an inch less than four feet. The seat is 45 1/8 inches wide. There are more than 16 inches between steering wheel and back cushion.

A roomy rear deck provides ample room for samples and luggage. Its hinged cover is provided with lock and is protected against dust and insects.

Boon to Women Drivers

In making the announcement of the car to the dealer organization President Willys has emphasized the fact that it is particularly designed for sales and professional men. But we also believe that the car is going to be a boon to women motorists.

Its short wheel base simplifies the parking problem. Ease of operation because of large steering spindles and steering wheel. It is easy to handle in all sorts of traffic. Economy of operation results in a minimum upkeep cost.

Patented triplex spring suspension gives big car riding ease because of the 136 inch spring base made possible with this type of spring. This is a great factor to the man or woman who spends a great part of his or her time in one place a day as the added relaxation while driving renders the driver more fit for the work in hand between trips.

**Complete Supply Repairs**  
Mention is also made in the written policy that for the protection of International owners five million dollars is held in ready funds which are distributed among the company's various warehouses, 63 company owned branches and thousands of motor truck dealers.

This periodic inspection for the life of each machine is a great boon to owners of truck fleets for it facilitates maintenance and offers a continual check on the various main-

**A Tip to the Prospective Buyer**  
Try the rapping test when buying a new car. It is a wise plan to rap the lamps and fenders of the car under consideration. The results are surprising. Some fenders are thin while others sound very and durable. The same with lamps though they may look to be sound. A buyer would be no more justified in selecting his car on appearance alone than to choose a car primarily because it is a little more generous in wheel base.

**Overheating Engines**  
The usual cause of an old engine overheating more easily than a new model is the combination of poor cooling system and tendency to accumulate carbon deposit and pre ignition and the lime and rust which gather with in the water jacket surrounding the cylinders and in the radiator, preventing proper cooling.

The picture shows Joe Boyer, winner of the Indianapolis race of this year, with his new Chrysler roadster bought with part of the money he won in the auto classic. Boyer finds the smooth operation of the passenger car a relief after the rough and grind of the speedway.

## COACH INCREASES MOTOR CAR SALES

New Hudson-Essex Machine Helps Break Record Fourth Consecutive Month.

latest trade figures obtained from official registrations, Hudson has

now exceeded six million line of motor cars in many of the large centers of population.

In Michigan, which knows motor cars better than any other state, its position is assured. So great has been the demand for coaches that even the bad weather fails to hamper business.

Hudson has succeeded. The coaches

are not merely a fair weather success.

When we predicted last winter

that the public would prove more interested in enclosed cars at moderate prices than in any mechanical novelties or other new features, some of the trade experts were inclined to disagree, but the leading car of the year, we may point out, are cars which are simple mechanically and which supply closed car transportation.

The Hudson and Essex coaches

have been outstandingly successful

because they have been offered at economy prices. I believe the public

will always respond to that appeal

when with low first cost it obtains

quality too.

The rubber hose at the top and bottom of the radiator should be changed at least once a year.

## INTERNATIONAL HARVESTER TRUCKS

## Free Inspection For Life

With each purchase of an International Motor Truck you get an Inspection Service Policy which assures you free inspection at regular intervals for the life of the truck. This valuable working service is unique in the automotive industry.

Factory-trained engineers help to keep your trucks in A1 condition. They make minor adjustments and give you a written report indicating the exact condition of your truck at the time of inspection. Their sole year-around duty is to prevent mechanical difficulties rather than to repair them; to advise owners and drivers in the care and maintenance of their trucks. This free service reduces your operating costs, keeps your equipment on the job, and extends the life of International Motor Trucks.

Inspection service, free, reliable, and lasting, will recommend itself to any man who is determined to get his hauling done at the lowest possible cost. It is but one of many unusual factors that make Internationals a good investment.

International Speed Trucks are built to carry loads up to 2000 pounds.

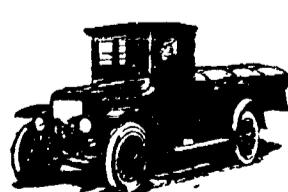

Heavy-duty Internationals are built in 3000, 4000, 6000 and 10,000-pound maximum capacities.

Suitable bodies for every business.

Buses are furnished in a variety of chassis and styles of bodies to meet every passenger transportation need.

The full line of International models is on display at the address below. Call and look them over, or telephone us for full information.

Business men who buy motor trucks and particularly those who buy them in fleets are always interested in something besides the mechanicals themselves. How about service? Are expert mechanics within easy reach who can inspect and make adjustments advise answer questions? Are reliable parts readily obtainable? In a word they demand that their purchase include a continued tie with the manufacturer—a protection that is rarely competent and unfailing.

## Thousands Attend Stromsburg Picnic

(Special to The Star.)

STROMSBURG, Neb., June 21.—The annual farmers picnic of Polk county was held here this week, and was largely attended. It was held in the Buckley park and all the business houses were closed most of the day.

The program consisted of speeches, band music, and a male chorus from Ossceola. On account of the wet morning the dinner was deferred until 6 o'clock. The ball game between Polk and Shelby was very exciting as the score was 9 to 3 in the last half of the ninth inning. Shelby won in the eleventh inning. It was estimated over 5,000 people were here, and 1100 cars. The sports and picnic dinner was especially pronounced a success.

### POLK PIONEER DIES

(Special to The Star.)  
STROMSBURG, Neb., June 21.—Jones Sundberg, 75, died very suddenly Thursday morning. He had had an attack of pneumonia for a few days, but was much better when suddenly he became worse and died shortly thereafter. Mr. Sundberg came to Polk county in the seventies, and homesteaded four miles northwest of the city. He had accumulated quite extensive holdings in land and his sons are now the on the farms. He had lived in the city for about twenty years. He was an active member of the Swedish Mission church. His funeral will be held Sunday at that church.

### Honors Awarded to Camp Fire Girls at Stunt Night Program

The following awards were made to Camp Fire girls during the stunt night program held at Camp Kipling, Blue river near Milford, Friday night:

First place in cabin inspection went to Ashes, Ruth Smith, councillor. Each girl in the cabin received a leather decoration for her ceremonial gown. The girls were, Aileen Neely, Bernice Leiberman, Harriet Whittman, Genevieve Kumpf, Jessamine Cochran, Pauline Isley, and Leata Van Adel. Cardinal received second place in cabin inspection for the week.

Orange felt emblems to be worn on the swimming suits were awarded the following girls for passing their first test in swimming: Ruth Hatfield, Sarah Jane Johnson, Marion Town, Dorothy Lucheser, Gretchen Boeckes, and Ruth Isley.

Fourteen girls were awarded the rank of gypsy queen, receiving beautiful tie-dyed bandanas, in colors of orange and scarlet. The gypsy queens are Ethel Hughart, Ruth Kier, Clara Kiffin, Gretchen Fee, Dorothy Jackson, Margherita Finch, Ruth Neely, Fern Bernice Letherman, Dorothy Charlton, and Ruth Hatfield. These girls were also given the Wohelo Order of Good Camper's honor, a leather decoration for their ceremonial gowns, symbolizing the double strength of the pine tree and the torch.

An honor for distinction in first all was awarded to Ruth Hatfield, and a large number of Camp Fire honor heads for nature and first aid honors were awarded.

## You Get in This New Car Every Up-to-Date Feature

When you buy a car today, you have a right to ask for—

- the powerful performance of a master motor;
- the certain action of a clash-proof transmission;
- the cushioned comfort of balloon tires;
- the added safety of four-wheel brakes;
- and the assurance of a 100 per cent rear axle.

To buy a car that offers less is to choose a car no longer modern.

In the 1925 Chandler, you have the absolute freedom from gear-shifting evils pro-

## Balloon Tires Are Standard Equipment With Cleveland Six

(Special to The Star.)

BLUE SPRINGS, Neb., June 21.—Frank Gerwick, 65, one of the early settlers of Gage county, and widely known in this vicinity, died at his farm home, about six miles west of Blue Springs, yesterday. He is survived by ten children, Mrs. Anna Beckman, Fillmore, Calif.; Mrs. Kauitt, Blue Springs; Mrs. Hattie French, Fairview; George C. of Odell; Henry and Frank of Blue Springs; G. E. of Scribner. The family lived southwest of Wymore and near Odell for many years previous to moving to Blue Springs.

C. H. good to Beatrice, slightly rough around Beatrice. Good to Manhattan. Follow Number 14. C. H. good to Fremont, fair to good to Sioux City; detour at Lyons.

S-Y-A good to Grand Island. L-C-D good to Crete.

East O is good to Eagle, very rough to Union, and rough in spots to Nebraska City. Detour near Elmwood. Preferable route to Louisville. Chicago will occur Sunday at the Eden Baptist church and reception at the Lunnen home. About one hundred guests will attend.

R-V good to Raymond Valparaiso. L-S good to Sterling.

K. T. trail fair, detour south of Nebraska City. Heavy rains the past week in the vicinity of Nebraska City, Auburn and Falls City; roads are dry but rough.

Golden Rod highway is rough in eastern and central Nebraska; good in western Nebraska. Lincoln to Columbus, roads good, via Seward, Hold City, and Columbus. The Meridian highway to Norfolk is good, new gravel near Platte Center for five miles.

Lincoln highway, detour out of Omaha, rough in central Nebraska, and generally fair to Grand Island and Cheyenne. From Fremont to Omaha, the Military road is paved and in good condition.

Meridian highway Columbus south to the state line, good.

Tourist travel is increasing. At the Automobile club tourist camp 441 cars have registered since June 1. The tourists numbered 13,200. Most of the travel is headed for Colorado, Yellowstone. Many are going to California.

The following states have been represented this month: Missouri, Kansas, Illinois, Minnesota, Tennessee, Pennsylvania, California, New York, Iowa, Oklahoma, and Washington. One tourist registered at the camp from Egypt, who purchased a car in New York and is touring through to San Francisco. He is touring around the world.

The auto club suggests a trip to Seward today. Use the D-L-D west 18 miles, then six north, then west to Seward, returning on the S-Y-A. The swimming pool will be filled, and a band concert will be given.

HEAVY RAIN IN GAGE.  
(Special to The Star.)

WYMORE, Neb., June 21.—Another soaking rain lasting twelve hours covered Gage county and vicinity Friday thoroughly wetting all crops and making highways very muddy. A total of over three inches has fallen in the past week. Crops are growing fine and good prospects are apparent for excellent returns.

Lincoln highway, detour out of Omaha, rough in central Nebraska, and generally fair to Grand Island and Cheyenne. From Fremont to Omaha, the Military road is paved and in good condition.

Meridian highway Columbus south to the state line, good.

Tourist travel is increasing. At the Automobile club tourist camp 441 cars have registered since June 1. The tourists numbered 13,200. Most of the travel is headed for Colorado, Yellowstone. Many are going to California.

The following states have been represented this month: Missouri, Kansas, Illinois, Minnesota, Tennessee, Pennsylvania, California, New York, Iowa, Oklahoma, and Washington. One tourist registered at the camp from Egypt, who purchased a car in New York and is touring through to San Francisco. He is touring around the world.

The auto club suggests a trip to Seward today. Use the D-L-D west 18 miles, then six north, then west to Seward, returning on the S-Y-A. The swimming pool will be filled, and a band concert will be given.

HEAVY RAIN IN GAGE.  
(Special to The Star.)

WYMORE, Neb., June 21.—Another soaking rain lasting twelve hours covered Gage county and vicinity Friday thoroughly wetting all crops and making highways very muddy. A total of over three inches has fallen in the past week. Crops are growing fine and good prospects are apparent for excellent returns.

C. H. good to Beatrice, slightly rough around Beatrice. Good to Manhattan. Follow Number 14. C. H. good to Fremont, fair to good to Sioux City; detour at Lyons.

S-Y-A good to Grand Island. L-C-D good to Crete.

East O is good to Eagle, very rough to Union, and rough in spots to Nebraska City. Detour near Elmwood. Preferable route to Louisville. Chicago will occur Sunday at the Eden Baptist church and reception at the Lunnen home. About one hundred guests will attend.

R-V good to Raymond Valparaiso. L-S good to Sterling.

K. T. trail fair, detour south of Nebraska City. Heavy rains the past week in the vicinity of Nebraska City, Auburn and Falls City; roads are dry but rough.

Golden Rod highway is rough in eastern and central Nebraska; good in western Nebraska. Lincoln to Columbus, roads good, via Seward, Hold City, and Columbus. The Meridian highway to Norfolk is good, new gravel near Platte Center for five miles.

Lincoln highway, detour out of Omaha, rough in central Nebraska, and generally fair to Grand Island and Cheyenne. From Fremont to Omaha, the Military road is paved and in good condition.

Meridian highway Columbus south to the state line, good.

## HEIRESS' WEDDING SHOCK TO MOTHER

Isabel Shukert of Omaha  
Becomes Bride of Dr.  
Gladstone Derby.

Mother Opposed to Match  
But Not Consulted  
By Parties.

OMAHA, Neb., June 21.—Miss Isabel Shukert, Omaha heiress and Dr. Gladstone Derby, a Trustee of Securities Building without the key to the building, were married today in Council Bluffs. Mrs. C. C. Shukert, the mother of the bride, was shocked when she learned that her daughter had not been notified of the wedding.

What she did not know is that they had been engaged and had opposed the match because Dr. Derby is divorced and has a family to support. Her daughter had not confided any of her plans in her.

The bride is one of the children of the late estate of Dr. Shukert, who died September 9, 1914, leaving an estate estimated at a million dollars.

By the terms of his will his wife and children were to share it equally, but there was a provision that the children were not to receive their inheritance until they reached the age of 25.

Isabel, according to her mother, is now 20 years old, but has not yet received her share. The other children are Iota and Gustav J. J.

The marriage ceremony was witnessed by Mr. and Mrs. Augustus Dunbabin. Afterward the wedding party went to Greenwood Park. The couple will live in Council Bluffs.

The ceremony was performed by the Rev. Carl Henderson, pastor of the Emmanuel Lutheran church in Council Bluffs.

Dr. Derby is 34 years old. The Derbys and Mr. and Mrs. Dunbabin plan to motor to the southwest where they will spend two months.

Dr. R. F. Childs will join them.

## Three Omaha Girls Cannot Be Located

OMAHA, Neb., June 21.—After spending the night searching the city over in an automobile for his 8 year old daughter, Eleanor—Glen Luderback of 40 South Nineteenth street this afternoon had found no trace of her.

She disappeared last night after starting for a show with her cousin Pauline Sweet, 16, daughter of Mrs. Martha Sweet, 3409 11 street, who also failed to return home.

Police also today were asked to hunt for Mrs. Luderback's 14 daughter of Mrs. Daddi, 1409 S street, who disappeared yesterday.

Mrs. Luderback said that while returning home Thursday night she dropped her pocketbook in some weeds along the sidewalk and suspects perhaps her daughter picked it up and used the money to finance her disappearance.

Mrs. Sweet said her daughter and the Lane girl had been running together, but that she and Mrs. Lane had been trying to keep them apart. They were not seen together last night.

## Many Children Earn Way Through School

HARRISBURG, Pa., June 21.—Forty thousand children attended continuation schools last year in Pennsylvania and at the same time contributed a total of \$10,000 to ward the support of their families while rounding out an education that had been interrupted because of the necessity of seeking work.

More children are enrolled in the Pennsylvania part time schools than in similar schools in most of the other states in the country, while the proportion of teachers and men was less than half the average paid by other states for this function, according to Paul F. H. Dennis, director of vocational education.

## First Woman Governor of U. S. Showered With Congratulations

SANTA FE, N. M., June 21.—Buried beneath a stack of congratulatory messages, arriving from all over the United States and swamped with a constant stream of Santa Fe citizens to deliver their messages of congratulation in person, Mrs. Solidad Chacon, the nation's first first woman state governor had no time for executive duties today.

Suffrage leaders throughout the land and not a few men showered Mrs. Chacon with messages during the day.

Only one official act was created for the woman governor today—confirmation of appointment of a state public.

While Mrs. Chacon was ministering to the press that she would

only carry out the program of Governor Hinkle during his absence.

There was at least one radical change noted in the executive office.

In the center of the desk stood a vase containing a huge bouquet of fragrant flowers—replacing, as it were, the customary gilded box of special "super strength" Havana with which Governor Hinkle greeted his visitors.

For the first time in years on a busy day the atmosphere of the room was free from smoke, and instead bore the scent of a lady's perfume.

Mrs. Chacon is a beautiful woman of thirty-four and of Spanish descent.

## Alienists Prepare Exhaustive Reports To Show Leopold and Loeb, Alleged Slayers, Insane

CHICAGO, June 21.—Nathan Leo gold Jr. and Richard Loeb, sons of millionaires and confessed slayers of 14 year old Robert Franks, were victims of an intellectual complex which made them irresponsible for their crime, brilliant alienists who have been retained by the defense are ready to testify the result of exhaustive research and medical examination of the two super intellectuals in the prison laboratory is being prepared. It now runs more than 200,000 words and the doctors are at work cutting it down to a comprehensive analysis of the boys' cases so that it can be used in their attempt to establish Loeb and Leo's legal insanity.

Both College Graduates

Both boys were college graduates and were working at the University of Chicago for higher scholastic honors.

Leopold, son of the millionaire head of a paper box company had received his law degree and was studying law.

Loeb, whose father is Alfred H. Loeb, vice president of a large mail order house, was the youngest graduate of the University of Michigan and also was studying law. Both are scarcely nineteen years old.

That the boys were unbalanced mentally will be the plea of the defense.

Attorneys for the prosecution are preparing a counter case. They will use every means at their command to break down the insanity plea.

Dozens of persons who were intimate with the boys and familiar with their habits will be called upon to testify that the slayers were normal in every respect.

The trial is scheduled to open August 4.

Now the tests are about completed.

## HEIRESS' WEDDING SHOCK TO MOTHER

Isabel Shukert of Omaha Becomes Bride of Dr. Gladstone Derby.

Mother Opposed to Match But Not Consulted By Parties.

OMAHA, Neb., June 21.—Miss Isabel Shukert, Omaha heiress, and Dr. Gladstone Derby, dentist, 323 Securities building, without the knowledge of the bride's mother, were married today in Council Bluffs.

Mrs. G. F. Shukert, the mother, 2223 Larimore avenue, said the marriage was against her wishes, and that she had not been notified of the ceremony.

"What!" exclaimed Mrs. Shukert. She said she did not know that they were even engaged and had opposed the match because Dr. Derby is divorced, and has a family to support.

Her daughter had not confided any of her plans in her, Mrs. Shukert said.

The bride is one of three children of the late Gustave E. Shukert, father, who died September 21, 1921, leaving an estate estimated at a million dollars.

By the terms of his will, wife and children were to share it equally, but there was a provision that the children were not to receive their inheritance until they reached the age of 30 years.

Isabel, according to her mother, is now 30 years old, but had not yet received her share. The other children are Flora and Gustav E. Jr.

The marriage ceremony was witnessed by Mr. and Mrs. Augustus Dunbier. Afterwards the wedding party went to Elmwood park. The couple were in tourist garb.

The ceremony was performed by the Rev. Carl Henderson, pastor of the Immanuel Lutheran church in Council Bluffs.

Both are 35 years old.

The Derbys and Mr. and Mrs. Dunbier plan to motor to the southwest where they will spend two months.

Dr. R. F. Gilder will join them.

Three Omaha Girls Cannot Be Located

OMAHA, Neb., June 21.—After spending the night, searching the city over in an automobile for his 8-year-old daughter, Eleanor, Glen Launderback, 5426 South Nineteenth street, this afternoon had found no trace of her.

She disappeared last night after starting for a show with her cousin, Pauline Sweet, 16, daughter of Mrs. Martha Sweet, 3409 U street, who also failed to return home.

Police also today were asked to hunt for Linda Lane, daughter of Mrs. Hulda Lane, 1805 S street, who disappeared yesterday.

Mrs. Lane said that while returning home Thursday night, she dropped her pocketbook in some weeds along the sidewalk and suspects perhaps her daughter picked it up and uses the money to finance her disappearance.

Mrs. Sweet said her daughter and the Lane girl had been chumming together, but that she and Mrs. Lane had been trying to keep them apart. They were not seen together last night.

Many Children Earn Way Through School

HARRISBURG, Pa., June 21.—Forty thousand children attended continuation schools last year in Pennsylvania and at the same time contributed a total of \$12,000,000 toward the support of their parents while rounding out an education that had been interrupted because of the necessity of seeking work.

Police Probing Killing of Japs

Consul General Demands Speedy Solution of Mystery Deaths.

Believe Anti-Japanese Demonstrations May Have Been Cause.

LOS ANGELES, June 21.—Completed investigation of the mysterious death of three Japanese, which has baffled Los Angeles authorities, was demanded tonight by Japanese representatives.

U. S. Consul, Japanese consul general at San Francisco, requested the speediest possible solution of the finding of the mutilated, shot-riddled bodies of two Japanese on a lonely beach and suspects perhaps her daughter picked it up and uses the money to finance her disappearance.

Mrs. Sweet said her daughter and the Lane girl had been chumming together, but that she and Mrs. Lane had been trying to keep them apart. They were not seen together last night.

Young Whitney, former Yale athlete and member of one of the nation's "first families" also the court to issue an injunction preventing further prosecution.

The answer to the suit denies that Whitney is the father of Miss Fontaine's three-year old child, and sets forth that the dancer's parents attempted to trick him into an unwedding marriage with the former follies girl.

The alleged attempt at a "frameup" was made in the Taft hotel, New Haven, Conn., when Miss Fontaine inveigled him to her room and there in the presence of her father and mother accused him of being the father of the child she was expecting.

Young Whitney further charges that during his acquaintances with the girl she was married to Sterling L. A. Dair, although she posed as a single woman.

The next step in the legal battle, which has been waged by Miss Fontaine for many months, will come when the court either upholds Whitney's answer and dismisses the case, or decides the answer is insufficient and orders the case to trial.

## CHEAP MONEY IS WEEK'S FEATURE

Leading Banks Lend \$12,000,000 During Period, Highest Since April.

## Business In Northwest Improving And World Shortage Of Wheat Probable.

NEW YORK, June 21.—Cheap money rates and surplus funds should be the feature of the business situation. Leading banks report lending more than \$12,000,000, the highest amount since April. Call money in Chicago dropped 2 per cent, the lowest rate in the history of that city. The United States government's financial position is stronger than at any time since the war, the gross national debt being reduced \$1,000,000,000 so far during the present fiscal year. Business prospects in the northwest are improving.

An estimated shortage in the world's wheat supply is causing more optimism among the western grain growers. Private estimates have now put the United States cotton crop at approximately 10,713,900 bales, slightly more than last year.

Improved weather was reported from the wheat belt. Corn is growing a poor start owing to cold, wet weather, which has caused some damage to fruit and vegetables. There was

heavy trading in the Chicago grain market during the week, 50,000,000 bushels of wheat changing hands in one day. The visible supply of United States wheat declined 1,127,000 bushels.

The amount of the crop brought into sight was 102,388 bales against 124,364 last week. The week's exports were 57,640 bushels compared with 50,168 bushels last week. Visible supply of United States cotton was estimated at 1,315,109 bales against 1,366,440 bales last week.

Advances and declines in Liberty Land prices were about evenly divided this week. New bonds of various kinds marketed totalled \$92,000,000. French, Italian and Japanese government bonds were strong.

Broadstreet's reported 409 business failures in the United States this week against 381 last week. Most of these were in middle western states.

Bank clearings in the United States this week were estimated at \$8,731,107,807 against \$7,195,960,247 last week.

The average price of twenty representative industrial stocks was 93.67 against 93.43 last week. The average price of twenty representative rail stocks was \$5.32 against \$5.17 last week.

**A Bath a Day Keeps You Fit Every Way**

This slogan "A Bath a Day Keeps You Fit Every Way" has circled the world. It is a messenger of better health, greater ambition, higher efficiency, longer happiness. A bath a day is a better tonic than anything put up in bottles. Cheaper, too. It doesn't matter what kind of a bath you take—cold or cool, hot or warm. And it doesn't matter how you take it—in a tub or under a shower. Take it every day. It is the every day habit that gives health and all that goes with health. June is National Bath - Day Month which means now is good time to start the daily bath habit.

### AN "OUT-OF-THE-ORDINARY" SQUARE HOUSE

A square house is often desirable, and need not be ugly. But as it is handicapped in this respect to start with—for few of us would call a cube the most pleasing shape for a house—special care needs to be taken in the design of a square house.

This out-of-the-ordinary house combines all the convenience of the popular 24x26 floor plan with a distinctive exterior. At the same time, it is a house which may suitably be built in a row of ordinary square houses and not be considered freakish. Batten shutters and a half-timbered second story, with bracketed overhang, give a different touch to the exterior, and the overhang also affects the interior by adding one foot space each way to the rooms on the second floor.

The absence of heavy columns on the front porch, or stubby posts a top of squat piles of masonry is a great improvement, don't you agree? The open cornice is to be recommended from the artistic standpoint also.

A single central chimney provides for hot-air heating system and for the kitchen range. The front door opens directly into the living room, which extends across the front of the house, with an open space at the side. It is this feature that lacks of a fire place. There is a door at the rear of the living room which leads to the kitchen and the grade entrance and basement. The kitchen is a small room, with a built-in dresser and worktable, and windows on two sides to keep it pleasantly light and airy.

French doors lead from the living room to the dining room. A pair of new-old-fashioned corner china closets is pleasing as well as practical.

Upstairs there are three bedrooms, each with at least one generous clothes closet. Two of them are provided with a built-in dressing table and a tray case respectively. The bathroom is unusually large, and includes a towel cabinet and a full-sized linen case.

If you are looking for a six-room "square" house, modern and unusually convenient in plan, and in good taste architecturally, you cannot make a mistake in choosing this design.

## Moist Heat

All pig iron used in the construction of the Nesbit-Standard Furnaces is of special, specified analysis of known character and durability.

Our experience shows that different kinds of iron are intended for various purposes and that it requires a special mixture in the manufacturing of castings intended for use in high type furnace such as the Nesbit Standard. Estimates are Free.

# Lincoln's First Street Car Line Was Horse Car System Operated from Depot to Hotel

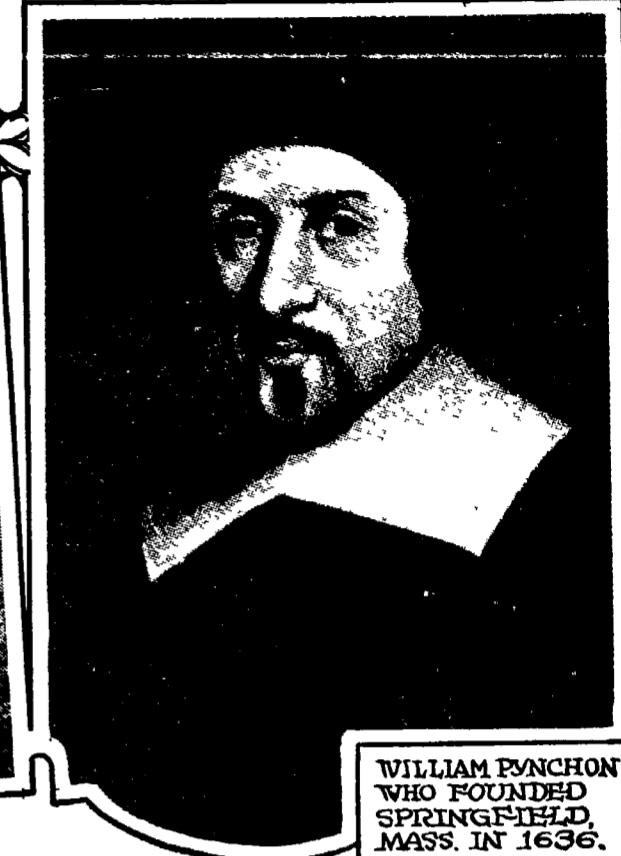

F.W. PYNCHON  
WHO HELPED  
SECURE THE  
FIRST STREET  
CAR FRANCHISE  
FOR LINCOLN.

PHOTO BY  
MACDONALD

THE FIRST HORSE CAR  
AND DRIVER IN LINCOLN

WILLIAM PYNCHON  
WHO FOUNDED  
SPRINGFIELD,  
MASS., IN 1636.

BY LULU MAE COE.

Two hundred and eighty eight years ago, William Pynchon, in search of freedom and a home, looked upon a site of land in Massachusetts and called it Springfield.

Lonely little places were the colonies in those days, long before these United States were thought of. The Mayflower had brought its little band of courageous believers in their religious rights only sixteen years before. Their numbers had grown, and they were yet isolated bits of humanity in a world that seemed terribly large and so far away from the homes across the terrifying sea. The first small colony had come only a little more than a quarter of a century before, with high hopes to make permanent homes in the new country. The Indians had lived and had disappeared and only dredg conjectures were left as to their fate. The menace of that strange story clung to the colonists.

Faith in His Belief.

In the face of discouraging tales of quarrels that not uncommonly could easily end in dissension and disunity, William Pynchon believed and upon his belief founded a home and a city.

Hope and courage formed the cornerstone of his venture, for he knew so little of the world beyond his doorstep. He only knew that there were vast lands to the west, everywhere west in the setting sun, and that a few white men had ever been there. He only knew the little cleared spot where he and a few others lived, a spot never quite at peace, with its hovering fears of the Red men, of death, and of starvation and want.

Possibly though, when the world was pink with May, he stood by his little cabin in this dark-bearded man in the round, black cap and the flat broad white collar, and wondered about the world stretching forth from his two vistas beyond the dreams of man. Perhaps, he wondered, man would even push in this unknown, and so had the colonists had come across the sea, buoyed only by convictions of right. Perhaps he wondered if men might ever make colonies there, if men would continue to dare, and would there be little log hamlets in that wilderness.

Probably he dreamed for he had a dream, and out of dreams come adventure, but even as he dreamed he could not know that one of his own descendants would be identified with one of those "hamlets," finer than the old world cities he had known, that one of his descendants would help one of those hamlets in a state of which he could not dream to find itself and its power.

Coming to Lincoln in 1879.

Two hundred forty-three years after William Pynchon founded Springfield, Mass., F. W. Pynchon and a friend drove into Nebraska from Carroll City. In whether or not the springtime adventure was an accident, he left. F. W. Pynchon will never know, but something compelled him to stop here in the struggling, sombre, shabby little Lincoln which was quite an outpost even in 1879.

Mr. Pynchon was in Lincoln this week the guest of his daughter, Mrs. E. H. Holcomb, and her husband. It is the first time in thirty-three years that he has been here. Summer travel brought him here this time—en route from a visit at Springfield, Mass.—but he remembers rather more vividly the immediate motive that compelled him to Lincoln the first time—though in truth it was the desire of the young hand of that young William Pynchon. He and his friend came from Carroll City in October, 1879, but those were the days of hard winters, and ground was well hidden under two feet of snow. The men had been doing their own cooking with rather meager fare through the sparsely settled territories and the primitive homes they stopped at Newton for breakfast. Newton is now Havrelock, but in those days the only town consisted of one farm house.

Mr. Pynchon went over to buy bacon and eggs to add to the morning meal and something in the cheery farm kitchen, the farmer having left the farm atmosphere where memories of Mr. Pynchon's New York home, and, as he says, he had a case of homesickness. He and the other man had intended going further west but Mr. Pynchon's two came to Lincoln. Mr. Pynchon parked his trunk at a pair of boulders for the winter, and the other man took the team.

Havrelock Then Farm Land.

Mr. Pynchon returned to the farm

home and spent the winter there. The farmer owned the most of the present Havrelock, and Mr. Pynchon herded

cattle over several hundred acres that winter and the next summer he hauled hay to the old Haymarket

squares on Q street. Farm life later lost its interest, and Mr. Pynchon came to the "city," where he drove a team for Winger and Miller, then located at Tenth and P streets.

He wasn't satisfied with delivering political pie. Along in the fall of '81

a young man by the name of Harry Durfee came out from Illinois to start horse car service in Lincoln. He met

Gorman Betts and the two of them, with Mr. Pynchon, became interested in getting a franchise for a horse car line.

"Bud" Lindsey's saloon was the center of political life in those days, and his bar on the north side of O street was always filled with men eager to advance the civic life of Lincoln. The three men often met there and in the course of time, "Bud" Lindsey, who had a strong political pull, secured the franchise for the men.

Laid Ties on Muddy Street.

Ties for the new line, the very first in all of Lincoln, were laid right on top of the muddy streets, for even block paving was then an event of the future. M. V. Rohr, who had come from Aurora, Ill., shortly after Mr. Durfee helped lay the rails, and who drove the first horse car. The line covered all of Lincoln. It began at the Burlington station, went up P to Tenth street, over to O street, up to Thirteenth street, and across to the Lindell hotel, where it ended in nothingness.

There were two cars in the new company, which began business in the summer of 1882. The first day, mules were driven but after that horses were the order of the day. The time that Mr. Pynchon and the other two men owned the company was a tragic time. There were not enough passengers even at a nickel a fare, to pay the drivers. Durfee, when paying the bill, "Thirty-third street was the country" were so small that people walked over the first four days, when rides were free.

No Rules or Regulations.

The drivers left the opposite ends of the line at the same time—supposedly. However, if one met a friend at the Lindell who wished to talk or some one asked the other driver to "wait a minute," the drivers did, for there were no rules. The switch for paying was at each end of the street, so one who would wait a long time that he would return to the starting point, and according to Mr. Pynchon, the service would not be straightened out all day.

Boys adored to steal rides on the back of the cars, too, and then the drivers would have troubles. He was forced to grab his whip, stop the car and run around in an ankle deep mud or thick white dust to chase the boys, usually more nimble than he. And in the mean time the passengers waited—and anathematized the street car service.

The men behind Lincoln's first traction company were very young men in those days, and they didn't have the capital to enlarge and carry on the company. Having gained the concession and improved Lincoln somewhat civically, they sold the franchise to D. E. Thompson after eight months. Another deciding factor was the health of Harry Durfee, who was compelled to leave Lincoln.

Sold Lincoln Real Estate.

Mr. Pynchon stayed on, however. Real estate trading seemed to him the road to high finance, and he used his slender capital from the franchise sale for good purposes. Much of the property of the early Lincoln and some of which is still standing was his to pass on, for a time. Until the "bottom fell out of things" as he says, Mr. Pynchon remained in Lincoln, promoting real estate holdings.

With others, he built the property at Fifteenth and O streets, where the Nebraska State bank is now located, and he also built the structure at 2210 O street, which was erected as a combined store and apartment house. This three-story brick is yet standing and in daily use.

At one time, Mr. Pynchon had a dream of making Belmont what Havrelock probably is today. The shops were more advantageously located for that purpose then than now, and he believed that it would develop into an excellent home site for working men. With this plan in mind, he platted Belmont and added it divided into lots.

However, though he tried to live up to the spirit of the ancestor who also founded a town, Mr. Pynchon was unable to cope with the forces of nature and had to give up the project. The street car company obligingly agreed to run a mile car out there and all seemed well for the new addition, when Sait Creek performed during a spring freshet.

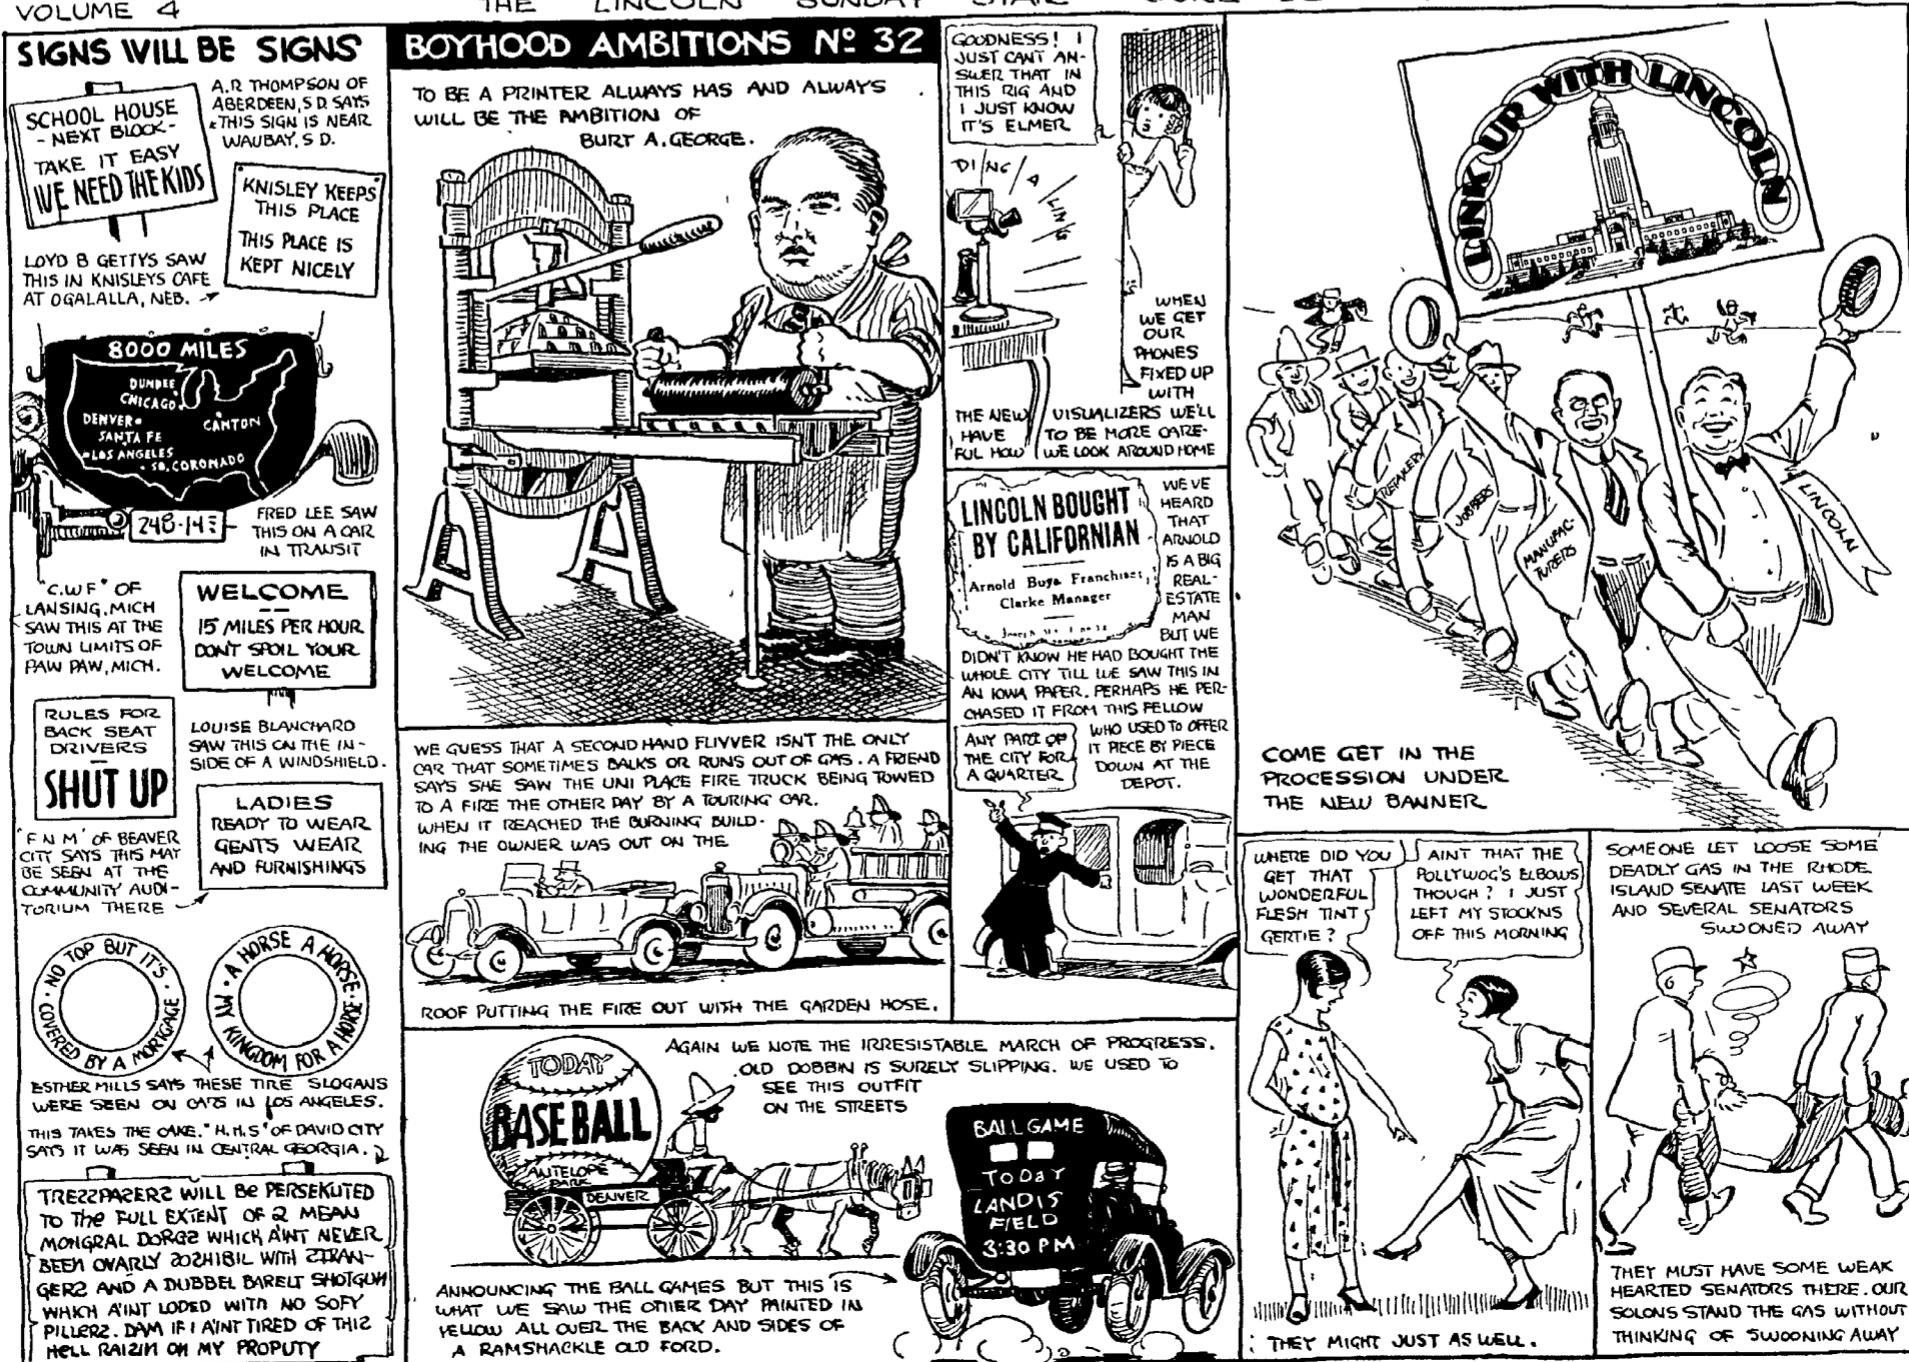

Sait Creek Cuts Up.

Overflowing its banks, it inundated

THE FIRST HORSE CAR  
AND DRIVER IN LINCOLN

BY LULU MAE COE.

Two hundred and eighty-eight years ago, William Pynchon, in search of freedom and a home, looked upon a site of land in Massachusetts and called it Springfield.

Lonely little places were the colonies in those days, long before these United States were thought of.

The Mayflower had brought its little band of courageous believers in the New World eight only sixteen years before. Their numbers had grown, but they were yet isolated bits of humanity in a world that seemed terribly large and so far away from the homes across the terrifying sea.

The first sal little colony had come only a little more than a century before, with high resolves to make progress in the new country. The members had lived and had disappeared and only dread conjectures were left as to their fate. The menace of that strange story clung to the colonists.

Faith in His Belief.

In the face of discouraging tales, of quarrels that not even common bonds could quiet, of dissension and disappointment, William Pynchon believed and upon his belief founded a home and spent the winter there. The farmer owned the most of the present cattle over several hundred acres that winter and the next summer he had hay to the old Haymarket square on Q street. Farm life later lost its interest, and Mr. Pynchon hauled hay to the old Haymarket team for Winger and Miller, then located at Tenth and P streets.

He wasn't satisfied with delivering

however, and he wanted to help the city grow and have a finger in the political pie. Along in the fall of '81 horse car service in Lincoln. He met

Gorman Betts and the two of them, with Mr. Pynchon, became interested in getting a franchise for a horse car line.

"Bud" Lindsey's saloon was the center of the political life in those days and his bar on the north side of O street was always filled with men eager to advance the civic life of Lincoln. The three men often met there and in the course of time, "Bud" Lindsey, who had a strong political pull, secured the franchise for the men.

Laid Ties on Muddy Street.

Ties for the new line, the very first in all of Lincoln, were laid right on top of the muddy streets, for even block paving was then an event of the future. M. V. Rohr, who had come from Aurora, Ill., shortly after Mr. Durfee, helped lay the rails and also drove the first horse car. The line covered all of Lincoln. It began at the Burlington station, went up P to Tenth street, over to O street, up to Thirteenth street, and across to the Lindell hotel, where it ended in nothingness.

There were two cars in the new company, which began business in the summer of 1882. The first day, mules were driven but after that horses were the order of the day. The time that Mr. Pynchon and the other two men owned the company was a tragic time. There were not enough passengers, even at a nickel a fare, to pay the drivers. Distances, when anything beyond Thirteenth street was the "country" were so small that people walked after the first four days.

No Rules or Regulations.

The drivers left the opposite ends of the line at the same time, independently. However, if one met a friend at the Lindell who wished to talk or some one asked the other driver to "wait a minute," the drivers did, for there were no rules. The switch for passing was at Tenth and O streets, sometimes one would wait so long that he would return to the starting point, and, according to Mr. Pynchon, the service would not be straightened out all day.

It was common to steal rides on the back of the cars, too, and then the driver would have troubles. He was forced to grab his whip, stop the car, and run around in ankle deep mud or thick white dust to chase the boys, usually more nimble than he. And in the mean time the passengers waited—and anathematized the street car service.

The men behind Lincoln's first traction company were very young men in those days and they didn't have the capital to enlarge and carry on the company. Having gained the concession and improved Lincoln somewhat civically, they sold the franchise to D. E. Thompson after eight months. Another deciding factor was the health of Harry Durfee, who was compelled to leave Lincoln.

Sold Lincoln Real Estate.

Mr. Pynchon stayed on, however, until the road to high finance, and he used his slender capital from the traction company to buy a house. Much of the property of the early Lincoln and some of which is still standing was his to pass on, for a time. Until the "bottom fell out of things," as he says. Mr. Pynchon remained in Lincoln, promoting real estate holdings.

With some others, he built the property at First and O streets, when the Nebraska State bank was not located, and he also built the structure at 2210 O street, which was erected as a combined store and apartment house. This three-story brick is yet standing and in daily use.

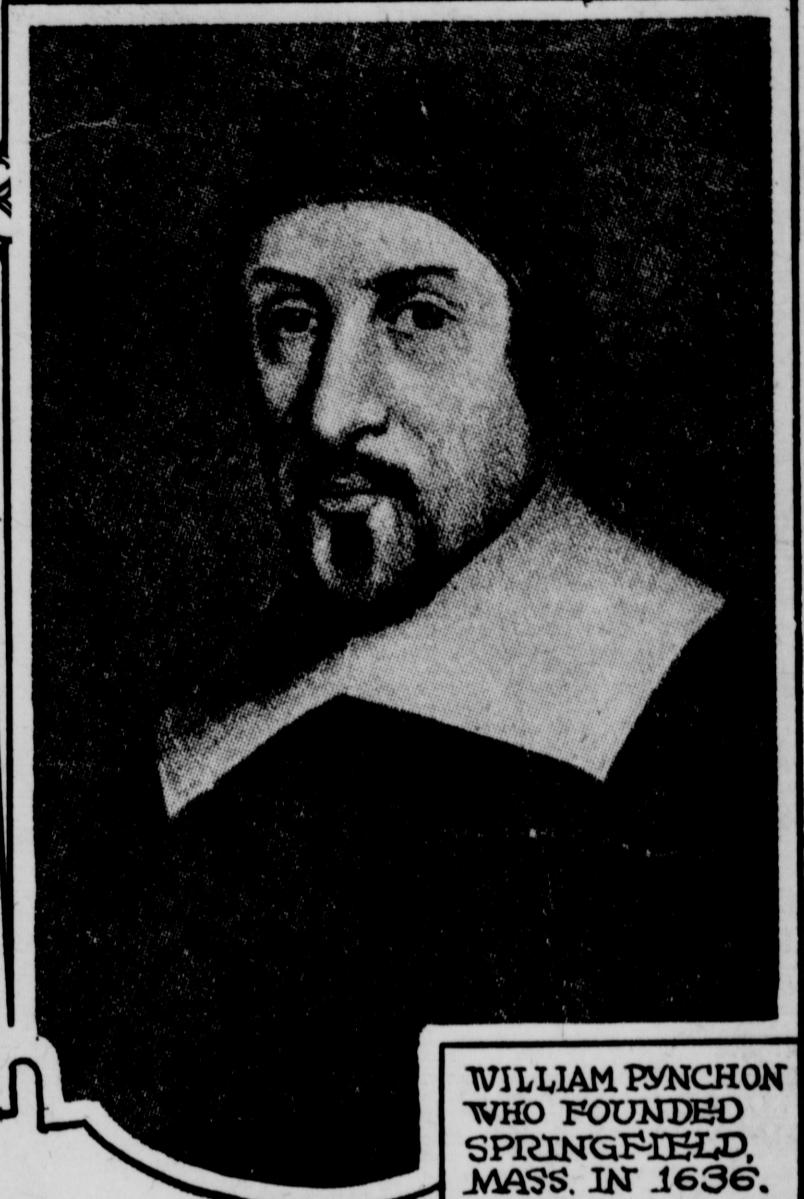

At one time, Mr. Pynchon had a dream of making Belmont a town. Mr. Havelock probably is today. The shopkeeper, the advanced school for that purpose than now, and he believed that would develop into an excellent home site for working men. With this plan in mind, he platted Belmont addition and had it divided into lots.

However, though he tried to live up to the spirit of the ancestor who also founded a town, Mr. Pynchon was unable to compete with forces of nature and had to give up the project. The street car company originally agreed to run a mule car out there and all seemed well for the new addition, when Salt Creek performed during a spring freshet.

# Lincoln's First Street Car Line Was Horse Car System Operated from Depot to Hotel

WILLIAM PYNCHON  
WHO FOUNDED  
SPRINGFIELD,  
MASS., IN 1636.

# Golf Course At Eastridge Country Club Will Be Opened July Fourth

Eastridge, Lincoln's new suburban club, opens Independence Day. Not all the facilities of the club, with the swimming pool and the outdoor dancing floor, nor even the club house itself—only the instruction station, which is after all to the sportsman, is the most important one. For the golf course is to be opened July 4, and the basement locker rooms of the club house will of course be in operation then.

It is a mile from the eighteenth hole for the 111 acres of the club's property includes a full course club, enter the south grade door, which leads immediately into the basement room. Here you come first to the counter of the little room reserved for the use of Charles Koontz, manager of the club. On the other side of the brick-in soda fountain and the small tables for service, for what is golf without the fifteenth hole?"

But a long cooling drink is not the only necessity, the showers and lockers are farther down to the south. First come the lockers in groups of eight, the dressing room also between. Here the golfers, after play, on July 4 and the succeeding days, when the golfers take their materials out to park them, rub against the scuffed caddy-bag, and the old mashie, that shoots so well, can give advice to the new driver which somehow hasn't the efficiency it ought to have.

Charles Koontz, the Eastridge professional, has been working for some time trying to get the course in shape for the golfer to find his recreation there. And now on the Fourth of July, Mr. Tired Business Man, if he happens to be one of the 300 people who have joined, and are on the membership list of Lincoln's newest country club, can take his golf bag and his clubs and go out to Eastridge—to play.

What does it matter that he is tired? Golf is the invigorator. What does it matter that the screens at home are still in the attic? Golf gives him a chance to be in the open air. What does it matter that the tennis racket and the horse-shoes with which he used to play are covered with cobwebs in the dusty attic? Golf is the game of the hour, and he must play.

But Mrs. Tired Housewife, and Mrs. Nervous Mother, and Mrs. Tired Business Woman, for they are too—will also be benefited by the new course, laid out on rolling prairie which is supposed to be Nebraska's distinguishing feature.

The club house, now in the process of completion, is so arranged as to accommodate the golfer, who has been around the nine or eighteen holes, and to find a quiet nook for amusement for the young girl who likes to play a round or two, and for the older woman who is trying to get over the course during the day, and even for the somewhat stout lady who has been told that the Scotch game is the easiest way to drop pounds in the second-old-age.

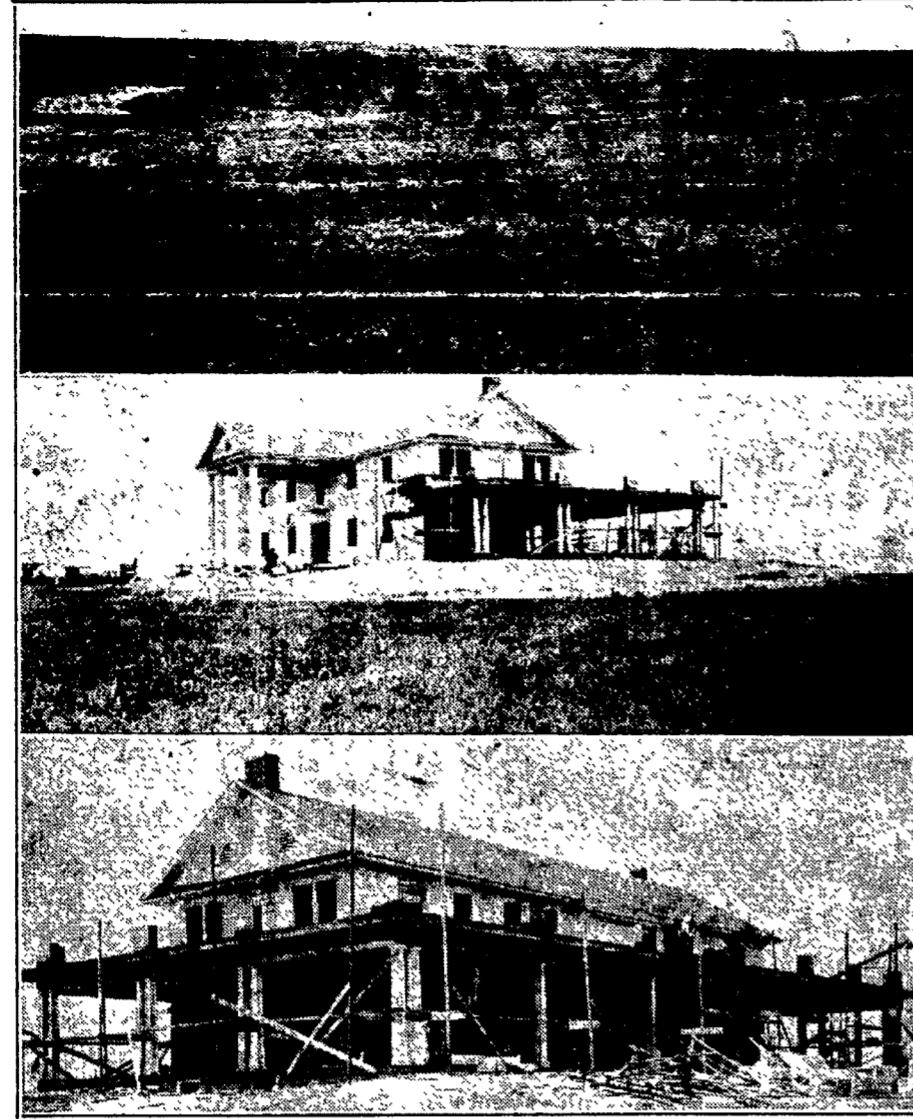

Wide verandas run on the north and south sides of the club house, the thirty-foot part to the north of the east side to be inclosed and used as a dining room. This east porch is twenty feet wide, and the south one measures sixteen. Two doorway lead from the porch into the kitchen which is a model of convenience. The coffee urn, the kitchen sink, the gas range, and the refrigerator are placed exactly in the spot where it will be easiest for the cook and the waitress to co-operate in service without additional effort.

At the south end, also is the general sitting room, where writing desks, the telephone booth, and the other little miscellaneous conveniences for the guests and members can be plated.

The large living-room, with its huge brick fireplace to the south, and the two wide French doors on either side leading out on the spreading veranda, is designed to be a "Tent" will be deep leather chairs and a divan or two perhaps, and shaded lights. But on party evenings, the furniture will all be ranged along the walls for the floor is to be used for dancing.

The last of August is the tentative date set for the completion of the club house and its opening. At least that event will take place during the last week of the last summer month. A sweeping staircase leads to the second floor of the Colonial club house, where we shall find the apartment reserved for the golf professional, the men's smoking room, the ladies' shower and dressing rooms, and the women's lounge.

The duty of the golf professional, of course, is to be at the links almost any time he is wanted, except when some other thing in connection with the club prevents. He however must watch the condition of the links and

A new golf course will be opened July 4 at the site of the Eastridge country club, Lincoln's newest suburban club house. The picture above shows the rolling plain and the hazards at the seventeenth hole on the new course.

The club house, not to be officially opened until the first part of August, will be complete as to locker room equipment for the Independence day opening of the course. The center picture shows the club house from

MacDonald, the southwest, with the tall pillars of the front entrance, and the wide porch on the southern side.

Below: The new club house from the southeast, showing the two porches on these two exposures. The view from the new clubhouse shows Lincoln and her suburbs, and the site, on the top of a hill in the outskirts of town, is ideal for summer dancing parties and for golfing excursions.

now also be available for lessons at the time he is desired.

And the time has therefore been

finished in the north half of the second floor of the Eastridge club house. Two bedrooms, and a bath are included in the plan. There is a private entrance with stairs leading to the Koontz apartment.

To the right as one goes down the hall is the men's smoking room which opens on the small walled-in balcony which is built on the pillars of the front entrance. There will be open chairs for comfort, and this will be an informal place for chats and the smoking of an occasional "peace pipe."

Across the hall is the women's sitting room and dressing room. Dressing tables are to be placed just under the two high windows, and the Tired Business Woman or the Nervous Housewife who comes in after a strenuous nine holes will there find coolness, and the opportunity to make herself presentable before she goes in to dinner.

The south room is given over to the large women's lounge. Here another fireplace adds the note of cheer, and the promise of a cozy glare fit on those infrequent cool evenings when just the suggestion of warmth is to be desired. Windows open to the south, the east, and the west, but there is plenty of space for decorations and for the background of divan-pieces and comfortable chairs.

Here, then, is the resting place for the golfer after his strenuous game. Here is the clubhouse, made as conveniently and as comfortable as pos-

sible under the direction of the officers, and board of the new club, of which Guy Parker is president, Leo S. Hylund, secretary, and James J. Burt, treasurer. The officers, under whose leadership the course of Lincoln's newest country club will be opened

July 4.

# Golf Course At Eastridge Country Club Will Be Opened July Fourth

Eastridge, Lincoln's new suburban club, opens Independence Day. Not all the facilities of the club, with the swimming pool and the outdoor dancing floor, nor even the club house itself—only the introductory step, which is after all to the sportsman is the most important one. For the golf course is to be opened July 4, and the basement locker rooms of the club house will of course be in operation then.

If you come from the eighteenth hole—for the 111 acres of the club's property includes a full course—you can enter the south grade door, which leads immediately into the basement room. Here you come first to the locker of Charles Koontz, professional for the club. On the other side is the brick-in soda fountain and the small tables for service, for what is golf without the "nineteenth hole?"

But a long cooling drink is not the only necessity, the showers and lockers are farther down the south. First come the lockers in groups of eight, with three-yard aisles between. Here the aristocratic golf ball will, on July 4 and the succeeding days, when the golfers take their materials out to park them, rub against the scuffed caddy-bag, and the old mashie, that shoots so well, can give advice to the new driver, which some how hasn't the efficiency it ought to have.

Charles Koontz, the Eastridge professional, has been working for some time trying to get the course in shape for the golfer to find his recreation there. And now on the Fourth of July, Mr. Tired Business Man, if he happens to be one of the 300 people who have signed on the membership list of Lincoln's newest country club, can take his golf bag and his clubs and go out to Eastridge—to play.

What does it matter that he is tired? Golf is the invigorator. What does it matter that the screens at home are still in the attic? Golf gives him exercise in the open air. What does it matter that the tennis racket and the horseshoes with which he used to play are covered with cobwebs in the dusty attic? Golf is the game of the hour, and he must play.

But Mrs. Tired Housewife, and Mrs. Nervous Mother, and Mrs. Tired Business Woman—for they there are too—will also be benefited by the new course, laid out on rolling prairie which promises to be Nebraska's distinguishing feature.

The club house, now in the process of completion, is so arranged as to accommodate the golfer, who has been around the nine or eighteen holes, and to furnish also amusement for the young girl who likes to play round or two, and for the older woman who is trying to get into the course during the day, and even for the somewhat stout lady who has been told that the Scotch game is the easiest way to drop some of the excess avoidous.

Wide verandas run on the east and south sides of the club house, the thirty-foot part to the north of the east side to be inclosed and used as a dining room. This east porch is twenty feet wide, and the room measures sixteen feet. Two doorways lead from this east porch into the kitchen which is a model of convenience. The coffee urn, the kitchen sink, the gas range, and the refrigerator are placed exactly in the spot where it will be easiest for the cook and the waitress to co-operate in service without additional effort.

At the south end, also is the general utility room, where writing desks, the telephone booth, and the other little miscellaneous conveniences for the guests and members can be placed.

The large living-room, with its huge brick fireplace to the south, and the two wide French doors on either side looking out on the spreading veranda, is a delight to the eye. Here will be deep leather chairs, and a davenport or two perhaps, and shaded lights. But on party evenings, the furniture will all be ranged along the walls, for the floor is to be used for dancing.

The first of August is the tentative date set for the completion of the club house and its opening. At least that even will be the date of the first week of the last summer month.

A sweeping staircase leads to the second floor of the Colonial club house, where we shall find the apartment reserved for the golf professional, the men's smoking room, the ladies' shower and dressing rooms, and the women's lounge.

The golf professional, of course, is to be at the links almost any time he is wanted, except when some other thing in connection with the club prevents. He however must watch the condition of the links and

A new golf course will be opened July 4 at the site of the Eastridge Country club, Lincoln's newest suburban club house. The picture above shows the rolling plain and the hazards at the seventeenth hole on the new course.

The club house, not to be officially opened until the first part of August, will be complete as to locker room equipment for the Independence day opening of the course.

must also be available for lessons at

the time he is desired.

An apartment, therefore, has been finished in the north half of the second floor of the Eastridge club house. Two bedrooms, and a bath are included in the plan. There is a private entrance with stairs leading to the Koontz apartment.

To the right as one goes down the hall is a small sitting room which opens on the small raised-in balcony which is built on the pillars of the front entrance. There will be deep chairs for comfort, and this will be an informal place for chats and the smoking of an occasional "peace pipe."

Across the hall is the women's showering room and dressing room. Two wide dressing tables are to be used just under the two high windows, and the Tired Business Woman or the Nervous Housewife who comes in after a strenuous nine holes will there find coolness, and the opportunity to make herself presentable before she goes to dinner.

The south end is given over to the large women's lounge. Here, too, the women adds the taste of chess and the promise of a cozy grate fire on those infrequent cool evenings when just the suggestion of warmth is to be desired. Windows open to the south, the east, and the west, but there is plenty of wall space for decoration, and for the background of davenport and comfortable chairs.

Here, then, is the resting place for the golfer after his strenuous game. Here is the clubhouse, made as convenient and as comfortable as pos-

sible under the direction of the officers and board of the club, of which Guy R. Hunt is president; Leo S. Hyland, secretary and chairman of the house committee; O. M. Parkes, president of the board; and R. S. Johnson, chairman of the greens

committee. The other directors are Mr. T. J. Turner, Harry H. Nugent, William C. Gray, Roy F. Gilkeson, and Hallie J. Bowers, under whose leadership the course of Lincoln's newest country club will be opened July 4.

**Alex Greenamyer, Who Caddied For State Champion, Toted Good Luck Symbols In Titular Match**

BY LULU MAE COE.

John P. Redick of Omaha is the new state golf champion. An Alex Greenamyer is just a little caddy who goes along, lugging some man's heavy clubs.

But Alex knows who made the new state champion.

Mr. Redick is the star but Alex knows "way" way inside of himself

suit for a ball to fall, that's where the ball drops. He's not untrained with hooks and slices. When he puts, the resounding crack is from the ball going into the cup, just as he intends it should.

In fact, he's such a good golfer that two times has he taken the state championship home with him.

**Alex Is Proud But Modest.**

Although Greenamyer is not much longer than his own bag of clubs and as he digs a hole with his toes clear to China when anybody talks to him.

And he has freckles, an ear-to-ear grin and he sticks his hands in his pockets and hangs his hat on one ear—and grins and whirls the toe of his shoe in the ground. And the boys call him "the grinning gimp" and grins some more, but he doesn't say anything.

And he's a loyal little boy.

When he carries anybody's clubs around the long, long, course at the Country club he keeps a-wishing and a-wishing and a-wishing that that man would win. To Alex, he's the very best player on the course and makes the straightest shots and he doesn't hit the ball and he leaves the turf attached to the fairways where it belongs and he's just about as right as right can be in this caddy's eyes.

It was during the state golf tour-

—Photo by MacDonald. Alex Greenamyer, familiarly known as "Fat," was the caddy of John P. Redick of Omaha to win the state golf tournament, held a week ago at the Country club. To help him along, "Fat" brought all his natural powers and supernatural beliefs into play and became the silent, very silent partner. For proof that they worked: Mr. Redick is the new champion and won from a several times champion in achieving "Fat's" desire.

who helped the star to shine. He doesn't say much, but when they talk about the state championship, he looks mighty, mighty wise.

J. P. Redick of the Omaha Country club, isn't such a bad golfer. When he tees his ball on its little hill, and makes the mighty swig, he doesn't dub it. When he picks out a

gament a week ago that Alex fell to Mr. Redick.

That wasn't just luck or accident.

"Fat" Greenamyer has a reputation, even as Mr. Redick.

"Fat" is considered just about the best caddy on the Country club course. He doesn't talk on the green or fairway at critical moments. In fact, silence is one thing he knows nothing else but. He never loses ball. He follows the ball straight down the fairway, two or three hundred yards, and stands by it. He comes over and stands by it. He knows a thing or two about golf himself, and he has the proper club for the anguished player.

So they gave the caddy with a reputation to the golfer with a playing reputation.

And I wasn't such a bad idea.

Alex looked Mr. Redick over pretty carefully. He was tall, and he was of the best. He decided he had mental power with his form, though "Fat" would say "he don't get all excited."

He said that here was a winner.

And that's the tale.

**The Still, Silent Search.**

It didn't take any particular effort on Mr. Redick's part to qualify. "Fat" was needed then to expend any of his energies. He saved his strength. And he went on a still search, saying nothing but looking hard.

Wednesday and Thursday, Alex decided it was time for the good work to begin. One back pocket in his blue overalls was weighed down considerably those two days. Mr. Redick won his match.

Friday, Alex discovered that Mr. Redick was matched against the 1923 champion, Sam Reynolds. Mr. Reynolds was a formidable opponent. He'd taken home more championships than Mr. Redick and there were more than a few who thought he'd take home another.

"Fat" considered. And he went on another search, saying nothing again but looking hard.

Friday two back pockets in his bulgy overalls were weighed down considerably. Mr. Redick won from Mr. Reynolds.

**Horseshoes and Four-Leaf Clover.**

The players had looked at "Fat's" pockets all day. They decided to investigate. He looked so extra fat and bulgy. "Fat" preserved his silence, but grinned.

Investigators found a life size rusty old horseshoe in each pocket.

Saturday was to be the great day. "Fat" couldn't carry any more iron about with him. A bag full of each variety of golf clubs and two horseshoes were about all his diminutiveness would stand.

But Saturday was Saturday—and the date of fate.

Saturday afternoon Mr. Redick won the state golf championship. "Fat's" overalls didn't reveal any more horseshoes. But far, far down in the depths of the bag, crushed and bruised and almost pulped by mashes and drivers and nibbles—just a remnant of its former self was a four leaf clover—"Fat's" last offering to his god of superstition for very good golfer.

And that's the reason "Fat" knows that he helped the star to shine.

**Strong for Tournaments.**

"Fat" is strong for golf tournaments. Players don't forget the little caddies that lug the heavy clubs. And Mr. Redick didn't forget the si-

stributes at the end of the tourna-

ments.

## "LINK UP WITH LINCOLN."

The manufacturers and jobbers subdivision of the Chamber of Commerce of this city is today presenting the design and slogan, which it adopted at a recent meeting.

"Link Up With Lincoln" is a complete commercial term in itself.

It effectively put into practice it presents endless opportunities for commercial progress. It has as many applications as there are letters in the four words that go to make up the slogan.

When the manufacturers and jobbers subdivision of the Chamber started its labor a few weeks ago, it faced a situation which had been patent for some time. The cohesive, unified efforts of jobbers and manufacturers, so essential to proper growth and development of Lincoln, had disappeared as a result of the war boom, when it was necessary to fight for business, and the subsequent distractions of the post-war period. The old spirit was gone. New trade territory was not being opened up. New business friends were not being developed. The unshiftable enthusiasm so vital to the continuing growth of an alert and prosperous city had ended.

Lincoln fairly won every distinction which she had gained as a distributing and jobbing center. What manufacturers she has come only through the labors of those identified with the different factories. For years Lincoln was at a disadvantage with other larger jobbing centers in the matter of railroads rates. Through the efforts of Secretary Walter S. Whitten of the Lincoln chamber this handicap was overcome. Then came the development of the trade territory. Even the advantages of superior goods and better transportation facilities could not always overcome the obstacle of friendships, which have been cultivated by other cities. So it was a slow, uphill flight to build up the jobbing and manufacturing interests of Lincoln. The task has been completed. Lincoln's fame as a jobbing and distributing center is secure. Her manufacturers have shown a continuous steady growth. It is now time to look forward to further expansion of the jobbing interests and growth of the manufacturing plants. That is the true significance of the slogan, which has been adopted, "Link Up With Lincoln."

Lincoln has not been subjected to mushroom booms and subsequent recessions. Hers has been a steady substantial development. Each year has seen the city increase in population, and wealth. Each decade has brought the fulfillment of the vision of those who gave their best efforts to this community.

How steady has been this development is best reflected in the assessment valuations for purposes of taxation. In the last twenty years the value of real and personal property in Lincoln has increased nearly four times or 400 per cent. It has practically doubled in each decade. The combined valuation of real and personal property in Lincoln in 1903, or twenty years ago, was \$22,310,884.55. Ten years later, or in 1913, the combined valuation of real and personal was \$50,605,315. Another decade later, or in 1923, the total valuation of all forms of property in Lincoln, as given in the assessor's records, was \$97,228,175.

Clearing house figures and bank deposits reflect to an amazing degree the same steady growth of Lincoln. The bank clearings in Lincoln in 1903 were \$61,370,518; in 1913, \$100,004,077 and in 1923, \$216,136,672. The bank deposits in 1903 aggregated \$7,946,405, in 1913, \$11,220,016 and in 1923, \$23,967,677.

How manufacturing and jobbing has also kept pace with the city's development is also reflected in the following figures for the two decades:

|               | 1903         | 1913          | 1923          |
|---------------|--------------|---------------|---------------|
| Manufacturing | \$ 8,743,000 | \$ 15,866,000 | \$ 26,186,000 |
| Jobbing       | 22,031,000   | 35,105,000    | 56,161,000    |
| Total         | \$30,774,000 | \$50,971,000  | \$83,000,000  |

Now what is the significance of this slogan

It has an application to Lincoln citizens of equal if not greater importance than winning new friends for this city.

It is well that those who go out from this city should tell all of those whom they meet of the beauty and advantages of Lincoln. Her retail establishments, her manufacturing plants, her commercial institutions, her jobbing houses, her schools and colleges, her beautiful homes and grounds—her enlightened, industrious and thoughtful citizenship—these are characteristics of the capital city of Nebraska in which all of us may take pride. Spread her fame over this and adjoining states. Let those who live in other towns and cities, and in the rural communities of this state know that Lincoln is glad to do business with them, and carry the same message to Nebraska's neighboring commonwealths.

But first of all instill in the hearts of her own citizens a deep consciousness of loyalty.

Know what the manufacturing plants of Lincoln produce. Buy those products. Rich and poor alike can serve their city well but linking themselves with the institutions which give life to her commercial and industrial existence. That is the way great cities are built. Let all of us do our part!

## THE MODERN SMUGGLER.

New conditions bring into existence new forms of industry. Of course smugglers have carried on their trade from very early times, but in the past most of these operated for the purpose of clandestinely bringing into the country various kinds of merchandise and thus avoiding the payment of import duties. Since the enactment of the eighteenth amendment there has been a stupendous amount of smuggling of liquor, but quite recently there has come into practice another form of smuggling that is said to be more profitable than anything in this line ever before attempted.

This new article handled by the American smuggler is the human being and the traffic is said by those in the best position to know to be surprisingly heavy. It has been going on to a certain extent to a number of years but was formerly confined exclusively to Oren-tal, the first to be barred by the immigration laws from entering this country.

Since the enactment of the law limiting the number of natives of the various European countries who may enter the United States each year the business has broadened until it has come to be one of the gravest problems with which the federal authorities have to contend. Secretary of Labor James J. Davis states that 100,000 aliens in excess of the quota allowed by law were smuggled into the United States last year. This means that for every five who came into the country lawfully one came in unlawfully.

Most of the smuggling, it is stated, takes place on the Canadian and Mexican border, that is, European and Indian tribes entering the country finding easy access to the one to our north and south. There they quickly come into touch with the runners, paying the ice demanded, which is always very high, before they are

given any consideration whatever. The alien runners or smugglers are as a rule the most desperate characters, this being especially true of the Mexicans who are engaged in the business, and on the southern border have occurred the murders of numerous immigration officials, who have been shot down by the desperadoes engaged in piloting ineligible across the border.

Of the 100,000 who unlawfully entered the country last year less than 2,000 were apprehended and deported, but this is considered doing fairly well in view of the fact that we have 5,000 miles of border to guard and only 400 agents to do the guarding. Secretary Davis believes that no matter how many guards were available the flood could not be entirely stopped and he advocates a system of registration for the 8,000,000 here, so that the one unable to furnish credentials would be subject to deportation. This plan is frowned upon however, because of the tremendous expense involved and its approach to the European espionage system.

It would seem, however, if the law is to be enforced, the number of border guards should be greatly increased, especially in view of the fact that the aliens who are smuggled in are as a rule of the most undesirable classes produced in their various native lands.

## THE COST OF THE BONUS.

William P. Helm, Jr., writing in The Budget, gives the first graphic outline of the obligations which America assumed when congress passed the bonus measure over the veto of President Coolidge. Various estimates of the cost of the bonus have been submitted from time to time. They ran from \$2,000,000,000 to as high as \$4,000,000,000. Those figures, however, meant nothing to the average American. He had become so accustomed to hearing of expenditures ranging into the billions that his sense of values became distorted. When it came to national expenditures the term "billions" was dropped from his vocabulary and he began to talk glibly of "billions."

America's national debt jumped from \$2,000,000,000 before the war to \$22,000,000,000. In the 14 years preceding 1917, America incurred a total indebtedness of approximately 2 billions. In the brief space of fifteen months it was increased sixteen times what it was before. Expenditures necessary for the national government increased five times. In the passage of the bonus congress made the greatest and most generous grant which the government has ever given.

Helm proceeded to visualize the extent of the obligation represented by the bonus.

Take the state of Montana, he suggests. It is one of the largest in the union and embraces 147,000 square miles. Its farm lands are divided into 58,000 separate holdings. Its farms are more than 85,000,000 acres in extent. If congress were to buy all of the farms and present them to the soldiers instead of the money and insurance which it voted, only a fifth of the bonus grant would have been satisfied. Idaho, with her 42,000 farms, with an acreage of 8,275,000, comes next. Then comes Washington, Oregon, Wyoming, Utah and Nevada—until a fourth of the area of the United States has been traversed. Still all of the farm land in these states, if purchased outright at the depreciated values of farm lands, would not pay the bonus. Take in Arizona and New Mexico. The farm lands in these nine states under present conditions are valued at slightly over \$400,000,000.

The area of the nine states is approximately 92,000 square miles. This is one-third of the total area of the United States, Alaska excluded. The farms within their borders cover a total of 118,662,350 acres. "Every beneficiary of the bonus," Mr. Helm writes, "were the payment made in lands, could have had 25 acres of farm land in one of these states. The figures include not only the land but all of the improvements thereon. They include the livestock, the growing crops, the farm buildings and machinery. The land itself, stripped of these improvements, is valued at about two-thirds of the total. Placed side by side without a single town, city, or hamlet to relieve the monotony of growing grain, fields and trees, they would cover 187,000 square miles."

That showing is sufficiently comprehensive so the average American will understand why President Coolidge said America, economically, could ill afford to grant a bonus.

## SMUTS IS DEFEATED

The inevitable tragedy of repudiation by those he labored so earnestly to serve has befallen one of the great statesmen, whose rise to fame and influence had its foundation in the war. Jan Smuts, the South African premier, has lost control of the government in the election held in British South Africa. Smuts will lack twelve seats of having a majority in the assembly, the early reports indicate.

The preliminary dispatches fail to reveal the exact causes for Smuts' downfall.

British South Africa, however, along with all of the other provinces are struggling under a heavy burden of taxation. Governmental expenditures have been heavy while business has been stagnated. Smuts and his government was forced to bear the burden of a general world condition. A coalition of nationalists and laborites was formed against him, and its leader, General Herzog, proposed a protective tariff to revive drooping industry.

It was in the early stages of the war that Smuts first attracted the attention of the British government. As a Boer leader, his spirited efforts to place the manpower and resources of the Transvaal behind the mother country proved to be of inestimable value to the British government. Germany had confidently anticipated aid from rebellious Boers, who were expected to seize upon the European conflict as an opportunity to again assert their independence. It was Smuts, primarily, who threw the Boers aggressively on the British side.

Immediately following the war, Jan Smuts took a most prominent part in the formation of the League of Nations. He was one of its strongest advocates and most earnest workers. Then when troubles assailed the British government at home, Smuts was one of the three premiers from the colonies called in to assist in bringing order out of confusion. At that time he was hailed as one of the three greatest men developed during the war.

His defeat is a distinct loss, not only to his own nation, but to the world.

## TECHNICALITIES OF THE LAW.

Legal technicalities are said to have been devised to safeguard man in the enjoyment of his rights of life, liberty and property. Too often, though, we find that legal technicalities are used to defeat justice, not promote it.

An instance in which technicalities seem to have worked an injustice was brought out in the recent settlement of the long pending West O street paving litigation.

The case was settled on this basis:

Those property owners whose ten annual payment assessments had not all been paid to receive a reduction of fifteen per cent in the total assessment.

The property owners whose paving assessments had been paid in full, or who have saved the county the expense of making an annual checking up to receive no refund.

The reason for the loss to the last group which was certainly as much entitled to a refund as the former was because of an error in not filing a formal protest. The paving cost had been objected to by all the owners through a committee but no formal, written protest had been filed.

Legally, these people were barred from any refund; morally they were as much entitled to it as were the others.

Perhaps it might be possible to make our legal system more flexible; to administer in short more just and less law.

In Rhode Island they "gas" their legislators. Here in Nebraska, the solons do that to all the rest of us.

## THE PROMPTER'S BOX

Good Humor Takes the Prompter's Box, And Bids the Play Go On.

## DISENCHANTMENT

When summer came, with blooming June, They played together—girl and boy. When summer was gone, and it went too soon, The boy was tired—had outgrown his toy.

Yet flowers bloom, And June is June, The daisies nod on the hill. The morning light's Just as clear and bright, But the lovers' song is still.

—L. E. A.

CHARLES DAWES has been foully treated, charitably. The reporters for "Folger," entitled, "Nominate for president at New York," Charles W. Bryan, governor of Nebraska, the same to be distributed by the Nebraska delegation to the democratic national convention and visitors in promoting the candidacy of Governor Bryan for president.

GERMANY'S FORMER crown prince is selling threshing machines, and this is one of the items he was offered. It is simple, "Hell Mower," of Southern Ohio origin. Anyhow, if the reporters are going to insist on putting in the "and," they must use the character "&—that's why they put it on typewriters, to cuss with.

HEARD IN THE HALLWAY.

"And I told him, I did . . ." "He comes up and asks me for a dance, but . . ." "Well, that's my idea, anyway" "But believe me, if that guy ever asks me for another date!" "So I told him I wasn't having no company."

"What kind of a pipe is that? Davies smokes?"

"Well, that's my idea, anyway."

". . . and I say, 'No, m'm, these are genuine, and I guess that shut her up."

"Only had a couple of lines set and couldn't get around fast enough to take the fish off. 'Fact."

"Well, that's my idea, anyway."

BACKWARD, TURN BACKWARD, O TIME IN THY FLIGHT.

Last week we were told that a singular person, Robert M. LaFollette, planned to make a formal entry into the presidential race. Anything from Robert M. will indicate the millennium. Time does bring changes.

THE BIGGEST surprise that came last week developed while Mable Normand was in the court room, testifying. Seems like things always happen when Mable's merely about, just being around, you know. And, oh dear, dear, what a wonderful thing is a poor memory is at times.

VERY PERPLEXING PROBLEM OF CONDUCT.

M. E. S. Ohoon of wisdom! Ohoon of knowledge! Here is a delicate problem of conduct which confronts every brahmin in the nation today; one which even Sampson with his profound wisdom could not have solved. Every morning I eat a bowl of bran. And every morning I am given a soup spoon—yes SOUP spoon with it. The books on that sort of thing tell me that soup is always eaten from the side of the spoon (although they neglect to name the side) I take it for granted that it is the near side, since either way you turn the spoon it is the near side. Now, bran is not soup, but bran; but a soup spoon is still a soup spoon. Should I be required to eat my bran from the side of the spoon? Or should I? I ask you, is there no justice?—J. P. S. It can, however, be done.—J.

FIRST WE read an article about "Poison Gases Turned to Peaceful Use—Medical Science Discovers Cure for Many Common Ailments" and this is no sooner done than we read of the chlorine gas attack made against the filibuster in the Rhode Island state legislature. May we not extend to you the privilege of whittling your own wheeze? We thought so.

OH, SEE THE PURTY PINK ELEPHANTS!

A young fellow in South Lincoln when asked by his father where he had spent the night told him that he was being initiated into an organization pledged to save the wild life of America. Even at that we suspect the doctor's daughter was right when she said a pun was the lowest form of humor.

KNEE-DEEP IN JUNE.

"Tis getting time to do a tune About a guy knee-deep in June.

A great bard set the style one time And now all do that sort of rhyme.

Knee-deep in June—What did he mean?

I never got it through my bean.

I never really understood.

Was he alluding to the mud?

—Louisville Courier-Journal.

Irene Ought to be Warned About Those Disgraceful Reporters. They Think They're So Smart.

NEW YORK, June 10.—Irene Castle, Manhattan of Chicago, left Castle, Manhattan yesterday on the steamship Europa.

"I'm through with the stage, dancing and movies forever," she said, smiling at her husband.

Her husband handed her a book and she thrust it quickly under her arm. But its title was seen. "Read 'Getting Ready to be a Mother."

## THE LINCOLN SUNDAY STAR

Published every Sunday by The Star Publishing Co. of Lincoln, Nebraska.

Entered at the postoffice in Lincoln, Nebraska, as second class matter for transmission through the mails.

The Lincoln Sunday Star is published every Sunday morning.

## RATES OF SUBSCRIPTION.

By Carrier.

Lincoln and suburbs, daily and Sunday, per month .50¢

By Mail.

Daily, without Sunday, per year . . . . . \$8.00

Daily, including Sunday, per year . . . . . \$4.50

In addition to the above there will be an extra charge of \$2.00 per year on all subscriptions more than 600 miles from Lincoln.

In ordering changes of address always give old as well as new address.

(All Mail subscriptions payable in advance.)

## PHONE—ALL DEPARTMENTS—B1234

The Star does not knowingly publish any misleading fraudulent or questionable advertising.

## LINK UP WITH LINCOLN.

The manufacturers and jobbers subdivision of the Chamber of Commerce of this city is today presenting the design and slogan, which it adopted at a recent meeting.

"Link Up With Lincoln" is a complete commercial slogan in itself.

If effectively put into practice it presents endless opportunities for commercial progress. It has as many attractions as there are letters in the four words that go to make up the slogan.

When the manufacturers and jobbers subdivision of the Chamber started its labors a few weeks ago, it faced a situation which had been patent for some time. The cohesive, unified efforts of jobbers and manufacturers, so essential to proper growth and development of Lincoln, had disappeared as a result of the war boom, when it was necessary to fight for business; and the subsequent distractions of the post-war period. The old spirit was gone. New trade territory was not being opened up. New business friends were not being developed. The unselfish enthusiasm so vital to the continuing growth of an alert and prosperous city had ended.

Lincoln fairly won every distinction which she had gained as a distributing and jobbing center. What manufacturers she has come only through the labors of those identified with the different factories. For years Lincoln was at a disadvantage with other larger jobbing centers in the matter of railroad rates. Through the efforts of Secretary Walter S. Whitten of the Lincoln chamber, this handicap was overcome. Then came the development of the trade territory. Even the advantages of superior goods and better transportation facilities could not always overcome the obstacle of friendships, which have been cultivated by other cities. So it was a slow, uphill fight to build up the jobbing and manufacturing interests of Lincoln. The task has been completed. Lincoln's fame as a jobbing and distributing center is secure. Her manufacturers have shown a continuous steady growth. It is now time to look forward to further expansion of the jobbing interests and growth of the manufacturing plants. That is the true significance of the slogan, which has been adopted, "Link Up With Lincoln."

Take the state of Montana, he suggests. It is one of the largest in the union and embraces 147,000 square miles. Its farm lands are divided into 55,000 separate holdings. Its farms are more than 35,000,000 acres in extent. If congress were to buy all of the farms and present them to the soldiers instead of the money and insurance which it voted, only a fifth of the bonus grant would have been satisfied. Idaho, with her 42,000 farms, with an acreage of 8,275,000, comes next. Then comes Washington, Oregon, Wyoming, Utah and Nevada—until a fourth of the area of the United States has been traversed. Still all of the farm land in these states, if purchased outright at the depreciated values of farm lands, would not pay the bonus. Take in Arizona and New Mexico. The farm lands in these nine states under present conditions are valued at slightly over \$4,000,000,000.

Lincoln has not been subjected to mushroom booms and subsequent recessions. Hers has been a steady substantial development. Each year has seen the city increase in population, and wealth. Each decade has brought the fulfillment of the vision of those who gave their best efforts to this community.

How steady has been this development is best reflected in the assessment valuations for purposes of taxation. In the last twenty years the value of real and personal property in Lincoln has increased nearly four times or 400 per cent. It has practically doubled in each decade. The combined valuation of real and personal property in Lincoln in 1903, or twenty years ago, was \$22,310,884.55. Ten years later, or in 1913, the combined valuation of realty and personalty was \$50,505,215. Another decade later, or in 1923, the total valuation of all forms of property in Lincoln, as given in the assessor's records, was \$97,228,175.

Clearing house figures and bank deposits reflect to an amazing degree the same steady growth of Lincoln. The bank clearings in Lincoln in 1903 were \$61,370,515; in 1913, \$100,004,077 and in 1923, \$215,126,672. The bank deposits in 1903 aggregated \$7,945,405; in 1913, \$11,220,000 and in 1923, \$23,957,577.

How manufacturing and jobbing has also kept pace with the city's development is also reflected in the following figures for the two decades:

|                         | 1903         | 1913         | 1923         |
|-------------------------|--------------|--------------|--------------|
| Manufacturing . . . . . | \$ 8,742,000 | \$15,886,000 | \$26,186,000 |
| Jobbing . . . . .       | 22,031,000   | 36,105,000   | 56,815,000   |
| Total . . . . .         | \$30,774,000 | \$50,971,000 | \$82,000,000 |

Now what is the significance of this slogan.

It has an application to Lincoln citizens of equal if not greater importance than winning new friends for this city.

It is well that those who go out from this city should tell all of those whom they meet of the beauty and advantages of Lincoln. Her retail establishments, her manufacturing plants, her commercial institutions, her jobbing houses, her schools and colleges, her beautiful homes and grounds—her enlightened, industrious and thoughtful citizenship—these are characteristics of the capital city of Nebraska in which all of us may take pride. Spread her fame over this and adjoining states. Let those who live in other towns and cities, and in the rural communities of this state know that Lincoln is glad to do business with them, and carry the same message to Nebraska's neighboring commonwealths.

But first of all instill in the hearts of her own citizens a deep consciousness of loyalty.

Know what the manufacturing plants of Lincoln produce. Buy those products. Rich and poor alike can serve their city well but linking themselves with the institutions which give life to her commercial and industrial existence. That is the way great cities are built. Let all of us do our part!

## THE MODERN SMUGGLER.

New conditions bring into existence new forms of industry. Of course smugglers have carried on their trade from very early times, but in the past most of these operated for the purpose of clandestinely bringing into the country various kinds of merchandise and thus avoiding the payment of import duties. Since the enactment of the eighteenth amendment there has been a stupendous amount of smuggling of liquor, but quite recently there has come into practice another form of smuggling that is said to be more profitable than anything in this line ever before attempted.

The new article handled by the American smuggler is the human being and the traffic is said by those in the best position to know, to be surprisingly heavy. It has been going on to a certain extent for a number of years, but was formerly confined exclusively to Orientals, the first to be bartered by the immigration laws from entering this country.

Since the enactment of the law limiting the number of natives of the various European countries who may enter the United States each year the business has broadened until it has come to be one of the gravest problems with which the federal authorities have to contend. Secretary of Labor James J. Davis states that 100,000 aliens in excess of the quotas allowed by law were smuggled into the United States last year. This means that for every five who came into the country lawfully, one came in unlawfully.

Most of the smuggling, it is stated, takes place on the Canadian and Mexican borders, those Europeans barred from entering this country, finding ready access to the ones to our north and south. There they quickly come into touch with the "runners" paying the fee demanded, which is always very high, before they are

given any consideration whatever. The alien runners or smugglers are as a rule the most desperate characters, this being especially true of the Mexicans who are engaged in the business, and on the southern border have occurred the murders of numerous immigration officials, who have been shot down by the desperados engaged in piloting iniquities across the border.

Of the 100,000 who unlawfully entered the country last year less than 2,500 were apprehended and deported, but this is considered doing fairly well in view of the fact that we have 5,000 miles of border to guard and only 600 agents to do the guarding. Secretary Davis believes that no matter how many guards were available the flood could not be entirely stopped and he advocates a system of registration for the 5,000,000 here, so that the one unable to furnish credentials would be subject to deportation. This plan is frowned upon, however, because of the tremendous expense involved and its approach to the European espionage system.

It would seem, however, if the law is to be enforced, the number of border guards should be greatly increased, especially in view of the fact that the aliens who are smuggled in are as a rule of the most undesirable classes produced in their various native lands.

## THE COST OF THE BONUS.

William P. Heim, Jr., writing in The Budget, gives the first graphic outline of the obligations which America assumed when congress passed the bonus measure over the veto of President Coolidge. Various estimates of the cost of the bonus have been submitted from time to time. They ran from \$2,000,000,000 to as high as \$4,000,000,000. Those figures, however, meant nothing to the average American. He had become so accustomed to hearing of expenditures ranging into the billions that his sense of values became distorted. When it came to national expenditures the term "millions" was dropped from his vocabulary and he began to talk glibly of "billions."

America's national debt jumped from \$20,000,000,000 before the war to \$25,000,000,000. In the 14 years preceding 1917, America incurred a total indebtedness of approximately 2 billions. In the brief space of fifteen months it was increased sixteen times what it was before. Expenditures necessary for the national government increased five times. In the passage of the bonus congress made the greatest and most generous grant which the government has ever given.

Heim proceeded to visualize the extent of the obligation represented by the bonus.

Take the state of Montana, he suggests. It is one of the largest in the union and embraces 147,000 square miles. Its farm lands are divided into 55,000 separate holdings. Its farms are more than 35,000,000 acres in extent. If congress were to buy all of the farms and present them to the soldiers instead of the money and insurance which it voted, only a fifth of the bonus grant would have been satisfied. Idaho, with her 42,000 farms, with an acreage of 8,275,000, comes next. Then comes Washington, Oregon, Wyoming, Utah and Nevada—until a fourth of the area of the United States has been traversed. Still all of the farm land in these states, if purchased outright at the depreciated values of farm lands, would not pay the bonus. Take in Arizona and New Mexico. The farm lands in these nine states under present conditions are valued at slightly over \$4,000,000,000.

The area of the nine states is approximately 926,000 square miles. This is one-third of the total area of the United States, Alaska excluded. The farms within their borders cover a total of 119,662,350 acres. "Every beneficiary of the bonus," Mr. Heim writes, "and I mean every man made in lands, could have had 25 acres of farm land in one of these states. The figures include not only the land but all of the improvements thereon. They include the livestock, the growing crops, the farm buildings and machinery. The land itself, stripped of these improvements, is valued at about two-thirds of the total. Placed side by side without a single town, city, or hamlet to relieve the monotony of growing grains, fields and trees, they would cover 187,000 square miles."

That showing is sufficiently comprehensive so the average American will understand why President Coolidge said America, economically, could ill-afford to grant a bonus.

## SMUTS IS DEFEATED.

The inevitable tragedy of repudiation by those he labored so earnestly to serve has befallen one of the great statesmen, whose rise to fame and influence had its foundation in the war. Jan Smuts, the South African premier, has lost control of the government in the election held in British South Africa. Smuts will lack twelve seats of having a majority in the assembly, the early reports indicate.

The preliminary dispatches fail to reveal the exact causes for Smuts' downfall.

British South Africa, however, along with all of the other provinces are struggling under a heavy burden of taxation. Governmental expenditures have been heavy while business has been stagnated. Smuts and his government was forced to bear the burden of a general world condition. A coalition of nationalists and laborites was formed against him, and its leader, General Herzog, proposed a protective tariff to revive decaying industry.

It was in the early stages of the war that Smuts first attracted the attention of the British government. As a Boer leader, his spirited efforts to place the manpower and resources of the Transvaal behind the mother country proved to be of inestimable value to the British government. Germany had confidently anticipated aid from rebellious Boers, who were expected to seize upon the European conflict as an opportunity to again assert their independence. It was Smuts, primarily, who threw the Boers aggressively on the British side.

Immediately following the war, Jan Smuts took a most prominent part in the formation of the league of nations. He was one of its strongest advocates and most earnest workers. Then when troubles assailed the British government at home, Smuts was one of the three premiers from the colonies called in to assist in bringing order out of confusion. At that time he was hailed as one of the three greatest men developed during the war.

His defeat is a distinct loss, not only to his own nation, but to the world.

## TECHNICALITIES OF THE LAW.

Legal technicalities are said to have been devised to safeguard man in the enjoyment of his rights of life, liberty and property. Too often, though, we find that legal technicalities are used to defeat justice, not promote it.

An instance in which technicalities seem to have worked an injustice was brought out in the recent settlement of the long pending West O street paving litigation.

The case was settled on this basis:

Those property owners whose ten annual payment assessments had not all been paid to receive a reduction of fifteen per cent in the total assessment.

The property owners whose paving assessments had been paid in full, or who have saved the county the expense of making an annual checking up, to receive no refund.

The reason for the loss to the last group, which was certainly as much entitled to a refund as the former, was because of an error in not filing a formal protest. The paving cost had been objected to by all the owners through a committee, but no formal, written protest had been filed.

Legally, these people were barred from any refund; morally they were as much entitled to it as were the others.

Perhaps it might be possible to make our legal system more flexible; to administer, in short, more justice and less law.

In Rhode Island they "gas" their legislators. Here in Nebraska, the solons do that to all the rest of us.

## THE PROMPTER'S BOX—

Good Humor Takes the Prompter's Box, And Bids the Play Go On.

## DISENCHANTMENT

When summer came, with blooming June, They played together—girl and boy. When summer was gone, and it went too soon, The boy was tired—had outgrown his toy.

Yet flowers bloom, And June is June, The daisies nod on the hill. The morning light's Just as clear and bright. But the lovers' song is still.

—L. E. A.

CHARLES DAWES has been foul-labeled. Charley, the reporters tell us, doesn't put the "and" in all. It is simply "Hell Maria," of Southern Ohio origin. Anyhow, the reporters are going to insist on putting the "and" in the "charley" &—that's why they put it on typewriters, to cuss with.

GERMANY'S FORMER crown prince is selling threshing machines. Something is constantly relieving us, and this is one of them. It was our idea eventually that we'd have to see him in the movies. But then he has had some experience with threshing machines.

HEARD IN THE HALLWAY. "And I told him I did . . . . . And he comes up and asks me for a dance, but . . . . .

"Well, that's my idea, anyway." "But believe me, if that guy ever asks me for another date!"

"So I told him I wasn't having no company . . . . .

"What kind of a pipe is that? Dawes smokes?"

"Well, that's my idea, anyway."

" . . . . . and I says, 'No'm, these are genuine,' and I guess that shut her up."

"Only had a couple of lines set and couldn't get around fast enough to take the fish off. 'Fact.'

"Well, that's my idea, anyway."

BACARDI, TURN BACKWARD, O TIME IN THY FLIGHT.

Last week we were told that that singular person, Robert M. LaFollette, planned to make a formal entry into the presidential race. Anything from Robert M. will indicate the millennium. Time does bring changes.

THE BIGGEST surprise that came last week developed while Mable Norman was in the court room, testifying.

Seems like things always happen when Mable's merely about. Just being around, you know. And, oh dear, dear, what a wonderful thing a poor memory is at times.

## VERY PERPLEXING PROBLEM OF CONDUCT.

M. E. S.: A beacon of wisdom! O fountain of knowledge! Here is a delicate problem of conduct which confronts every man-brained in the nation today, one which even Solomon and his proverbs of wisdom could not have solved. Every morning I eat a bowl of ham. And every morning I am given a soup spoon—yes SOUP spoon with it. The books on that sort of thing tell me that soup is always eaten or taken or whatever it is from the side of the spoon (although they neglect to name the side I take it for granted that it is the near side, since either way you turn the spoon it is the near side). Now, ham is not soup, but ham; but a soup spoon is still a soup spoon. Should I be required to eat my ham from the side of the spoon? Or should I? I ask you, is there no justice? Jay.

P. S. It can, however, be done. —J.

FIRST WE read an article about "Poison Gases Turned to Peaceful Use—Medical Science Discovers Cure for Many Common Aliments" and this is no sooner done than we read of the chlorine gas attack made against the filibuster in the Rhode Island state legislature. May we not extend to you the privilege of whittling your own wheeze? We thought so.

OH, SEE THE PURTY PINK ELEPHANTS!

A young feller in South Lincoln when asked by his father where he had spent the night told him that he was being initiated into an organization pledged to save the wild life of America. Even at that we suspect the doctor's daughter was right when she said a pun was the lowest form of humor.

KNEE-DEEP IN JUNE. 'Tis getting time to do a tune About a guy knee-deep in June. A great bard set the style one time And now all do that sort of rhyme.

Knee-deep in June—What did he mean?

# J. L. Pierce of Lincoln, Member of Illini Class Which Celebrated 50th Anniversary

BY LULU MAE COE.

Five men stood beneath the fine old trees on the campus of the University of Illinois.

They had all passed the three score mark. Some of them were close to the three score and ten of life.

And they talked. And they dreamed.

And they lived in their memories.

When those trees were thin, slender little things, reaching out for life in the dark earth, these five men were vibrant youths, reaching out toward the world for their life.

The trees are old now and the men are old—but this year they were reunited one more reunion.

**Fifty Years Ago This Month.**

Fifty years ago this June, these five, and fourteen others, stood before the long, long road of life, each one readying them, ready for what it offered, willing to grapple with what it refused.

Time marked for its own eleven of these. Each year one has been missing from the class reunions of 1874. Illini has stricken three others. But five of those nineteen eager youths, five whom are strong and unhampered by the years.

And this year the five were together, on the campus of "Old Illini" for the fiftieth reunion of the class. Their eyes were misted for those who could not come, for those who can never come, but they were bright with the joy of meeting those who could then live of the nineteen who had parted on the ground half a century before.

There was J. L. Pierce of Lincoln, clerk of the county court, among the five. And there was W. S. Pickrell of Phoenix, Ariz., who settled on forty acres of land in the North Woods of the "W" and for whom the town of Pickrell is named, who introduced ostrich farming into the United States, and whose brother was at one time secretary to Senator Paddock, Mr. Pickrell and Mr. Pierce had not met for forty-nine years.

There was W. C. Peffer, who met with his wife from Brown, Texas. There was H. S. Reynolds from Providence, R. I., and there was—the last of the five—I. O. Baker of Champaign, for fifty years professor of engineering at the University of Illinois. He is professor emeritus now, but only since the first of this June.

**Come a Long Distance.**

Yes, they came from long distances to this reunion, this fiftieth reunion, for the university honored its early students and made their days one of pleasure.

Prof. Baker entertained his classmate and some of the earlier classes, this was the fiftieth annual commencement of the university at dinner one evening. It was followed by a "Do You Remember" evening when the college panks and the college troubles of those dim days were brought up, when men and women, too, forgot the years between then and now. And they did, for they thought it were the present. Among those who spoke were Lorado Taft, the sculptor, and H. M. Beardmore of Kansas City, and one of its former mayors, and both Illinois men.

Saturday was the day when the alumni returned in numbers, when even the youngest had something to say of the old familiar campus. The day when the oldest ones tried to remember the college as it used to be.

They recalled what a tiny little spot it had been on the Illinois prairies. They remembered how they had all their meals in the building, and now there are sixty or seventy. They recalled the familiar faces of the fifteen professors of their day, and now Illinois graduates its students without some of them knowing half of the several hundred professors. They those of '74—remembered the nineteen of their class and noted the establishing of the two men and women that left Illinois this commencement. And they looked at the wonderful fraternity houses—an those who know talked about Mr.

but in those days engineering projects weren't common and the experimental little creek prevented Mr. Pynchon from developing Belmont.

Mr. Pynchon at one time built twenty-six houses, houses even today east of Twenty-ninth street on Holden and Potter streets, and several others, too, in the Agricultural College. He also built a house or two at Seventeenth and P streets.

One of the three hotels in the middle days was the Depot hotel. It was not quite so stylish as the Arlington or the Lindell, but it was convenient for travelers, as it was located directly opposite the Burlington depot. Rafted logs made the hotel a headstrong and rugged-looking affair, with broken beams or those who did not care to make the up-town journey on the rather uncertain street cars. The Depot hotel was quite a landmark in those days and Mr. Pynchon owned it for six or seven months after which he traded it to a man named Reddy, who no longer has it in his home. Later, he traded it to a man named Bennett, and he also renamed it for himself. And the Bennett hotel it is today, still opposite the Burlington depot.

**Boom Bubble Bursts.**

In 1874, the country, that had until Lincoln suddenly collapsed, it carried many hopes and fortunes with it. Two years later, Mr. Pynchon left Lincoln, forever as far as making of it a business venture was concerned. He went west, as one Horace Greeley did, to a man named Reddy, who no longer has it in his home.

Later, he traded it to a man named Bennett, and he also renamed it for himself. And the Bennett hotel it is today, still opposite the Burlington depot.

**Fraternities.**

Mr. Pierce when their minds turned to fraternities had a fraternity history all his own.

Mr. Pierce took his first two college years at Knox college, where he was regularly initiated into Beta Theta Pi. For his last two years, he went to Illinois, where fraternities were not recognized, and where there were but one or two—rather sub rosa, one might say.

Upon entering Illinois, Mr. Pierce tried to persuade the Betas to install a chapter there, but he was not successful. The Betas didn't know as they wanted to go into a school where fraternities were not recognized—nor will know whether or not Illinois would be a great school some day.

**Joined Two Fraternities.**

Well, the Delta Tau Delta fraternity "rushed" Mr. Pierce, but he could not join, being somewhat hindered by already belonging to one. However, in those days, fraternities were not the rivals they are today, and special dispensation was secured from the Beta for Mr. Pierce to join the members of Delta Tau. Through which and by which, Mr. Pierce is one of but two or three men in the country who had been initiated into two national college fraternities.

And the skeleton which figured prominently in the initiation was quietly removed in the dark of the night from the laboratory of Prof. Taft, father of Lorado Taft.

June 7, at noon, luncheon was served outdoors on the campus, under the trees which Mr. Pierce had helped to plant with a student there fifty years ago. The men sat at round tables and sturdy and they all look down upon many another reunion of the sons and daughters of "Old Illini." C. E. Dennis, Illinois, "51, managing editor of the Chicago Daily News spoke at the luncheon.

Mr. Pierce attended five banquets in four days, and between luncheons was invited to informal luncheons and reunions, which were the heart of the festivities. At those reunions, the little group of friends were always together, eagerly grasping the golden moments of that golden

was about 11,000, and it isn't the Lincoln he knew.

However, Mr. Pynchon thinks he is at the door of its greatest progress. Shortly after he sold the street car franchise sewer and water mains were laid and block paving was laid and the street cars that had stood high in the air were lowered to a respectable level. There was scarcely a day when engineering projects were not adopted by the city and it had not to water, and progress was visible. To Mr. Pynchon, there is not so much opportunity for progress now as in the old days when new appliances meant a definite step forward rather than as today, when so many new things are but an improvement on other almost new things.

Perhaps William Pynchon would agree with him if he could see the Lincoln of today and of forty years ago. Perhaps he would think that Lincoln was still progressing. He would, though, know that one of his descendants had a hand in the development of the Lincoln of today, in making out of a lonely, meager little dot of a village the broad prairies.

Miss Lila Sands, instructor in the department of chemistry, who received her doctor's degree in chemistry from the university in June, will go to the University of Arizona at Tucson in September, where she will be an instructor in chemistry. She is returning to the university with her parents at Winterhaven, F.ord.

The Nebraska Memorial stadium was accepted and the initial payments on it authorized at a meeting of the Lincoln stadium building committee June 6. This completes the general contract for the structure. There are still several minor contracts to be let.

**Monday Specials.**

# J. L. Pierce of Lincoln, Member of Illini Class Which Celebrated 50th Anniversary

BY LULU MAE COE.

Five men stood beneath the fine old trees on the campus of the University of Illinois.

They had all passed the three score mark. Some of them were close to the three score and ten of life.

And they talked. And they dreamed.

And they lived in their memories.

When those trees were thin, slender little saplings, reaching out for life in the dark earth, these five men were vibrant youths, reaching out toward the world in their life.

The trees are old now and the men are old—but this year they were granted one more reunion together.

**Fifty Years Ago This Month.**

Fifty years ago this June, these five, and fourteen others, stood before the long, long road of life, college days behind them, ready for what it offered, willing to grapple for what it refused.

Time marked for its own eleven of these. Each year one has been missing from the class reunions of 1874. Illness has stricken three others. But five of those fifteen eager youths, live alone, are strong and unhampered by the years.

And this year the five were together on the campus of "Old Illini" for the fiftieth reunion of the class. Their eyes were misted for those who could not come, for those who can never come, but they were bright in the joy of meeting those who could, those five of the nineteen who had parted on this ground half a century ago.

There was J. L. Pierce of Lincoln, clerk of the county court, among the five. And there was W. S. Pickrell of Phoenix, Ariz., who settled on a forty acre section of land in Nebraska in the '70's and for whom the town of Pickrell was named, who introduced cattle farming into the United States, and whose brother was at one time secretary to Senator Paddock. Mr. Pickrell and Mr. Pierce had not met on this ground half a century ago.

There was C. P. Jeffers, who motored with his wife from Boston. There was H. S. Reynolds from Providence, R. I. And there was the last of the five—L. O. Baker, Champaign, Ill.; and in the front row, left to right, are H. S. Reynolds, Providence, R. I.; C. P. Jeffers, Boston, Mass.; and W. S. Pickrell, founder of Pickrell, Neb., now of Phoenix, Ariz.

Five of the eight living graduates of the class of 1874 of the University of Illinois, who celebrated the fiftieth anniversary of their graduation at Champaign early in June. In the back row, left to right, are J. L. Pierce, Lincoln; and L. O. Baker, Champaign, Ill.; and in the front row, left to right, are H. S. Reynolds, Providence, R. I.; C. P. Jeffers, Boston, Mass.; and W. S. Pickrell, founder of Pickrell, Neb., now of Phoenix, Ariz.

Pierce when their minds turned to fraternities.

He has a fraternity history all his own.

Mr. Pierce took his first two college years at Knox college, where he was regularly initiated into Beta Theta Pi. For his last two years, he went to Illinois, where fraternities were not recognized as at all necessary to college life and where there were but one or two—rather sub rosa, one might say.

Upon entering Illinois, Mr. Pierce tried to persuade the Betas to install a chapter. When he was not successful, he was not surprised. The Betas didn't know as they wanted to go into a school where fraternities were not recognized—and who knew whether or not Illinois would be a great school some day.

**Joined Two Fraternities.**

Well, the Delta Tau Delta fraternity "rushed" Mr. Pierce, but he could not join, being somewhat hindered by already belonging to one. However, in those days, fraternities were not the rivals they are today, and the secretaries of the Betas was secured from the Betas for Mr. Pierce to become a member of Delta Tau.

Through which and by which, Mr. Pierce is one of but two or three men in the country who had been initiated into two national college fraternities.

And the skeleton which figured prominently in his initiation was only removed in the dark of the moon from the laboratory of Prof. Taft, father of Lorado Taft.

June 7, at noon, luncheon was served outdoors on the campus, under the trees which Mr. Pierce had helped to plant when a student there fifty years ago. They had grown strong and true and stood there with looks down upon many another group of sons and daughters of "Old Illini." C. E. Dennis, Illinois, 81, managing editor of the Chicago Daily News spoke at the luncheon.

Mr. Pierce attended five banquets in four days and in between times was being invited to informal luncheons and reunions, which were the heart of the festivities. At these he joined the active group of friends who were always together, eagerly grasping the golden moments of this golden

but in those days engineering projects weren't numerous and the temperament of little creek prevented Mr. Pynchon from developing Belmont.

Mr. Pynchon at one time built twenty-six houses, homes even today, east of Twenty-ninth street on Belgrave and Potter streets and several others south of the Agricultural college. He also built a house or two at Seventeenth and P streets.

but in those days engineering projects weren't numerous and the temperament of little creek prevented Mr. Pynchon from developing Belmont.

was about 11,000, and it isn't the Lincoln he knew.

However, Mr. Pynchon thinks he knew it in the days of its greatest strength, after it had sold its street car franchise, sewer and water mains were laid, block paving was laid, and the street car ties that had stood high in the air were lowered to a respectable level. There was scarcely a day that some startling innovation was not adopted by the city, and one had but to watch and progress was visible. To Mr. Pynchon there was not much opportunity for progress now as in the old days when new appliances meant a definite step forward, rather than as today, when so many new things are but an improvement on other almost new things.

Perhaps William Pynchon would agree with us if he could see the record of today's or of forty years ago. Perhaps he would think that Lincoln was still progressing. He would, though, be glad that one of his descendants had a hand in this progress, in making a city out of a lonely, meagre little dot of a village on the broad prairies.

Perhaps William Pynchon would agree with us if he could see the record of today's or of forty years ago. Perhaps he would think that Lincoln was still progressing. He would, though, be glad that one of his descendants had a hand in this progress, in making a city out of a lonely, meagre little dot of a village on the broad prairies.

One of the three hotels in the mid-day was the Depot hotel. It was not quite so stylish as the Arlington or the Lindell, but it was convenient for travelers, as it was located directly across the Burlington depot. Railroad men made it their headquarters and many people here between trains or those who did not care to make the uptown journey on the rather uncertain street cars. The Depot hotel was quite a landmark in those days and Mr. Pynchon owned it for six or seven months, after which he sold it to a man named Fredway, who named it in his own honor. Later, he traded it to a man named Bennett, and he also renamed it for himself. And the Bennett hotel it is today, still opposite the Burlington depot.

## Boom Bubble Bursts.

In 1889, when the boom that had struck the city of Lincoln was over, it had brought many hopes and fortunes with it. Two years later, Mr. Pynchon left Lincoln, forever as far as making it a business venture was concerned. He went west, as one Horace Greeley advised young men once, and for the last sixteen years has been connected with the U. S. Internal Revenue service.

In thirty-three years, Mr. Pynchon can see many changes in Lincoln. It has become modernized and has spread out over much more territory, of course. It is larger, when Mr. Pynchon came here the population

was about 11,000, and it isn't the Lincoln he knew.

However, Mr. Pynchon thinks he knew it in the days of its greatest strength, after it had sold its street car franchise, sewer and water

mains were laid, block paving was laid, and the street car ties that had stood high in the air were lowered to a respectable level. There was scarcely a day that some startling innovation was not adopted by the city, and one had but to watch and progress was visible. To Mr. Pynchon there was not much opportunity for progress now as in the old days when new appliances meant a definite step forward, rather than as today, when so many new things are but an improvement on other almost new things.

Perhaps William Pynchon would agree with us if he could see the record of today's or of forty years ago. Perhaps he would think that Lincoln was still progressing. He would, though, be glad that one of his descendants had a hand in this progress, in making a city out of a lonely, meagre little dot of a village on the broad prairies.

# Travel and Resorts

## Nebraskans Go To Iowa Lakes For Vacations

What sort of vacation one may be, gay or quiet, a tour of interesting places, or a rest in camp, cottage or hotel, no mistake will be made in choosing one of the many places offered by the Travel and Resort Bureau of The Lincoln Star. In the bureau are offered tens of thousands of places, mountains, ancient dwellings of the cliff house builders, bubbling mountain torrents, where the streams that pass the lakes where streams that pass the lakes, where streams that pass the lakes, or whether it be in the sun-warmed lakes of the plains states, or the sea shore, literature telling about all of them will be found in the bureau. It is free for the asking to Lincoln residents. Out of town people will please enclose 4 cents in stamps to cover cost of postage.

More and more Nebraska folks each year are selecting the Great Lakes of northwestern Iowa for their summer vacation trip. And it is not surprising that they do, for here, only a short distance from their homes is a vacation playground famous throughout the entire nation—here is crystal clear water, abounding game fish; long indented shorelines, where tents may be pitched; sandy beaches; high, cool, healthful atmosphere; and recreation and amusement of all kinds. The Great Lakes of Iowa compose the Otoe, the Spirit, the Grand, the Spirit, the Little Spirit, West Okoboji is regarded by no less an authority than the National Geographical society, as the third most beautiful lake in the world.

While the number of people who go to the Iowa lakes is increasing every year, so also is the number going to Minnesota's ten thousand lakes and to the mountain regions of Colorado and other western states, including Wyoming, Montana, Utah, Nevada and the Pacific northwest. Each of these states offer the vacationist untold opportunities to satisfy the desire for rest, as well as the longing to cast the fly for game fish, take a hunt in the timber for mountain game.

For the person who is city-tired and looking for solitude, there is no place more restful or more refreshing than are the ten thousand lakes of Minnesota or the Minnesota woods. The lakes of sky blue water, a trip tramping or canoeing through the ten thousand lakes region, camping at night, exploring this delightful land of forest, lakes and tiny wooded islands—such a trip makes the tired business man's cares fade into oblivion.

Probably no where throughout the universe are there places more beautiful for health-giving than the Big Horn mountains of Wyoming. Here are to be found lakes, streams, camping places near fishing grounds and hunting grounds, and out on the great wide ranges where cattle roam, but at the very base of the mountains, yet out of them, but near enough that a short drive will take you into the very depths of the timberlands on their slopes. Here you may drive, climb until you are tired out and then go back to your lodging place and rest, only to be astir early in the morning feeling like a new person looking for new worlds to conquer.

Would you like to spend your vacation amidst the cliff dwellers' ruins in Southeastern Colorado? The ruins are found in Mesa Verde park and there is perhaps no similar locality in all America combining a summer's variety of interest for a summer's outing than this region. Here is scenery, lofty mountain ranges, surpassing the Alpine vistas, for the lover of the picturesque. Here are endless varieties of mountain flowers for those who would study botany, and here is one of the most delightful spots on earth for those who would delve into geology. Here antiquity challenges the most daring and explorer of the past to chart the shorelines of the departed centuries. And here too is recreation, rest, the delight of it, roaming through the canyons, exploring the crumbling ruins, climbing to the mesas and then surveying the jagged sky-line of surrounding mountain ranges.

All these and many other beauties are to be found, and if you are a golfer, you also can find a golfing ground to your taste. And with the special traveler's golf bag being advertised by Harpham Brothers of Lincoln there is no cause for worry about taking the clubs along.

That the Travel and Resort Bureau is becoming more and more appre-

MINNESOTA

Kitchens in all cottages, also electric lights, etc. Write for folder and information to E. C. Ulrich, Webster, Wis.

Western Canada showed the lowest 1923 diabetes mortality in the United States or Canada. In Saskatchewan there was not one death from this cause among the company's 25,000 industrial policy holders. In the United States generally there were 16.9 per 100,000 persons insured. Nebraska's rate from this disease was 11.

The company's latest statistical bulletin calls attention to the marked decline in deaths from diabetes throughout 1923 and the first four months of 1924, notwithstanding the continuous rise which had been recorded in the three years prior to 1923. It states: "During the first four months of 1924, the diabetes death rate has shown a further reduction over the corresponding period of 1923. These reductions have followed the beginning of the more or less general use of insulin. So far, at least, in 1924, the drop is accentuated as the use of insulin treatment increases, but this must not be considered as the effect of the use of insulin without further proof."

Western Canada showed the lowest 1923 diabetes mortality in the United States or Canada. In Saskatchewan there was not one death from this cause among the company's 25,000 industrial policy holders. In the United States generally there were 16.9 per 100,000 persons insured. Nebraska's rate from this disease was 11.

The National Geographical Society places West Lake Okoboji among the three most beautiful lakes in the world. It is by far the most desirable of all summer resorts in the Middle West.

Why journey to far away points when here, right in your own midst is a lake of national prominence—with half a dozen other splendid lakes in this locality, making the Iowa Great Lakes an ideal vacation playground.

Write for free catalog and literature regarding this famous Middle West playground. Complete information as to hotels, cottages, boats, rates and road map furnished upon request. Write today.

# Travel and Resorts

## Nebraskans Go To Iowa Lakes For Vacations

Whatever sort of vacation one may like to take, gay or quiet, a tour of interesting places, or a rest in camp, cottage or hotel, no mistake will be made in choosing one of the many places offered by the Travel and Resort Bureau of The Lincoln Star. In the bureau are offered tens of thousands of places, mountains, ancient dwellings of the cliff house builders, bubbling springs, lakes, streams, where desport the trout, or bass in the lakes, where snow caps the peaks the year round, or whether it be in the sun-warmed lakes of the plains states, or the sea shore, literature telling about all of them will be found in the bureau. It is free for the asking to Lincoln residents. Out of town people will please enclose 4 cents in stamps to cover cost of postage.

More and more Nebraskans each year are selecting the Great Lakes of northwestern Iowa for their summer vacation trip. And it is not surprising that they do, for within only a short distance from their homes is a vacation playground famous throughout the entire nation—here is crystal clear water, abounding game fish; long indented shorelines, where tents may be pitched, sandy beaches; high cool healthful atmosphere; and resorts and amusements of all kinds. The Great Lakes of Iowa compose the Okoboji, Spirit, Hottest, Gar, Minnewaska, Marble and Little Spirit. West Okoboji is regarded by no less an authority than the National Geographic society, as the third most beautiful lake in the world.

The number of people who go to the Iowa lakes is increasing every year, so also is the number going to Minnesota's ten thousand lakes and to the mountain regions of Colorado and other western states, including Wyoming, Montana, Utah, Nevada and the Pacific northwest. Each of these states offers the vacationist told opportunities to satisfy the desire for rest, as well as the longing to cast the fly for game fish or take a hunt in the timber for mountain game.

For the person who is city-tired and longing for solitude, there is no place more restful or more refreshing than are the ten thousand lakes of Minnesota or the Minnesota woods—the land of sky and blue water. A trip tramping or canoeing through the ten thousand lakes region, camping at night, exploring this delightful land of forest, lakes and tiny wooded islands—such a trip makes the tired business man's cares fade into oblivion.

Probably no where throughout the universe is there a place more beautiful or health-giving than the Big Horn mountains of Wyoming. Here are to be found lakes, streams, camping places near fishing grounds and hunting grounds, and out on the great wide ranges where cattle roam, but at the very base of the mountains. You are in the mountains yet out of them, but near enough that a short drive will take you into the very depths of the timberlands on the sides. Here you can climb and climb until you are tired out and then go back to your lodging place and rest, only to be astir early in the morning feeling like a new person looking for new worlds to conquer.

Would you like to spend your vacation amidst the cliff dwellers' ruins in Southeastern Colorado? The ruins are found in Mesa Verde park and there is perhaps no single locality in all America combining a greater variety of interest for a summer's outing than this. Here are some fifty mountain ranges, surpassing the Alpine vistas, for the lover of the picturesque. Here are endless varieties of mountain flowers for those who would study botany, and here is one of the most delightful spots on earth for those who would delve into geology. Here antiquity challenges the most daring explorer of the past to chart the shore-lines of the departed centuries. And here too is recreation, rest. Ah, the delight of it, tramping through the canyons, exploring the crumbling ruins, climbing to the mesas and then surveying the jagged sky-line of surrounding mountain ranges.

All these and many other beauties are to be found, and if you are a golf lover so also can a golfing ground be found. And with the special traveler's golf bag being advertised by Harpham Brothers of Lincoln there is no cause for worry about taking the clubs along.

That the Travel and Resort Bureau is becoming more and more appre-

### MINNESOTA

#### EDGWOOD HOTEL

Lake Minnetonka. Cottages, tennis court, dancing pavilion, boat, fishing, bathing, steamboat service. Our hotel with 100 beds, 200 rooms, 30 acres. Pure cold spring water. Prop. E. Christian, Prop. P. O. Box, Excelsior, Minn.

dictated by Lincoln Star readers is becoming apparent with the constantly increasing number of inquiries for literature. Every day brings in a large number of letters, and every day takes out a constantly growing number of replies. Inquiries are made about almost every part of the earth. And we have the literature about every worth while spot.

## FEWER DEATHS IN DIABETIC CASES

Nebraska is One of Thirty-two States Having the Lowest Number.

General Use of Insulin Believed to Be Checking Disease.

Nebraska is one of thirty-two states which show a lower diabetes death rate among its wage-earning population in cities than the rate in the United States. This fact was ascertained from the death claims for 1923 of the 13,000,000 white industrial policyholders of the Metropolitan Life Insurance company. These men and women comprise about one-fourth of the entire industrial population of the United States and Canada.

The diabetes death rate for this industrial group, according to the company's mortality experience, was 1.9 per 100,000 persons insured. Nebraska's rate from this disease was 1.1.

The company's latest statistical bulletin calls attention to the marked decline in deaths from diabetes throughout 1923 and the first four months of 1924, notwithstanding the continuing increase which had been reported in the three years prior to 1923. It states: "During the first four months of 1924 the diabetes death rate has shown a further reduction over the corresponding period of 1923. These reductions have followed the beginning of the more or less general use of insulin. So far, at least, in 1924, the drop accentuated by the use of insulin has not increased, but this must not be considered as the effect of the use of insulin without further proof."

Western Canada showed the lowest 1923 diabetes mortality in the United States or Canada. In Saskatchewan there was not one death from this cause among the company's 25,000 industrial policyholders. In the United States generally there were more deaths in the north than in the south. The lowest rate of all is shown in the western group of states from the mountains to the coast. In 16 central states, bounded by Kansas, Nebraska, Minnesota, Michigan, Alabama, and Oklahoma, the mortality is high, and the death rate is high. In a whole host there are exceptions. Exceedingly low rates were recorded for South Carolina, North Carolina, Arkansas, Tennessee, and Kansas. The highest diabetes mortality in any geographic division was found in the Middle Atlantic States (20.8 per 100,000) followed by New England (17.5).

In general, the mortality is higher in the northern states than in the southern," the statistical bulletin announces. "There is an important racial factor involved in diabetes. The above-average mortality in such states as New York, New Jersey, and Rhode Island is very possibly due to the relatively large percentage of those of foreign race. While there are exceptions to this, it is because the states have large numbers of elderly people in their populations. Such states would naturally suffer high mortality from diabetes because the death rate for this disease rises with advancing age."

THE OLDE FERNCREST INN  
On beautiful Okoboji Lake, in the quiet old time. Inn among the pine trees, bathing, boating, fishing, hunting, sports, wonderful scenery. Write for folder to Chas. Elliott, Okoboji, Iowa.

YOKOBOJI LODGE

TWENTY-SECOND YEAR

LINCOLN, NEB., SUNDAY, JUNE 22, 1924.

SUNDAY EDITION

## Many Nebraska Co-Eds and Alumnae To Attend Sorority Conventions During Summer

The members of Delta Gamma sorority will celebrate the fiftieth anniversary of the founding of the sorority at the national convention which will be held at the Stanley hotel of Estes park, Colo., this week. The University of Nebraska chapter together with those of Colorado, Oklahoma and Kansas will serve as hostess for this convention for which many interesting plans have been made. Over 500 Delta Gamma from the universities and colleges of the north, south, east and west will participate in the activities of the week and the day of honor for the week of the convention will be Eva Dodd Webb, one of the two living founders of the sorority which was organized fifty years ago by a little group of four girls.

To commemorate the fiftieth anniversary a scholarship fund of \$50,000 has been raised for the benefit of college girls, and many are members of Delta Gamma.

The special convention train goes through Lincoln today and included in the delegation from Lincoln which leaves on it are Mesdames A. L. Haeger, A. R. Edmiston, Harvey Rathburn, Maurice Deutsch, Miriam Starratt Easterday, Louis W. Kornmeyer, Fred Sanders and Misses Helen Condrane, Frances O'Neil, Marie Haeger, Ruth Haydon, Ruth Lindsay, Mildred Moyer and Jeanette Olson. Miss Blanche Garren, national installing officer, left last week to attend the grand council meeting which will be held there preceding the convention. Other members of the Nebraska chapter, who will attend the convention are Mesdames Mervin, of New York, formerly Miss Jean Burroughs of Lincoln, the national treasurer, Wilma Sawyer of Columbus, O., Paul Hoagland of Phoenix, Ariz., Edgar Mortill of Fort Collins, Colo., Lillian Arndt Edwards of St. Louis, Selma Noren Haggard of Orleans and Misses Dorothy Wright of Omaha, Olivia Van Andra of Pawnee City, Barbara Wiggenbach of Ashland, Dorothy Pleas of Orleans, Marne Atkinson of Holdrege, Dorothy Brown of Gothenburg, Helen Butler of Denver, formerly of Lincoln, Dorothy Carr of Scottsbluff, Frances Figenbaum of Geneva, Jeanette Gill of Elk Point, Miriam Gilligan of O'Neill, Gertrude Munger of Spencer, Ia., and Zita Haley and Alfred Haeger of Lansing.

Katherine Howard (University of Nebraska) has charge of the banquet and will conduct the initiation ceremonies during which Miss Mary Hartquist will be initiated.

Mrs. Walter White, national council delegate, who has been visiting chapters since she left Lincoln May 6, will attend the convention of Alpha Chi Omega at the Hotel Savoy in Swampscott, Mass., Miss Grace Stoff of Lincoln, Nebraska's alumna delegate, left Friday afternoon to meet the special train for the convention in Chicago Saturday. Miss Stoff will return to Lincoln June 30, and will leave here July 16 to motor with her father, Prof. Fred A. Stoff, to their summer home at Lincoln. Misses Emma Westermann and Miss Hannequin Willhite left Friday on their way to attend the Kappa Gamma convention at Toronto, Canada, June 24 to July 2. They will stop on their way in Evanston, Ill., to visit relatives of Miss Williams, and Miss Westermann will go after the convention to New York to visit her aunts, Mrs. Theodore Westermann of Bronx Park, and Mrs. Josephine of Scarboro, going to Chester Park, Pa., and Cleveland, and thus to Chicago, returning to Lincoln about the middle of September. The Misses Towle and Zella Rooper, who will also attend the Kappa convention, left Saturday for the Kappa convention.

The Misses Marjorie and Frances Barstow left here Tuesday afternoon to take a camping and hiking trip through Glacier park preceding the Alpha Phi convention there June 22 to 28. They will return to Lincoln before they leave for New York City, where Miss Marjorie Barstow will study dancing. Other Lincoln girls who will attend the convention left Friday afternoon, to meet their special train in Omaha. Miss Madge Morrison is official delegate, and the Misses Ruth North, Ruth Tanner, Kathryn McWhinney, Blanche Burt, and Katherine Dillon will also attend from Nebraska's chapter.

Alpha Xi Delta girls who leave July 7 to attend their convention at Edgewater beach hotel, Chicago, will be entertained at luncheon that day in

Wednesday afternoon, May 28, at the German Zoar church. Mrs. Schluenz was Miss Erna Grauenhorst, daughter of the Rev. and Mrs. L. Grauenhorst, and her father read the marriage lines.

Miss Lillian Schluenz was the bridesmaid and her frock was of pale blue georgette, trimmed with lace. She carried sweet peas in pastel shades. Gerald Niederdeppe carried a basket of flower petals, which he strewed before the bridal couple.

The bride's gown was of silver lace over silver tissue. Her tulle veil was caught with valley lilies and made cap shape with a head band of old Venetian lace. She carried a shower bouquet of tea roses and valley lilies.

## ERNST-GOTTBURG

Miss Margaret Ann Ernest will become the bride of Milton H. Gottberg of Columbus at home wedding next Wednesday at the home of her sister, Mrs. A. T. Hagstrom, 745 South Twelfth street. The Rev. Bryan and Howe of Columbus will read the marriage lines. Miss Ernst has chosen as her only attendant her sister, Mrs. Hagstrom, and the groom's brother, John Gottberg, will serve as best man. A reception will follow the ceremony, after which the bridal couple will leave for a short wedding tour. They will make their home in Columbus.

## HAMS-KOKES

The marriage of Miss Helen Hams, daughter of Mr. and Mrs. R. Hams of Clarkson, and Edward Kokes, son of Mr. and Mrs. Vincent Kokes of Ord, took place at the Schuyler Catholic church Tuesday morning at 10 o'clock. Only immediate relatives were present for the ceremony. Miss Ruth Hobart, a cousin of the groom, and William Hansen, the bride's brother, were the only attendants.

Following the ceremony, a wedding breakfast was served at the home of the bride's parents. Mr. and Mrs. Kokes are on a wedding trip in the west, including visits to Denver, Salt Lake City, and points in Idaho, after which they will be at home in Scotts, where Mr. Kokes is cashier of the bank.

Mr. and Mrs. Kokes are both graduates of the university, where Mr. Kokes was one of the charter members of Lambda Chi Alpha.

## ROPER-STONE

Miss Grace C. Roper became the bride of Lloyd P. Stone at 10 o'clock Saturday at the home of her sister, Mrs. I. H. Haifield, 1213 South Twenty-second street. Mrs. Glenn guest apart from the Haifield family. The Rev. James W. Macdonald of All Souls' Unitarian church performed the ceremony.

## FOSTER-BURT

The marriage of Miss Ellen E. Foster of Beaver Crossing to Chester P. Burt of Autos, took place Thursday afternoon at 3 o'clock at St. Paul's church with the Rev. Elmer Ingalls of Aurora officiating. Only immediate families of Mr. and Mrs. C. O. Foster of Beaver Crossing and Mr. and Mrs. P. H. Burt of Aurora were present at the ceremony. Both bride and groom are former students of the university.

Immediately after the wedding, Mr. and Mrs. Burt left for a two weeks honeymoon trip to Colorado, and will return to make their home in Aurora after July 1.

## PLASS-THIELE

The marriage of Miss Madge Plas, daughter of Mr. and Mrs. C. E. Plas of Madison, Neb., to Edwin G. Thiele of Santa Fe, N. M., will take place in Madison June 24. Miss Plas attended the University of Nebraska and the University School of Music, where she is a member of Mu Phi Epsilon. For the past two years has been teaching music in the Lincoln public schools. The groom is engaged in business in Santa Fe.

## STEINAUER-MEYER

The marriage of Miss Eulalia Steinauer, daughter of Mrs. Theodore Steinauer, to Fred M. of Lincoln, took place Tuesday morning at St. Anthony's church of Steinauer, Neb. The Rev. Father Hesling of Fort Wayne, Ind., uncle of the groom, officiated, and was assisted by the Rev. Adrian Sharkey of Lincoln. The church was decorated with ferns, roses and peacock feathers.

Preceding the ceremony and during the entrance of the bridal party, Miss Alice Rucker, an aunt of the bride, played the Mendelssohn wedding march. The only attendant was Miss Catherine Steinauer, sister of the bride, who wore a frock of powdered blue with pink picture hat, and a corsage of pink roses. Joseph Meyer, brother of the groom, served as best man.

The bride was beautifully gowned in white satin trimmed with crystal beading. Her long veil of tulle arranged in cap shape, was held in place by a band of crystal beads and rhinestones, with rosettes of pearls at the sides. She carried a showy bouquet of Ophelia roses and lilies of the valley.

Nuptial high mass was said following the ceremony, and Paul Meyer, brother of the groom, sang an Ave Maria by Luzzati.

Covers were laid for forty at the wedding breakfast served at the home of the bride's mother. A basket of sweet peas tied with pink tulle formed the centerpiece. Mr. and Mrs. Joseph Meyer, parents of the groom and his sister and brother, Miss Anna Meyer and Paul and Joseph Meyer, Jr., were guests at Lincoln.

The young couple left immediately after the wedding breakfast for a two weeks trip to Colorado, after which they will be at home in Beatrice.

A family dinner was given in the evening, when the two daughters, Mrs. Meander McKeever and Mrs. Frank Myers, both of Lincoln, were present with their families. The only son, H. H. Hunkins of Cushing, was unable to be present.

Fifty years ago—June 21, 1874—the marriage of Clarence Hunkins and Miss Susan Haney took place at Friend, Neb. For twenty-two years

## VISITING IN CHICAGO

Misses Margaret and Kathlean Sullivan left Thursday to spend their summer vacations visiting friends in Chicago. They will return to attend the university in September.

## RECENT BRIDE

—Gray Studio.  
The marriage of Miss Katherine Prosser to Paul A. Stout took place June 6 at Verdigris, Neb. Both bride and groom are graduates of the University of Nebraska.

## MARRIED TUESDAY

—Mrs. Glenn Alan Thompson, whose marriage took place Tuesday, was Miss Esther Wahl, daughter of Mr. and Mrs. William Wahl. The ceremony was performed by the Rev. Mr. C. E. Ziegler, pastor of the First Methodist church in Council Bluffs in the presence of close relatives. After a wedding trip to Denver, Mr. and Mrs. Thompson will be at home at 1224 E street.

Miss Letta Fudua entertained twenty-four guests Friday evening at a garden party and miscellaneous shower at her home, 2516 B street. Pink and white was used in the decorations, and carried out in the centerpieces, which was also of pink roses. Place cards were also in the same colors.

Misses Esther and Helen Hunkins were seated at the head of the table, and the upper tables were placed in this bower. Floor lights and side lights were softened with pink and white shades and the place cards and napkins were in the same color.

Miss Oscar Vogt of Lakewood entertained the members of the Jolly Eight Club Friday afternoon at her home. The afternoon was spent in playing cards with Mrs. Martha Church won first prize, Mrs. Cary Fisher second, and Mrs. W. A. Ozenbaugh, third. The hostess will conclude the season, the date to be announced later.

Members of the Ochoa Bridge club were entertained Thursday afternoon at the home of Mrs. J. D. Dwyer, 2251 St. Mary street. A color scheme of pink and white was carried out in the decorations and in the luncheon. This is the last regular meeting of the season, and the club opens with a meeting September 12 at the home of Mrs. R. H. Cummings, 1428 North Twenty-first street, at 12:30 o'clock. Next Wednesday, picnic will be held at Milford, and members are requested to meet at 10 o'clock in the morning at the home of Mrs. H. F. Deahn, 1814 South Twelfth street.

Mrs. Glenn Alan Thompson, whose marriage took place Tuesday, was Miss Esther Wahl, daughter of Mr. and Mrs. William Wahl. The ceremony was performed by the Rev. Mr. C. E. Ziegler, pastor of the First Methodist church in Council Bluffs in the presence of close relatives. After a wedding trip to Denver, Mr. and Mrs. Thompson will be at home at 1224 E street.

Miss Elizabeth Rohn entertained Tuesday evening at her home, 2516 B street. Pink and white was used in the decorations, and carried out in the centerpieces, which was also of pink roses. Place cards were also in the same colors.

The evening was spent at bridge, when the bride-to-be received the pink and white, and was assisted by her daughter, Helen, served refreshments. The club adjourned for the summer.

Members of the Royal club held their last regular meeting of the season Thursday afternoon at the home of Mrs. W. A. Ozenbaugh, 2251 St. Mary street. A color scheme of pink and white was carried out in the decorations and in the luncheon. This is the last meeting of the season. Mrs. Richard Stout will be the first hostess when the meetings are opened in September.

Mrs. Arthur Brown was hostess Friday evening at her apartment in Theodore Terrace, Omaha, at a dinner for Miss Ernst and Mr. Gottberg. Pink roses formed the centerpiece and the color motif was pink and white.

The guests were seated at one large table, where steamers of pink and white extended from the center to the individual places.

Twenty-two members of the missionary and ladies' aid society of St. James E. Church and Dr. Peter Van Fleet, pastor of the church, and Mrs. Van Fleet entertained at a surprise party Friday afternoon for Mrs. George James, 141 Smith street, in honor of her second birthday.

Mrs. James, who has been out of the country with members of the society, has been unable to attend the meeting this late owing to ill health and has chosen to spend an afternoon with her.

Mr. and Mrs. Faulkner were entertained at the Country club by Mr. and Mrs. E. J. Faulkner.

Saturday evening, Mr. and Mrs. Faulkner were host and hostess at a charming dinner at their home for only the members of the house party while a party of Lincoln guests were invited for the garden party and a dance which followed.

Dancing was on the terrace lighted with Venetian lanterns and overlooking the Missouri river.

Mr. and Mrs. Faulkner were seated at the head of the table.

Twenty-two members of the missionary and ladies' aid society of St. James E. Church and Dr. Peter Van Fleet, pastor of the church, and Mrs. Van Fleet entertained at a surprise party Friday afternoon for Mrs. George James, 141 Smith street, in honor of her second birthday.

Mrs. James, who has been out of the country with members of the society, has been unable to attend the meeting this late owing to ill health and has chosen to spend an afternoon with her.

Mr. and Mrs. Faulkner were entertained at the Country club by Mr. and Mrs. E. J. Faulkner.

Honoring Mrs. E. J. Burlett, who is leaving soon for several months abroad, Mr. E. N. Mitchell entertained at a bridge luncheon Friday at the Country club. Covers were laid for twenty. An attractive color motif of orange and orchid was used in the appointments and in the garden flowers centering the table.

Mrs. Harvey H. Carroll will entertain twelve guests at a birthday party Monday afternoon in honor of her daughter, June Start Carroll.

Luncheon will be served at 2:30 o'clock at the Miller and Palme tea room.

A large birthday cake will be center of the table and balloons and toys will be given to the little guests.

The afternoons will be spent at Antelope park.

The O. D. O. club met Tuesday afternoon with Miss Frances Robinson, 4310 South Twelfth street.

Three tables were placed for bridge, when high score went to Mrs. M. B. Morse.

Miss Margaret Caster was the guest of the club.

This is the last meeting of the season, the club adjourning until September.

Mrs. P. C. Parks, 2001 Holdrege street, entertained the members of the Loyal club Tuesday afternoon at her home.

The afternoon was spent informally, and after a brief business meeting, a luncheon was served.

The next meeting will be a picnic to be held July 1 at Antelope park.

The F. P. M. club met at the home of Mrs. R. B. Saxon, 1221 South Thirty-third street, Friday afternoon.

Miss Ruby Sutton of Wahoo, Miss Ruth Roper of Albion, and Mrs. Russell Timan were guests of the

club.

The afternoon was spent in the room place Wednesday evening, and at the close the hostess served a luncheon. A picnic supper was planned for members and their husbands, July 1 at Antelope park.

The members of the Jolly Eight club gave a surprise party for Mrs. Martha Church Tuesday afternoon at the home of Mrs. W. A. Ozenbaugh, 2118 R street. The afternoon was spent at cards and the hostess served a light luncheon.

Miss Helen Recroft, Miss Mattie Poes, and Mrs. A. T. Deardorff were invited into memberships of La Jolla club.

Misses C. McCannabey of Curtis and Mrs. M. Peterson and her daughter Phyllis also from Curtis, were guests.

Pink and white were used in table decorations when the hostess served a two-course luncheon.

These present were: Marlon Francis, Dorothy Holland, Lucile Ulrich, Harold Hezel, Royal Helzer, Marlo Lebsack, Helen Wekeser, Vivian Ulrich, Cordella Lebsack, Harold Jordan, Ruth Schwartz, Edna Sinner, and Grace Wekeser.

Members of the Idleway club held their last meeting of the season at a 1 o'clock luncheon Thursday at the Woodburn.

Mrs. A. M. Houck of Los Angeles

## CLUBDOM

Woman's Club  
Calendar

Katherine McGerr are delegates to the democratic national convention during the coming week.

Miss Rose Shonko, who has been quite ill at the hospital, has just returned to her home, in a fair way to recover.

Tuesday.

The Lancaster County Executive of the W. C. T. U. meets at 2:30 in the Y. W. C. A. parlors. Members notice change of meeting place. Plans for the county convention and a place of meeting will be discussed.

Wednesday.

The Business Woman's league will have a picnic at Auto club park, meet at club rooms at 6:15 sharp to take auto to park.

CHARTER DAY LUNCHEON

HIGHLY ENJOYABLE EVENT.

About seventy members of Deboration Avery chapter, D. A. R., enjoyed a delightful charter day luncheon at 1 o'clock, Tuesday afternoon, June 17, on the beautiful lawn at the home of Dr. and Mrs. J. S. Welch, 3435 Sheridan Boulevard. Among the out-of-town guests was Mrs. Brown regent, Mrs. Elizabeth O'Leary Smith, of Chadron, and Mrs. E. G. Duke, vice-president general, of Beatrice, had expected to be present, but were prevented at the last moment from coming to Lincoln. The hostesses for the day were Mrs. S. S. Welch, Mrs. Lewis M. Brown, Mrs. Philo M. Buck, Mrs. C. C. Waldo, Mrs. Guy Harris and Mrs. R. H. Van Brunt.

After the luncheon and an admiring exploration of the spacious grounds, all adjourned to the house where the new regent, Mrs. W. S. Whitten, presided over a brief business meeting. This was followed by a short musical program presented by Mrs. Roy Brewster, accompanied by Miss Hilda Chowing. The program was as follows:

Group 1—

"In Italy," by Jean Boyd, a Nebraska girl.

"Slumber Song," by MacFayden.

"Falls of Ballycader," by Florence Turner Valley.

"Will o' the Wisp," by Charles Gilbert Spross.

Group 2—

"Come to the Garden," by Mary Turner Saunter.

"O, if you flowers only had eyes," by Massenet.

"That's the World in June," by Charles Gilbert Spross.

BETHANY W. C. T. U.

OBSERVES FLOWER DAY.

Bethany W. C. T. U. met in the church parlor Friday afternoon. The program was on the subject of Flower mission day with Mrs. F. L. Johnson, chairman of that department, presiding. Flowers were taken to the Orthopedic hospital and the home for dependent children. Mrs. James Lemmon was in charge of the devotional hour.

It was decided to make a quilt for the new headquarters home and Mrs. M. A. Berry was made chairman of the committee with Mrs. J. S. Sharp and Mrs. W. R. McClinton assisting.

The following officers were elected to serve next year: Mrs. H. A. Lemmon, president; Mrs. Ben Womack, vice-president; Mrs. G. W. Brooks, secretary; Mrs. J. R. Kline, treasurer.

The union decided to give a picnic sometime during the summer entitled, "America in the Making." The committee for this work consists of Mrs. H. A. Lemmon, Mrs. J. A. Morse, Mrs. J. H. McCann, Mrs. Bethany, Mrs. Anita Harding.

Refreshments were served by the social committee the members of which are: Mrs. H. A. Harding, Mrs. J. A. Morse, Mrs. J. H. McCann, Mrs. J. H. Brooks, Mrs. Anita Harding.

MEMORIAL SERVICE OF  
LANCASTER CO. W. C. T. U.

The annual memorial service of Lancaster County Womans' Christian Temperance Union will be observed on Sunday June 29 at 4 p. m. in Wyuka cemetery.

MEMBERS OF AXIS CLUB  
GUESTS AT OAKWOOD LODGE.

A dinner was served at the Chicken Little Inn Tuesday evening at 6:30 p. m. for members of the Axis club. Miss Ermie Johnson was in charge of arrangements for the dinner. Mrs. Sybil Mohr will be in charge of plans for the next picnic which will be at Capitol Beach, July 1.

Two days, June 30, and 21, were set aside for the club at Oakwood Lodge, Crete, Neb. At the short business session following the dinner the members registered for the trip to the lodge.

BUSINESS WOMEN'S LEAGUE.

Among the tenets of the national as well as the local league is found one which brands as unworthy that business should only pursue of personal profit without regard to service to society, the community and the world. This is also included in the world-wide basis of action of Rotary clubs throughout the world.

The opening of the new club year finds all members very active in soliciting helpers and laying out plans of work. Menus will be on vacation, and definite plans will mature early in the fall.

During the summer out-door meetings will be held on the semi-monthly meetings day. The first picnic will be held at the semi-monthly meeting date. The first picnic will be at Lincoln Auto park, Thursday, June 26. Miss Clark Toland, as chairman of the lunch committee, asks each member to bring cup, spoon and fork. Those at the club rooms at 6:30 will be present to help in preparation of the picnics, while Miss Esther Wilson, recreation commissioner, will provide some stunts and a program will be given under direction of Miss Grace Trott. In case of rain program and picnic will be held at club rooms.

Miss Clara Shadley, psychologist of the city schools, leaves Tuesday to represent the teacher's council to the N. E. A. meeting at Washington, D. C., from there she goes to Columbia university for her last year there, and where she is president of the Nebraska club.

Mrs. Nannie Long, of Hayward school, attended the N. E. A. meeting, whence to Columbia university for the summer.

Dr. Sylvia L. Ashworth and Mrs.

## OPEN SUNDAY 10 to 12

### Advertising must be Backed by Service

Permanent Success Can Be Won No Other Way

Advertising is an important part of every live business, but only a part.

The man who imagines it is only necessary to place an advertisement in the papers to make his business a success has a rude awakening coming to him.

Even when properly done, advertising is merely a bid for patronage, if it brings inquiries it has done its part, although it does frequently clinch sales.

Claims made in dental advertising must be made 100 per cent good. Promises direct or implied in the advertising done by this office are as carefully written and conscientiously made as if they were being written in to a legal contract.

## Former Lincoln Woman Nominee For Demo Elector

CHEYENNE, Wyo., June 21.—Should the democratic nominee for the presidency carry Wyoming next November, this state's electoral ballot probably will be taken to Washington City by a woman, Mrs. Anna B. Baggett, a former resident of Lincoln.

Mrs. Baggett is one of the three Wyoming democratic nominees for presidential electors. She is the second woman to be nominated for elector in this state. The first, a republican, was defeated more than a score of years ago.

Mrs. Baggett is the wife of Avery H. Baggett, a former member of the Wyoming legislature, and a popular member of the Lincoln club and educational affairs since she came here from Lincoln several years ago. She is a member of the board of trustees of the University of Wyoming.

Mr. and Mrs. C. W. Butler of Friend celebrated their sixtieth wedding anniversary June 19, by entertaining at dinner in the dining room of the Methodist church. That evening they were honor guests of the L. O. O. F. and Rebekah lodges.

Mr. and Mrs. Butler were married at Greenbush, Ill., June 19, 1864, and came to Nebraska in the spring of 1881, living on a farm one mile north and four miles east of Friend until 1901, when they moved to town.

Mrs. Ira Buckner, of Redondo, Calif.; A. R. Butler, Chippewa Falls, Wis.; and George F. Butler, Grand Island, children of Mr. and Mrs. Butler, were present with their families to celebrate the anniversary.

## FIVE GENERATION GROUP

—Hauck Studio.

Five generations are represented in the photograph above. Mrs. Anna Vermaans of College View is 88 years old, and is the mother of eleven children, of whom six boys and three girls are still living. She has fifty grandchildren, forty-five great-grandchildren, and three great great-grandchildren.

Mrs. Martin Waggoner, her daughter, is 62 years old, and her daughter, Mrs. William Bakes is 42. Mrs. Nolan W. Waggoner represents the fourth generation, and little Woodrow W. Waggoner, fourteen months old, is a member of the fifth generation shown in this interesting group.

were. Sarah Sarsky, Edna Sloan, Bess Cadman and Molly Lutz.

There were four councilors and each councilor was in charge of a group of girls. The councilors were Misses Ruth W. Williams, Mrs. Jessie Hiett, and Margaret Johnson. Miss Grace Staff was in charge of the Girl Reserve camp and Miss Mildred Bryan the camp director.

## Camp Fire Notes

Camp Kiwanis opened its second week last Sunday with sixty-three girls in attendance. Mrs. Beltzer, Mrs. George Smith, and Mrs. Hazel Putney, and Miss Louise Van Sickle are present as guardians. The girls

### DOANE NOTES

Mr. Karl L. Koch of Seward spent the weekend in Crete visiting friends. Mr. Koch will be a junior at Doane next year.

Registrar D. G. Burge has been

at work in his office in Merrill Hall for the past three weeks, getting out the second semester's grades to be sent home to parents of students. He

is a nationally good looking sandwich tray and flower basket.

Five girls passed the polly-wog test, and six passed the canoe test.

The girls are loud in their praise of the fine meals served and of the comfort in sleeping quarters. The camp is filled to capacity each week and girls expecting to come to camp early this summer should register early.

Miss Marian Anderson of Lincoln

was in Crete for part of the week

visiting relatives and friends.

Miss Anderson is a former student of Doane, who attended Simmons College, Boston, this past year.

President John N. Bennett left

for Chicago Thursday afternoon, to

attend a meeting of the trustees of

the Congregational Foundation for

Education.

Miss Hattie Bowles and Miss Eliz-

abeth Burnett spent the weekend in Beatrice, driving down Saturday

evening in their Ford sedan.

Miss Grace Andrews, 22, who has

been attending the library school of

the University of Illinois, has as-

signed a position with the library of

the University of Iowa, Iowa City,

for the coming year. She is spend-

ing the summer at her home in

Crete.

The human body, like the automobile, emerges from the bleak, icy days of winter much the worse for wear. It needs a "tonic" to function perfectly that we may enjoy to the fullest the balmy days of Summer.

"Tonic week" is designed to familiarize you with the different preparations and tonics designed to "tone up" the system, purify the blood and to eliminate the waste that has accumulated during the inactivity of winter.

Every REGISTERED BY LAW DRUG-GIST whose name appears in this advertisement will feature TONICS this week. It will be a week of special displays, large assortments and demonstrations. Your druggist will tell you honestly and sincerely, just the "right" tonic to use to accomplish certain definite results. His knowledge, experience and advice will prove invaluable to you.

Don't drag into the hot summer weather under the handicap of winter sluggishness. Greet summer with that buoyancy of youth that comes only with radiant health. Visit your REGISTERED DRUGGIST this week and let him advise you as to the best in tonics and health builders.

These Druggists Are Registered By Law For Your Protection

You may patronize any of the druggists listed below with the complete assurance that they are Registered by Law to serve you. They are your guarantee of a service founded upon knowledge, experience and integrity.

### DOANE NOTES

Mr. Kari L. Koch of Seward spent the weekend in Crete visiting friends. Mr. Koch will be a junior at Doane next year.

Registrar D. G. Burrage has been at work in his office in Merrill hall for the past three weeks, getting out the second semester's grades to be sent home to parents of students. He

is present at the open house at 10 to 12.

## Advertising must be Backed by Service

Permanent Success Can Be Won No Other Way

Advertising is an important part of every live business, but only a part.

The man who imagines it is only necessary to place an advertisement in the papers to make his business a success has a rude awakening coming to him.

Even when properly done, advertising is merely a bid for patronage; if it brings inquiries it has done its part, although it does frequently nothing else.

Claims made in Dental Advertising must be made 100 per cent good. Promises, direct or implied, in the advertising done by this office are as carefully written and conscientiously made as if they were being written in to a legal contract.

## Former Lincoln Woman Nominee For Demo Elector

CHEYENNE, Wyo., June 21.—Should the democratic nominee for the presidency carry Wyoming next November, this state's electoral ballot probably will be taken to Wyoming City by a woman, Mrs. Anna B. Haggard, a former resident of Lincoln.

Mrs. Haggard is one of the three Wyoming democratic nominees for presidential electors. She is the second woman to be nominated for elector in this state. The first, a republican, was defeated more than a score of years ago.

Mrs. Haggard is the wife of Avery Haggard, attorney, a partner of Joseph C. O'Mahoney, candidate for the democratic nomination for United States senator from Wyoming. She is a sister of Mrs. John D. Clark, formerly of Lincoln, wife of general counsel at Chicago for the Standard Oil company of Indiana.

Mrs. Haggard has been prominent in women's club and educational affairs since she came here from Lincoln several years ago. She is a member of the board of trustees of the University of Wyoming.

will leave for the East next Thursday and will stop over in Cleveland, O., to visit with former Professor and Mrs. H. H. Hosford. Dr. Burrage will attend the summer session at Harvard university.

The college and community of Crete were saddened at news of the death of Mrs. J. S. Brown (wife of former Professor John Sewall Brown) at her home in Crete, Wednesday, June 18, 1924. Professor and Mrs. Brown came to Crete in August 1882, Professor Brown becoming a member of the faculty of the college and academy and remaining for thirty-five years, until his death on August 4, 1917. All these years Mrs. Brown has maintained an active interest in the college, its students and interests, and in the First Congregational church of Crete. For twenty-one years she was treasurer of the women's association of the church. In 1901 she became a member of the Round Table, the first ladies' study club organized in Nebraska. She was a charter member of the Crete chapter of the D. A. R. and its regent during 1922 and 1923. The Crete chapter of the G. A. R., upon its organization, did her the honor of making her the mother of the chapter, of which her two grandsons were members.

Of the three children of Professor and Mrs. Brown, two survive, Judge Ralph Davis Brown, '98 and Miss Gertrude Brown of Crete. The other, Emily Brown died in 1897. Besides her two children she is survived by three grandchildren, Robert Vance Brown, John Sewall Brown II, and Barbara Brown, and two sisters, Miss Lula A. Davis of Auburn, Me. and Mrs. L. M. Tarr, of New Haven, Conn.

Miss Marian Anderson of Lincoln was in Crete for a part of the week visiting relatives and friends. Miss Anderson is a former student of Doane, who attended Simmons College, Boston, this past year.

President John N. Bennett left for Chicago Thursday afternoon, to attend a meeting of the trustees of the Congregational Foundation for Education.

Miss Hattie Bowles and Miss Elizabeth Burnett spent the weekend in Beatrice, driving down Saturday evening in their Ford sedan.

Miss Grace Andrews, 22, who has been attending the library school of the University of Illinois, has accepted a position with the library of the University of Iowa, Iowa City, for the coming year. She is spending the summer at her home in Crete.

# This is Tonic Week

The human body, like the automobile, emerges from the bleak, icy days of winter much the worse for wear. It needs a "tonic" to function perfectly that we may enjoy to the fullest the balmy days of Summer.

"Tonic week" is designed to familiarize you with the different preparations and tonics designed to "tone up" the system, purify the blood and to eliminate the waste that has accumulated during the inactivity of winter.

Every REGISTERED BY LAW DRUG-GIST whose name appears in this advertisement will feature TONICS this week. It will be a week of special displays, large assortments and demonstrations. Your druggist will tell you honestly and sincerely, just the "right" tonic to use to accomplish certain definite results. His knowledge, experience and advice will prove invaluable to you.

Don't drag into the hot summer weather under the handicap of winter sluggishness. Greet summer with that buoyancy of youth that comes only with radiant health. Visit your REGISTERED DRUGGIST this week and let him advise you as to the best in tonics and health builders.

### These Druggists Are Registered By Law For Your Protection

You may patronize any of the druggists listed below with the complete assurance that they are Registered by Law to serve you. They are your guarantee of a service founded upon knowledge, experience and integrity.

and morning worship at 10:45.

# The Musical World

Miss Ruth Martin, a young pupil from the class of Mrs. Lura Scherzer Smith, gave a special recital to the students of the University School of Music. Miss Martin appeared to be a young pianist of ability and talent. Her whole program was played with controlled tone and phrasing. She has a wide dynamic range which enables her to secure striking contrasts. Her entire program was played from memory in smooth musical style.

Miss Martin was ably assisted at the second piano in her opening and closing numbers by Miss Bernice Thompson. The program presented follows:

Mozart—Sonata, G Major

Allegro

Andante

Presto.

Grieg—In the Hall of the Piano Part.

Olsberg—Mazurka, D minor; Sarenade A Major; Caprice, Op. 19, No. 1.

Chopin—Freude, B minor; Waltz, G flat.

Sinding—Serenade.

Lavalle—Butterfly.

Chaminade—La Matin.

Debussy—Feu Rouant. For two pianos.

Where and when did jazz start? Fred Stone, star of "Stepping Stones," traces it back to a ragtime song called "The Pasmata," written by a negro actor, Ernest Hogan, in the nineties.

"I can't remember where I first heard the ragtime," said Mr. Stone, in his dressing room at the Colony theatre in New York, after he had finished humming the music from a tattered old page of manuscript. "The name is a corruption of the French terms 'pas a mes,' which means 'a mixed step.' That is exactly what it was—a step, generally one backward, the dancer taking his legs bent, dragging one foot back to the other to broken time, a short unaccented beat before a long accented one, the same principle now used in jazz and known as syncopation.

"I first heard ragtime in New Orleans about 1886," continued the dancing actor, "and it was in the dance halls, a little negro at the piano. He would play one of the standard songs of the day, such as 'Mary and John,' and then he would announce: 'Here's the new music, the way it plays it,' and he would break into ragtime. I'll never forget the way the negro chased the piano, up and down the keys of the piano. He was doing, or trying to do, everything that the eccentric jazz orchestra did three or four years ago.

"Ben Harney, a white man who had a fine negro shouting voice, probably did more to popularize ragtime than any other person. Harney was a white player in Louisville, and the new music, and he grew so adept at it that he came to New York and appeared in the Weber & Fields Music Hall. Of course, ragtime may have started here before Harney; there were numbers of wandering musicians playing in saloons and cafes in those days; but credit is due him because he played in a first-class theatre before any other ragtime exponent.

The main thing that ragtime music accomplished has been overlooked. That is that it developed stage dancing. The period was particularly for eccentric and comical dancing, and it was not long before there were great changes as the dancers began to fit their steps into the new time. First a performer would work out a routine in the new time, and as an excuse to do it, he would give it a fanciful name. Then he would think of a name to see if he could get a step, and he would put together all he had learned into a routine of his own. The names were all recognized by dancers; you could ask a dancer to do "The Black Annie," for instance, and he would know exactly what you were talking about.

"Whenever the talk turns to American music and American dancing, I always wonder if there is any music or dancing more thoroughly American than syncopation and what we at first called ragtime. I do not pretend to say that this music originally was anything but what it was—the creation of negroes. But it is so original, though in another mood, as the so-called songs of the south which might have been inspired by negro chants.

"If jazz develops into a form accepted as music, there will be interest in century hence as to its origin. I am sure that it will be accepted that 'The Pasmata' was the first ragtime song that Ernest Hogan, an almost forgotten minstrel, will be hailed as the founder of the new American music."

(Continued from Page Eight.)

Miss Anna Mucke is leaving the later part of the week for New York, sailing from there for Paris, to study music and French.

Mrs. Ralph Thayer of Norwood, O., formerly Miss Emma Perry, arrived Wednesday with her children, Ruth and Ralph, to visit for a month or six weeks with her parents, Mr. and Mrs. W. C. Perry. Mr. Thayer will arrive the latter part of June to spend a month here.

R. T. Stewart of Pittsburgh, Pa., will arrive Monday to be the guest during the summer of his sister, Mrs. C. H. Rudge.

Mrs. William T. Carden of Denver, formerly Miss Blanche Mac, arrived Thursday to visit her parents, Mr. and Mrs. C. B. Mac, for two weeks.

Mrs. Horace E. Johnson and little son, Raymond, arrived in Lincoln the first of the week to spend the summer with Mrs. Johnson's aunt, Miss Jenny Z. Smith, 1204 South Seventeenth street.

Miss Anna Morgan, 225 North Sixteenth street, has as her guest her son, Edwin Morgan, and Mrs. Morgan and daughter, Eleanor, of Oak Park, Ill. Dr. and Mrs. Thomas L. Morgan and son, Thomas, Jr., returned today from the Hawaiian Islands where they have been the past three weeks. Dr. Morgan will return to California to make his home after completing his vacation here.

Philip Aitken, who has just completed his first year's work at the Harvard law school, returned home Friday from Cambridge, Mass., and will spend the summer with his mother, Mrs. M. E. Aitken, at Milford.

**Camp Fire Notes**

A group of the members of Twin Tress camp fire girls hiked to Belvidere for San Francisco for a week with her son, Henry. W. Pomerene and family, who have been living in San Francisco for the past three years. Mrs. Pomerene will ac-

company her son and family to Los Angeles where they will spend their summer vacation and Mrs. Pomerene will return to Lincoln some time during the early autumn.

Mrs. Donna Gustin accompanied by Miss Edna Blumenthal, one of her pupils, left Friday afternoon for New York, where she will devote two months to the study of dancing under well known New York dancing masters. She will take work under Ruth New, Wayburn and Tarasoff.

Miss Blumenthal will also study the work of the school and Miss Gustin will have time to take a trip from New York to Norfolk, returning from there to Lincoln the first part of September.

Mrs. Elizabeth Smith, who has been the guest of her daughter, Mrs. Charles W. Taylor since November, left last Wednesday for her home in Los Angeles.

Miss Dulah F. Winter and Miss Linda M. Evans are at Chalfonte-Haddon Hall at Atlantic City, N. J., for the summer.

Mr. and Mrs. M. O. Trester and son, Ralph, left Saturday morning for an extended western motor trip. They will spend a few days at the Grand Canyon, going from there to California for a few weeks. Leaving California, they will motor up the coast to Seattle, returning to Lincoln by way of Yellowstone park, about September 1.

Miss Bee Jones left Saturday evening for Kansas City, from where she will go to Bartlesville, Okla. She will remain about two weeks.

Miss Evelyn E. Hale, daughter of Dr. and Mrs. B. J. Hale, arrived Saturday from Wheaton college, Norton, Mass., to spend the summer with her parents. She stopped a week with her sister, Mrs. Guy Reed of Wimmette, Ill., on her way here.

Miss Laura Wheeley of Fremont has been at the Sigma Kappa house the past week, and returns Monday to her home.

Mrs. J. R. Laney of Minneapolis, who has been visiting her daughter, Mrs. J. J. Klobauch and family at their home, 3014 Q street, left Friday for Green Lake, Spicer, Minn. Her grand daughter, Carlene Carolynne Klobauch accompanied her, and will return the early part of September.

Miss Ruth Ann Beach of Norfolk, Va., is spending some time with her sister, Mrs. E. M. Neilson, 227 Elm street, on the way to California and other western states.

Misses Marie and Florence Fowler of Kalamazoo, Mich., are the guests of their parents, Mr. and Mrs. W. K. Fowler, en route for a summer in California. They will return by motor to Kalamazoo, where Miss Marie is the primary supervisor in the public schools, and Miss Florence Fowler is children's librarian in the state teachers' college.

BY LYNNELLE GREER.

Lee Wah has gone home.

For twenty years and more he had been resting in Wyuka cemetery in a shallow grave, unrecognized, unvisited. There had been no kindred souls near him, there had been no fond relatives to worship his spirit.

Lee Wah has been laid to rest among his friends in Hong Kong, and cups of tea and morsels of food will be placed on a high gilt altar so that the return of his spirit may be honored.

And with Lee Wah went Gue Leung Ah, wife of Chin Hall, and Shee Gee Lai, and He Ying Tong, and over so many others.

All of these with the exception of Lee Wah, were buried in Forest Lawn cemetery north of Omaha proper. The last one to be buried there was Young Tich Qun, who has been dead over eight years, but at the time the application for removal was made, he had been dead just a little over seven years.

There is a Chinese superstition that follows the removal of a body from one place to another until after the passing of the seventh year. If the body is removed before that time, it is said, the spirit will be distressed and not only that, but it will not enter into heaven.

In many of the homes in China one room is set apart with the tablets inscribed with the names of deceased relatives and ancestors, and before this is placed incense, regulated by the Book of Rites, are performed.

Death brings no remorse to the Chinaman. At least if it does he fails to show it and to the one who dies—well, his only concern is that he has a wonderful funeral with a very expensive and elaborate coffin.

Many times the savings of a lifetime will be spent on a funeral, but it doesn't matter, the better the funeral the better the social standing and the greater the prestige of those who are left.

In ancient time human sacrifices were made at the graves of the dead, but with later civilization the burning and killing of human beings gave way to the shooting of fireworks.

Because there are so few Chinese in this vicinity, the graves of those who were buried in Omaha and Lincoln will not receive quite so much attention as if they had been in their own country, and the removal of the Chinese dead must be buried eventually in her soil. But not a body may be removed until the seventh year has passed after death.

No one knows why Lee Wah was not sent to his final resting place many, many years ago, but he was not. Perhaps a sleeping consciousness in China has suddenly awakened, and perhaps its owner believes that there will be no peace for him in the hereafter unless he has collected all of his relatives from foreign soil and brought them back to their home and his.

Lee Jing Yan, or Ham Pac, as his

in the automobile of a passing motorist

swimming classes will start Monday, June 23 for all camp fire girls at the municipal pool with the regular admission Register at the camp fire office; open every day from 2 to 5 o'clock; open every day from 2 to 5 o'clock.

Monday, June 3 to 11—Blue Bird class Limited to thirty-five.

Tuesday, 9-10—Elementary class. Instruction in the fundamentals of swimming.

Tuesday, 10 to 11—Special instruction in form swimming. Perfection in standard strokes.

Tuesday, 9-10—Advanced class. Specialize in life saving. Red cross test.

Thursday, 10 to 11—Elementary class for beginners.

## DOANE NOTES

Supt. and Mrs. S. B. Rough, 144, Tecumseh Street, children of Mr. and Mrs. Ida, have arrived in Nebraska. They are visiting the parents of Mr. Rough.

Miss Louise Rapp, who won one of the Ruth May Stevens prizes in biology this year, left the Saturday after commencement for Field Harbor, Wash., to take a special summer course at the college. She met a group in Milwaukee, who had chartered a special car to Washington state. After six weeks of study, Miss Rapp will return by way of California. She will be assistant in the biology department at Doane for the coming year.

Funeral services will be held Sunday afternoon, June 22, at two-thirty o'clock at the First Congregational church of Crete.

## COLLEGE VIEW NOTES

William Freer and William Cherry, both of South L street, appeared at the town council meeting this week to give notice that they would bring suit against the town for alleged damage to their property caused by the new pavement. The street was cut down several feet in front of their property, and row of trees was grubbed out. Mr. Freer claims \$1,500 damage and Mr. Cherry \$1,000. Both were represented by legal counsel at the meeting. The members of the local volume

ter fire department have organized a ball club and plan to play one or two evenings each week with a team made up of business men of the village. The games will be played on the high school diamond.

Miss Edith Ruggles, 21, is married Thursday evening. Albert Johnson, 22, of Chas. H. Patterson officiated.

The young couple are well known in College View, where they have lived for the past several years.

They will make their home here.

Professor Paul Gibbs and wife, members of the Enterprise Kas. Academy, are spending the summer in College View. Professor Gibbs is taking summer work at the university.

Miss Elizabeth Francis is in erien, Michigan, attending a health institute. She will teach at the college the coming school year.

Elder S. E. Wight left Thursday night for Denver, Colo., to attend the Colorado camp meeting. Professor D. D. Rees left Friday.

At the recent Wyoming camp meeting Elder Warner Johns was elected president of the camp. Elder Warner has many relatives and friends in College View. He is a graduate of Union college. Elder J. W. Turner, who for the past three years has been president of the Wyoming conference, has gone to the Inter-Mountain conference as president.

Elder S. C. Haughey, of Grand Island, and A. F. Kirk, of Hastings, are installing officers Wednesday evening. Past Grand Master Samuel S. Whiting acted as installing officer, and was assisted by Rev. Charles M. Shepherd, grand chaplain, and by Past Master John M. Paul as marshal. The following officers were voted: President: C. C. G. G. senior warden: Warren M. Traver, junior warden: Clarence V. Dixon, treasurer: Leslie A. Thomas, secretary: John W. Fuhrer, senior deacon: Frank W. Olson, junior deacon: Morton P. Brung, junior steward: John P. Rymer, Jr., and Rev. John G. Walker, chaplain.

This lodge was constituted in June 1893, with Ray O. Castle as master.

I now has a membership of 278 Master Masons.

At a special communication of East Lincoln lodge No. 210, A. F. and A. M. and the following officers were installed for the year: President: Edward E. Simonson, senior warden: Harry O. Griffin, junior warden: A. Otis Stricker, treasurer: Lorenzen P. Ronner, secretary: Harrison M. Adkins, senior deacon: Ferris F. Cooley, steward: Edward H. McGeehan, junior steward: and Morton N. Watson, chaplain. The sources of installation were open to the public and about 250 of the members and their relatives were present.

Past Master S. L. Kler, acted as installing officer with five members of the building committee, chosen to represent this year the new temple at Twenty-seventh and S streets. The building was started during the year when Mr. Kler was master, and he appointed the members of the building committee afterward elected for terms of one, two, to five years.

Dr. W. H. Watson presented Charles Steele, outgoing master, with the past master's jewel, after which a musical program was given by members of the family of the late installed officers.

Mr. Watson presented Charles Steele, outgoing master, with the past master's jewel, after which a musical program was given by members of the family of the late installed officers.

Who has been elected instructor in voice at Nebraska Wesleyan in the college of fine arts. He is a graduate in fine arts of the University of Nebraska, a student of Lucille Robins and a graduate student with Dean Parvin White at Wesleyan.

ALBERT SIEVERS.

Newly elected professor of piano at Nebraska Wesleyan in the college of fine arts. He is described as being an American pianist, composer and teacher. He is a graduate of Leipzig conservatory. He studied piano with Professor Techmeller and was assistant instructor with the latter. His further musical education has come through study with Professor Schreck. Professor Judd Johnson and Albin Glorion Salmon together with many years experience as a teacher. He comes to Wesleyan where he has taught piano for the past four years.

company her son and family to Los Angeles where they will spend their summer vacation and Mrs. Pomerene will return to Lincoln some time during the early autumn.

Miss Donna Gustin accompanied by Miss Edna Blumenthal, one of her pupils left Friday afternoon for New York where she will spend two months to study of dancing under the direction of New York dancing masters. She will take work under the best, Ned Wayburn and Tarasoff.

Miss Blumenthal will also study dancing in New York and at the close of the work she and Miss Gustin will leave for a boat trip from New York to Norfolk, returning from there to Lincoln the first part of September.

Mrs. Elizabeth Smith, who has been the guest of her daughter, Mrs. Charles W. Taylor since November, left Wednesday for her home in Los Angeles.

Miss Eulah F. Winter and Miss Leila M. Evans are at Chaffenton Hall at Atlantic City, N. J., for a short visit.

Mr. and Mrs. M. O. Trester and son, Ralph, left Saturday morning for an extended western motor trip. They will spend a few days at the Grand Canyon, going from there to California for a week. Leaving California, they will motor up the coast to Seattle, returning to Lincoln by way of Yellowstone park, about September 1.

Miss Bee Jones left Saturday evening for Kansas City, from where she will go to Bartelsville, Okla. She will remain about two weeks.

Miss Evelyn Angell, daughter of Dr. and Mrs. J. Angell arrived Saturday from Wheaton college, Norton, Mass., to spend the summer with her parents. She stopped a week with her sister, Mrs. Guy Reed of Wilmette, Ill., on her way here.

Miss Laura Whelby of Fremont has been at the Sigma Kappa house the past week, and returns Monday to her home.

Mrs. J. R. Laney of Minneapolis, who has been visiting her daughter, Mrs. J. J. Knoblauch and family at their home, 3016 Q street, left Friday for Green Lake, Spicer, Minn., where she has a cottage on the lake. Her grand daughters, Misses Carolyn and Bonnie Knoblauch accompanied her and will return the early part of September.

Miss Ruth Ann Beach of Norfolk, Va., is spending some time with her sister, Mrs. E. M. Nelson, 2267 Sheldon street, on the way to California and other western points.

Misses Marie and Florence Fowler of Kalamazoo, Mich., are the guests of their parents, Mr. and Mrs. W. K. Fowler, en route for a vacation in California. They will return by way to Kalamazoo, where Miss Marie Fowler is primary supervisor in the public schools and Miss Florence Fowler is children's librarian in the state teachers' college.

Walter J. Mann of San Francisco will spend Tuesday in Lincoln with his mother, Mrs. C. H. Mann. Mr. Mann is to attend a photo engravers meeting and will act as representative of the California Photo Engravers' association.

Mrs. Mary Beall of Fort Morgan, Col., is the guest of her daughter, Mrs. Ruth Warner.

Mrs. and Mrs. Garfield Leopold of Topeka, Kas., are the guests of Mr. and Mrs. Lee Chamberlain, parents of Miss Nell Louise Guile and Miss Adaline Hompes are leaving today for California, where they will spend a month in Los Angeles, Santa Barbara, and San Francisco. While in the west, they will be the guests of Mr. and Mrs. C. I. Idemian, former Lincoln residents.

Mrs. Charles W. Taylor and son and wife, John and Bern, and Lester Shepherd are leaving by motor tomorrow for Lake Vermillion, Minn., where the Taylors have a summer cottage. Prof. Taylor of the university Teachers college will join his family at the close of the summer session. Mr. and Mrs. Seth Taylor and baby son of Omaha, formerly of Lincoln, will be at Vermillion during August.

The Misses Martha Kragmann, Cora Miller, and Frances Phillips leave today for California, where they will spend the summer.

The Misses Lillian and Etta Baker of Broken Bow, are visiting their cousin, Miss Eleanor Baker, 2338 Clinton street.

Mrs. B. C. Crumaker of Indianapolis has returned to her home after several weeks visit at the home of her father H. B. Marshall, 3090 R street.

Fred Morell, district forester from Missoula, Mont., will spend the weekend with his sister, Mrs. T. V. Goodrich here. He is returning from the Rotary convention at Toronto, which he attended as president of his local Rotary club.

Mrs. Charles Heck and her son, Charles of Raleigh, N. C., arrived in Lincoln Saturday morning to visit Mrs. Heck's parents, Mr. and Mrs. M. L. Williams, 1445 C street.

Mary Frances McReynolds has returned from a week's sojourn at the Kiwanis camp at Milford.

Mrs. L. W. Morgan, 235 North Sixteenth street, has as her guests her son, Edwin Morgan, and Mrs. Morgan and daughter, Eleanor, of Oak Park, Ill. Dr. and Mrs. Thomas L. Morgan are soon home and returned today from the Hawaiian Islands, where they have been the past three years. Dr. Morgan will return to California to make his home, after spending his vacation here.

Philip Aitken, who has just completed his first year's work at the Harvard law school, returned home Friday from Cambridge, Mass., and will spend the summer at his home in New York.

Mrs. L. W. Pomerene is leaving Lincoln today for San Francisco for a visit with her son, Henry W. Pomerene and family, who have been living in San Francisco for the past three years. Mrs. Pomerene will ac-

in the automobile of a passing motorist.

Swimming classes will start Monday, June 23, for all camp fire girls at the municipal pool with the regular admission. Register at the camp fire office; open every day from 2 to 5. Program for the week:

Monday, June 9 to 11—Bird class Limited to thirty-five. Tuesday, June 9 to 10—Elementary class Instruction in the fundamentals of swimming.

Tuesday 10 to 11—Special instruction in form swimming. Perfection in standard strokes.

Thursday, June 9 to 10—Advanced class Specialize in life saving. Red Cross tests.

Thursday 10 to 11—Elementary class for beginners.

## DOANE NOTES

Supt. and Mrs. S. B. Rough, '14, (Caroline Shurtliff) and children of Paul, Idaho, have arrived in Nebraska, where they are visiting the parents of Mr. Rough.

Miss Louise Rapp, who won one of the Ruth Mary Stevens prizes in biology this year, left the Saturday after commencement for Friday Harbor, Wash., to take a special summer course. She met a group in Minneapolis who had chartered a special car to Washington state. After six weeks of study, Miss Rapp will return by way of California. She will be assistant in the biology department at Doane for the coming year.

Funeral services will be held Sunday afternoon, June 22, at two-thirty o'clock at the First Congregational church of Crete.

## COLLEGE VIEW NOTES

William Free and William Cherry, both of South L street, appeared at the town council meeting this week and gave notice that they would bring suit against the town for alleged damage to their property, caused by the new pavement. The street was cut down several feet in front of their property, and a row of trees was grubbed out. Mr. Cherry claims \$1,500 damage and Mr. Free claims he is damaged to the extent of \$1,000. Both were represented by legal counsel at the meeting.

The members of the local volunteer fire department have organized a ball club and plan to play one or two evenings each week with a team made up of business men of the village. The games will be played on the high school diamond.

Miss Edna Engdahl was married Thursday evening to Albert Johnson, Professor Chas. H. Patterson officiates. The young couple are well known in College View, where they have lived for the past several years. They will make their home here.

Professor Paul Gibbs and wife, members of the Enterprise, Kas. Academy, are spending the summer in College View. Professor Gibbs is taking summer work at the university.

Miss Elizabeth Francis is in Green Springs, Mich., attending a health institute. She will teach at the college the coming school year.

Elder S. E. Wight left Thursday night for Denver, Colo., to attend the Colorado camp meeting. Professor D. D. Rees left Friday.

At the recent Wyoming camp meeting, Elder Warner Johns was elected president of the conference. Elder Johns has many relatives and friends in College View. He is a graduate of Union college. He has been a president of the Wyoming conference, as president.

Elder S. C. Haughey, of Grand Island, and A. F. Kirk of Hastings, day on business pertaining to the were in town Wednesday and Thursday.

Elder Haughey announces that the Nebraska camp meeting will be held in Aurora, June 24-25.

E. H. Steele and wife are visiting relatives in Missouri prior to moving to California. They expect to come back through College View on their way west.

Mr. Winter and family, former residents of College View, were visiting relatives here the first of the week. They were on their way to Denver, Colo., where they expect to make their home.

J. H. Allen is building a bungalow on his lot opposite the new Nicola hospital. When completed it will be the home of President W. W. Prescott.

According to information received here from Dr. Nicola and family: they are on their return trip from California, returning by the northern route. They expect to visit the Yellowstone National park and other points of interest before returning home.

Miss Grace Williams and Miss Rilla Williams spent last week in Camp Kiwanis. Miss Rilla Williams has been acting as assistant guardian of the Bethany Camp Fire girls. Mrs. Jimmie Young is the guardian. The membership is about seventeen.

Misses Eulah F. Winter and Miss Leila M. Evans are at Chaffenton Hall at Atlantic City, N. J., for a short visit.

Ralph, left Saturday morning for an extended western motor trip. They will spend a few days at the Grand Canyon, going from there to California, they will motor up the coast to Seattle, returning to Lincoln by way of Yellowstone park, about September 1.

Miss Bee Jones left Saturday evening for Kansas City, from where she will go to Bartelsville, Okla. She will remain about two weeks.

Miss Evelyn Angell, daughter of Dr. and Mrs. J. Angell arrived Saturday from Wheaton college, Norton, Mass., to spend the summer with her parents. She stopped a week with her sister, Mrs. Guy Reed of Wilmette, Ill., on her way here.

Miss Laura Whelby of Fremont has been at the Sigma Kappa house the past week, and returns Monday to her home.

Mrs. J. R. Laney of Minneapolis, who has been visiting her daughter, Mrs. J. J. Knoblauch and family at their home, 3016 Q street, left Friday for Green Lake, Spicer, Minn., where she has a cottage on the lake. Her grand daughters, Misses Carolyn and Bonnie Knoblauch accompanied her and will return the early part of September.

Miss Ruth Ann Beach of Norfolk, Va., is spending some time with her sister, Mrs. E. M. Nelson, 2267 Sheldon street, on the way to California and other western points.

Walter J. Mann of San Francisco will spend Tuesday in Lincoln with his mother, Mrs. C. H. Mann. Mr. Mann is to attend a photo engravers meeting and will act as representative of the California Photo Engravers' association.

Mrs. Mary Beall of Fort Morgan, Col., is the guest of her daughter, Mrs. Ruth Warner.

Mrs. and Mrs. Garfield Leopold of Topeka, Kas., are the guests of Mr. and Mrs. Lee Chamberlain, parents of Miss Nell Louise Guile and Miss Adaline Hompes are leaving today for California, where they will spend a month in Los Angeles, Santa Barbara, and San Francisco. While in the west, they will be the guests of Mr. and Mrs. C. I. Idemian, former Lincoln residents.

Misses Lillian and Etta Baker of Broken Bow, are visiting their cousin, Miss Eleanor Baker, 2338 Clinton street.

Misses Marie and Florence Fowler of Kalamazoo, Mich., are the guests of their parents, Mr. and Mrs. W. K. Fowler, en route for a vacation in California. They will return by way to Kalamazoo, where Miss Marie Fowler is primary supervisor in the public schools and Miss Florence Fowler is children's librarian in the state teachers' college.

Walter J. Mann of San Francisco will spend Tuesday in Lincoln with his mother, Mrs. C. H. Mann. Mr. Mann is to attend a photo engravers meeting and will act as representative of the California Photo Engravers' association.

## GOLDSMITH PLAY YET CAPABLE OF DRAWING CROWDS

Unusual Cast Presents Famous Comedy, "She Stoops To Conquer."

Movement Started On Broadway to Erect Memorial to Victor Herbert.

BY BRETT PAGE.

NEW YORK, June 22.—A century and a half have gone since Oliver Goldsmith wrote "She Stoops to Conquer," yet the honestly drawn characters and situations in that playgoers as well as players. Yet it remained for The Players—that eccentric club comprised in Edwin Booth's old home on Gramercy Square—to bring it to the Empire theatre even in this season of slack business. Wouldn't you rush to see the play with such a cast as the following:

Cecil De Mille, director general for Paramount pictures, the man who placed in ascendancy the stars of Gloria Swanson, Bette Daniels, Leatrice Joy, Agnes Ayres, and others, has studded this constellation with a comparative novice, Vera Reynolds. Feeling that Miss Reynolds typifies the girl of 1924, Mr. De Mille has cast her for the leading role in "Feet of Clay," the next big special to be released by Famous players.

R. E. Taylor took his daughter, Carroll, to Omaha Saturday where she was operated upon and tonsils removed by Mr. Taylor's brother.

Mrs. C. Schirreff and daughter, Emma, went to Sutton Tuesday to visit a sister and aunt.

The M. D. A. auxiliary of Havelock met with the system board of the Burlington for the purpose of making arrangements to make the organization general over the system. Plans were completed for a meeting of representatives to be held at the Lincoln hotel, July 15, for the purpose of linking up the various units.

Indiana folk haven't had the sensation of giving the country a president or candidate for president since Benjamin Harrison, and they were more agitated over the possibility than Senator Ralston, apparently.

"In our own country since the war, bigotry and intolerance have attempted to impair these great constitutional guarantees. In some states legislation has been adopted, which, if carried into effect, would strip the press and a disposition has turned over in her mind the idea of being the 'first lady of the land' and mistress of the white house wasn't worrying about it.

"If Senator Ralston is nominated, his front porch is likely to be cluttered up with newspaper men and star reporters, as well as a lot of other ordinary persons." Mrs. Ralston was one of the first to organize. The date of the convention will be set at the July meeting.

## SMITH SURE WILL GET NOMINATION

Delegates Pour Into Office to Assure Him Of Their Support.

Finding of Lost Collie Is Considered Good Luck Omen By Candidate.

NEW YORK, June 21.—Complete confidence continues to prevail at the headquarters of Gov. Al Smith. While delegates were streaming into town today to assure the New York executive of their support, word came that the lost collie dog which the governor presented to his mother shortly before her death recently, had been found. This interested the governor almost as much as the political news, and his followers took it as an omen of good luck that is to follow their candidate.

Standing in his headquarters with a ring of newspaper men about him, Smith voiced his confidence that he will be nominated.

Frank Roosevelt, Smith's campaign manager, will make the speech placing Smith in nomination before the convention, it was definitely decided this afternoon. And Roosevelt backed up the governor's statement as to his strength with the claim that Smith will have close to 200 votes on the first ballot. Roosevelt's previous claims have been that Smith would have "more than 100" votes.

Smith, in the evening, chatted freely with the newspaper men.

Asked what he thought of a suggested plan to have all candidates file a statement before the opening of the convention, covering the expenses of their convention campaigns, he said he would favor such a procedure.

"At these hearings the representatives of the public and of shippers' organizations, as well as individual shippers and other citizens, have shown an impressive preference for preserving uninterrupted routes of transportation, and established routes of transportation, and therewith, a plan for concentration to be adopted by the systems for putting those properties into the same system.

"The adoption of a general plan of concentration now awaits the action

## HAVELOCK NOTES

Thirty young people of the Burlington store house gave a pre-nuptial party at the Odd Fellows hall Tuesday evening in honor of Miss Lona Casey and J. J. Jirousek, whose marriage will take place Wednesday, June 23. One of the features of the evening was a mock wedding.

## Britten Plans Vigorous Fight On Promotions

WASHINGTON, June 21.—Notice was served upon Preident Coolidge today by Representative Fred Britton, republican of Illinois, that he would vigorously pursue his demand for an investigation of the manner of promoting naval officers.

Britton's announcement followed an official statement from the white house to the effect that the president rejected the present method of promoting naval officers, "as farce" and that there was no basis for the charge that a small clique of officers were controlling the promotions.

"Because of the treaty limitations on ship tonnage," Britton declared, "it is more necessary than ever that the officers be very carefully and more sincerely selected up to their future efficiency in the navy."

"A seniority system which destroys incentive and ambition must also destroy the morale of the very backbone of the navy, because promotion carries with it not only increased rank, but also great glory and advanced pay."

"We are seeking a shorter channel between the producers and consumers. We feel that the resources of these large grain companies may be utilized as to result in many economies in overhead operation and in many other ways cut the cost of merchandising grain."

"We have a great deal to offer the American people today.

## Expect Action On Lease Indictments

WASHINGTON, June 21.—Action in indictments in connection with the leasing of the naval oil reserves is expected Monday.

The navy completed taking testimony this week, and has recessed over the week end. When it reconvenes, it is expected to act.

A letter received here from Miss Rita Ackerman of California says that her brother Richard, narrowly escaped death Decoration day when he fainted and fell ninety feet over him. He and a friend were climbing a 100-foot tree. The letter relates, and the boy evidently was too strong for him. As the boys were standing at the top of a canyon Richard fainted and fell to the bottom. He escaped without any serious injury. The doctor explained that this good fortune was due in part to the fact that he was thin in the faint.

Richard Ackerman is a nephew of Mrs. William Ackerman of Havelock.

Miss Daisy Adams, who has been visiting her sister at Alliance, has recently returned home. Her sister, Mrs. Anna Davis, and the Adams are moving from Alliance to Los Angeles, Cal.

Mrs. Archibald Adams has been confined to her bed at the home of her daughter, Mrs. Leonard of Lincoln, with a severe attack of rheumatism. She is improving slowly.

Mr. and Mrs. Paul Smith drove up from Shelly Sunday. They, with their mother, Mrs. Y. O. Smith, and

## WIFE HELD IN MAIL ROBBERY

Woman Suspected of Having Rifled Sacks Refuses to "Tell Anything."

CHICAGO, Ill., June 21.—Police, seeking the \$1,000,000 loot in the Roundout, Ill., mail robbery of last week, tonight were tenaciously quizzing a woman, believed to know where the money is hidden.

But the woman, equally tenacious, refused to tell what police are certain she knows.

Mrs. Louise Newton, wife of one of ten men indicted by a federal grand jury for the robbery, stood her ground against her questioners and repeated again and again that "I know nothing."

Mrs. Newton, according to authorities, received a telephone call from her husband shortly after the robbery in which she was ordered to Joliet.

As it was near Joliet that police found a portion of the loot, they are convinced that the woman is not the thief.

## GOLDSMITH PLAY YET CAPABLE OF DRAWING CROWDS

Unusual Cast Presents Fam-  
ous Comedy, "She Stoops  
To Conquer."

Movement Started On Broad-  
way to Erect Memorial  
to Victor Herbert.

BY BRETT PAGE.

NEW YORK, June 22.—A century and a half have gone since Oliver and his wife wrote "She Stoops to Conquer" yet the honestly drawn characters and sincere lines still attract playgoers as well as players. Yet it remained for The Players—that eccentric club comiced in Edwin Booth's old home on Gramercy Park—  
to bring it to the Empire theatre even in this season of slack business. Would not the rush to see this play with such a cast as the following: Basil Sydney, playing Young Marlow; Dudley Digges, Squire Hardcastle; Ernest Glendenning, Tony Lumpkins; Harry E. Dixey, Digory; Francis Wilson, Jeremy; Mervyn Ar-buckle, Stingo; Augustin, Dunne, a farmer; Effie Shannon, Mrs. Hardcastle; Helen Hayes, Constance Neville; Pauline Ford, a maid and Selina Royle a maid.

Unlike many another all-star revival, this of The Players proved during its entire week a perfectly balanced, finely and conservatively acted offering. There was no skimping of scenes, no hasty speaking to get it over as painlessly as possible. There were, it is true, some minutes that lagged overlong, but these were not the fault of the actors, but of the audience that greeted each star with such warm applause each had to bow and bow again before he or she could speak a word and let the play proceed.

Herbert Memorial.

The movement to erect a memorial to Victor Herbert is under full sway on Broadway. His sudden death some weeks ago came as a shock to his countless friends, and each is now eager to aid in perpetuating his memory. The memorial probably will be erected in Central Park and undoubtedly will be a fitting tribute to a man of the people.

The probating of Victor Herbert's will disclosed his estate as "more than \$25,000." This is the "fortune" left by the best loved comic opera composer this country has ever known. Best-loved because of his charming music and best-loved also because of his lovable personality. The setback experienced by all the people who depend on royalties—due to the radio and the consequent decrease in phonograph record and player-piano roll sales decrease may be reversed soon, and the royalties from Victor Herbert's return a mounting income for years to come.

But consider the case of loved Victor Herbert. Owning writers-in-the-making who hope to make fortunes out of the song business!

Produce Foreign Plays.

From Chicago comes a story that has set Broadway thinking. It is nothing more or less than that the executives of various foreign nations stationed in Chicago have formed an organization to import foreign plays in an international theatre.

One hundred and fifty thousand dollars cash is the sum declared so far contributed. The French consul, Antonin Barthel, is to head the enterprise which plans each week to duplicate various foreign productions in Chicago. The money is said to have come from the residents of Great Britain, Germany, France, Honduras, Nicaragua, Bulgaria, Spain, Norway and the Netherlands. The initial production is to be made some time in September.

Havelock Notes.

Thirty young people of the Bur-lington store house gave a pre-nuptial party at the Odd Fellows hall Tuesday evening in honor of Miss Lona Casey and J. J. Jirousek, whose marriage will take place Wednesday, June 23. One of the features of the evening was a mock wedding.

Press Agents Celebrate.

Speakers of press agents and that gentle art, about seventy-five per cent of all rudely recognized theatrical press agents recently celebrated the first anniversary of the foundation of the Theatrical Press Representatives' association of America. Wells Hawkes was elected president; E. E. Pidgeon, first vice-president; S. B. Geran, second vice-president; George Campbell B. Cosad, third vice-president; H. Elliott Stuckel recording secretary, Francis E. Reid, corresponding secretary and Claude P. Greneker treasurer.

There are about two hundred and twenty-five members in this seven-ty-five percent of the best theatrical press agents. They formed the association to make sure that the house managers throughout the country would make the best possible use of the pictures, cuts and stories left for the exploitation of travelling productions, and to issue to the best press agents in the show business credentials to show newspaper men all over the world that the individual presenting the association card is worth hearing.

The Right To Dream.

After having said such nice things about press agents it is too bad that we are compelled—even demonically driven—to record the vagrant of a press agent in the person of a gentleman in question, but we are assured that Irving Kaye Davis really is a good press agent, good in the theatre and good also outside the show business as a press agent for the most famous of cosmetic muds. It is he who wrote "The Right to Dream" which we believe will have departed even from that worst of the theatre, the Punch and Judy, before you read this.

Britten Plans  
Vigorous Fight  
On Promotions

WASHINGTON, June 21.—Notice was served upon President Coolidge today by Representative Fred Britten, republican of Illinois, that he would vigorously push his demand for an investigation of the manner of promoting naval officers.

Mr. Britten's announcement followed an official statement from the white house to the effect that the president believed the present method of promoting naval officers was efficient and that there was no basis for the charge that a small clique of officers were controlling the promotions.

"Because of the treaty limitations on ship tonnage," Britten declared, "it is more necessary than ever that the officers be very carefully and more sincerely selected up for their special jobs for in them will rest the future efficiency of the navy."

A seniority system which destroys incentive and ambition must also destroy the morale of the very backbone of the navy, because promotion carries with it not only increased rank, but also great glory and advanced pay.

A young man and a young woman love and are married. He is so young that after time, though no evidences of the alleged fact are offered. He chats in squil-ler with his wife. He cannot sell his play, though it is the greatest ever written. There are two acts of this. In the third act, Mr. Alleged Genius accepts a job as editor of a magazine. He is forced to this because he has been starved for starvation. But he is so obsessed by his work as an editor—think of prostituting his genius to so terrible a degree!—that just before the final curtain he blows his alleged brains out.

Ralph Shirley played the genius better than the script deserved. But Brooks Atkinson was not however, in any way something of a disappointment. Perhaps this is because a friend of mine enthusiastically telephoned nearly two years ago that I must be sure to watch for a marvel-

aunt, Mrs. Laura Hotchkiss, and Lewis James spent the day in Millford with Mrs. Smith's daughter.

Mr. and Mrs. H. V. Clark left Tuesday for a two weeks trip to Denver, Colorado Springs and Fort Morgan.

Miss Dorothy Gobil is spending a week with her aunt at Julian, Neb. She left Wednesday.

Louise Graham left Tuesday for her home near Raymond for a short vacation.

Miss Angie Henshaw left Wednesday for Lead, South Dakota, where she will visit for a few weeks.

Some new arc lights were installed in the city park this week and two new ones in front of the library building.

Mrs. O. J. Hitchcock entertained at a family dinner at her home at 232 South Eleventh, Tuesday evening. The occasion was the birthday of Mr. and Mrs. Hitchcock, and the birthday of Mrs. J. W. Hitchcock and a farewell for Mrs. Morton Trester and son Ralph, who are leaving soon to spend the summer in California. Those present were Dr. and Mrs. J. W. Hitchcock, Miss Jennie Hitchcock and Mrs. Morton Trester and son Ralph, and the daughter and grandson of Dr. and Mrs. J. W. Hitchcock.

R. E. Taylor took his daughter, Carroll, to Omaha Saturday where she was operated upon and tonsils removed by Mr. Taylor's brother.

Mrs. C. Schilferr and daughter, Emma, went to Sutton Tuesday to visit a sister and aunt.

The M. D. A. auxiliary of Hav-  
lock met with the system board of the Burlington for the purpose of making arrangements to make the organization general over the system. Plans were completed for a meeting of representatives to be held at the Lincoln hotel, July 15, for the purpose of lining up the various orga-nizations. There are forty-eight such organizations now. Havlock was one of the first to organize. The date of the convention will be set at the July meeting.

Delegates Pour Into Office to  
Assure Him Of Their  
Support.

Finding of Lost Collie Is Con-  
sidered Good Luck Omen  
By Candidate.

NEW YORK, June 21.—Complete confidence continues to prevail at the headquarters of Gov. Al Smith, where delegates were streaming into town today to assure the New York executive of their support.

"If 'M.' should be nominated,

"If Senator Ralston is nominated,

"If we will have to make ar-  
rangements to board all you boys,"

Mrs. Ralston added.

Frankly, the Ralston family isn't counting too heavily on the outcome," she reported.

"But we will have to make ar-  
rangements to board all you boys,"

Mrs. Ralston added.

RELIEF PROMISED.

Can A Husband Really Love His Wife and Yet Be Untrue To Her?—Minerva Believes Even A Wise and Devoted Husband May Fall From Grace And That Forgiveness May Be Given Once—Other Problems Of Interest.

## Polygamous Desires.

Dear Minerva: Can a husband really love his wife and yet be untrue to her?

My husband has always seemed a most devoted man, home-loving, attentive to me and very fond of his children. Several months ago I found quite by chance a letter in his pocket from a woman of our acquaintance which was really a love letter and mentioned their being together as if it were a thing of regularity. This woman is a widow, a very brilliant and most people think handsome woman, whose business takes her a great deal among men. I knew she and my husband were friends but had not the least suspicion of there being anything on sentiment between them.

I asked my husband about it and he treated the matter very lightly, said they had both lost their heads a bit but that it was all over now, and surely he had never lost any of his love for me, that it was not a question of waning love in any way, merely a bit of idle diversion of which he was ashamed.

But I feel as if the very foundations of my world were shaken. I have never had eyes for any other man since I met the man who is now my husband and I cannot see how a man can still love his wife if he carries on a flirtation with another woman.—Dissatisfied.

The normal woman is monogamous. She loves one man and only one. Among a number of men on the contrary, men who seem to be highly civilized, there seems to be a polygamous instinct. Many a man who is really devoted to his wife and children will have affairs of a more or less sentimental nature with other women, seeking such women for the excitement and flattery of the affair alone.

Far be it from me to condone such unfaithfulness. But I do believe a man may make the mistake of giving in to such porygamous desires on one or two occasions of which he is later ashamed and still love his wife and family above all else.

The history of many marriages is punctuated with stories of temporary infatuation and fickleness with no intent to betray. I am convinced that a repetition of such affairs can bring only ruin to the happiness of the home and hardness to the participants. But I do believe that under some conditions a man may be forgiven for such a transgression and gain in his love may be restored.

Usually such an affair is brief and the charm and delight of "the other woman" is soon clouded by a realization that such condition cannot continue without harming the precious home and happiness of the beloved wife.

In such a crisis it behooves the wife to remain from hysterics and submit to retain her dignity and composure until the affair blows over. She represents wifehood, the honor of the house and in the usual case the husband returns to her relieved that the sordid affair is a thing of the past and resolved to refrain from such temptations in the future.

Society expects a husband to stand by his wife and it goes without saying that the man who betrays her can love two or more women at the same time does not know true love as the faithful wife does. A vow is a vow and there is no legitimate excuse for a man's ever breaking it. The man who does so is not living up to the Christian and social conception of marriage.

But even a wise and devoted husband may fall from grace, as your husband did on this occasion. And I believe you will do well to forget the affair speedily and restore your husband to his former position of trust. Doubtless he will not again betray that trust.

## An Adopted Boy.

Dear Minerva: Your advice and others would be greatly appreciated on the following: Ten years ago I took in an innocent, nameless baby to raise and I have never let him know he was other than my very own and time has gone by so swiftly that I have hardly paused to think. Some day it will have to be made plain that he is not my son.

He is a wonderful boy, so mischievous and a little man, and he often comes to me with the problems that seem to be the problems of all growing children and, it seems, I cannot make myself tell him and I fight the thought that he must ever know.

He seems to be so deep in everything and so often discusses the different adopted children we know of and it seems to always pair him so to think of them. He told me his daddy was dead, as my husband died long before I took him and he and I have always lived alone.

I bearded him out until I was financially able to go into a little business for ourselves and he is such a wondrous boy to help me, but so often he wishes for his dad and that is the time my heart aches for him.

The question is: Is it better to tell or not to tell? I thought perhaps some of your readers have had some experience along this line that I might be able to apply to my case. We all know there is a time when all things are right and I live in fear that somehow he will find out through some other source and what will he think of me? Some time I took him in my arms and asked him what he would do if he knew he was an adopted boy and that he had a real mother somewhere. He will study for a moment and then he puts his arms around my neck so gently and says "You are always my very own mother; how could I love another?" So you can see the position I'm in.

Thank you, kind friend, for your sound advice and patience. Foster Mother.

It is my belief also that the time is at hand for you to tell the little boy the truth of his parentage. It would be cruel for him to hear this from others which he is sure to do some time if you let it go. I am sure the child will continue to love you as devotedly as if you were in truth his mother. For such is the experience of other foster mothers I have known.

I would be very glad to have

responsibilities of his even when it seems to make him angry and blue. Or should she try to save him from such things and carry the burden herself? Margaret.

A. Don't let the man bluff his way to responsibilities that are right and his. Many a man (and woman too) hides behind grousches to keep from having to listen to arguments that might be convincing. Do you remember the Vicar of Wakefield, who admitted having flown into a temper to avoid the scolding that his wife was quite justified in giving herself?

Many a married man erects a smoke screen of fiery temper between himself and other trivialities and family difficulties that he would be embarrassed with otherwise. No wife will present a problem to a husband who is liable to explode and be unpleasant for days if she does so. Either she solves it herself or leaves it unsolved. Many a man who would be harassed by such matters keeps from gray hair long after his wife is bent with age by such expedients.

The reputation for bad temper is wonderfully protective.

**Lay Siege to Heart.**  
Dear Minerva: I am desperately in love with a charming woman who tells me we can never be any more than friends. I am a trifle jealous of her, I admit, but can't you tell me some way to get her to love me?—Clara.

A. Didn't you ever hear of the faint heart that never won the fair lady? Keep right on with her that you love her. Don't make a bone of yourself but you can show her in an unobtrusive way how much you care, and like attracts like—unless there is someone else. Better find out the exact condition before you lay siege to her heart.

**The Exacting Side.**  
Dear Minerva: I have promised to marry a boy of twenty-three. I am seventeen. His parents are both dead and he has a dear little sister of four that he wants to live with. Some friends say and I am sure I do, to lay the girl down with his sister. No one is opposed to my marrying, but I do not want to make a mistake. Would you advise me to marry or not?—Alice.

A. The love your boy friend has for his sister has touched me. He must be a fine character, and I imagine that to get him extends a deep and lasting love because a man who loves little children must have a tender and unselfish heart. I like to think that you are worthy of him and will make his home a bright and beautiful place where the little sister will find a home and not only a big brother to love her but a big sister as well.

Just what do you mean by being "tied down"? All work has its exacting side as well as its compensations.

**Home Work.**  
Dear Minerva: Before I was married I worked as a stenographer and typist and earned a very fair salary. Now I am happy caring for my husband and baby but I would like to be able to supplement the family income. I have thought of doing typing at home and did inquire of one or two typewriter companies but they did not give me much encouragement. One firm said there was quite often a call for stencil work and women already employed were doing the work. What can you tell me of it? I would have to rent a typewriter. Can you tell me the average price of work of that kind?—B. K.

A. Most piece work, especially that done at home, is very indifferently paid because of the many people desiring to do it. I can't be as specific as to stencil cutting but I presume it is a little more lucrative than general typing because it requires a great degree of accuracy.

As to other work that you might do, let me tell you of two friends of mine who have built up nice little businesses. Maybe you will get a suggestion of value from their experience.

One is a married woman with an invalid husband who requires her intermittent care all day. She has made an arrangement to call on several small firms or real estate brokers and take dictation of the day's letters. She has an exact hour each day for calls on each place and the dictation takes fifteen or twenty minutes in each place. She lives near the district where the offices are and is home in two hours after she starts out. Then she types the letters and returns them late in the afternoon. She has other work also like copying leases and contracts, etc., that she collects and delivers in the same way.

The other girl advertises in literary magazines that she types manuscripts for authors and playwrights at reasonable rates. She does excellent work and returns them promptly. She does not have to leave home at all because she uses the mails.

Dear Minerva: I am very much worried over home affairs. I love my husband and we have had a happy year of married life. But at the present time things are not running so smoothly financially as they have run and we have numerous financial problems to solve, and the worst feature of it is that I cannot get my husband to talk things over with me. He shrinks from any and all family responsibilities. If I endeavor to get him to talk about problems which we should surely discuss, he gets so angry and sulks for hours, or acts injured and as if I were complaining about him. This is farthest from my thoughts but we have to be practical and work things out. I have been settling these problems myself but I don't want to do so; I feel it is as much if not more my husband's duty to take him and he and I have always lived alone.

The question is whether a wife should force the husband to take the

reponsibilities of his even when it seems to make him angry and blue. Or should she try to save him from such things and carry the burden herself? Margaret.

**Temper Smoke Screen.**  
Dear Minerva: I am very much worried over home affairs. I love my husband and we have had a happy year of married life. ## HASTINGS COLLEGE NOTES

Hastings primary education work and is proving very helpful in the preparation of teachers.

On Friday of the past week Mrs. Claude V. Sammis of the Hastings college conservatory of music went to Chicago where she is a member of the faculty of the Presbyterian Young People's conference in session there. In addition to regular addresses before the assembled delegates, Dr. French has been chosen to lead the meetings in all the evening vespers services of the ten days.

The eighteen men comprising the Hastings college delegation at the Y. M. C. A. conference in Estes Park, Colo., during the past two weeks have returned to Hastings. With the exception of Colorado, the largest group had the largest group on the conference grounds, and were exceeded by the C. U. men by a majority of one person. The Hastings group was declared by many to be the leading group of the conference.

Miss Lois Steen '23, who has been engaged in teaching public school music for the past two years is attending the University of Chicago conservatory of music this summer. Miss Steen is a graduate of the Hastings conservatory and was a pupil of Hayes M. Fuhr. She was a member of the Hastings glee club for four years.

Edwin L. Stratton '20 moved with his family to Hastings during the past week. Mr. Stratton has been engaged in life insurance business for some months and was recently appointed district manager of the Mutual Benefit company. He is establishing a permanent office in Hastings which makes him home at 1017 West Sixth street. Stratton was an athlete of some prominence during his college days and returned to Hastings to graduate after two years of service during the war. He was in the aviation branch and after his discharge brought the first commercial flying plane to Hastings. Following this he pretty thoroughly covered the state carrying passengers and giving exhibitions.

Raleigh Holmstedt '24 acted with Ben Cherrington as the committee overseeing the entire conference and had charge of all programs and the direction of all activities. Eugene Staley '25 was chairman of the Findings committee. Lester Elsner, president of the Hastings Y. M. C. A. for the coming year was elected by Nebraska delegates as state president for the year 1924-25.

The Hastings group joined with the conference in hikes and outdoor sports, in addition to taking a number of delegation hikes. Lester Elsner and Eugene Elsner were winners of the state championship in tennis and there were six Hastings men on the baseball team which represented Nebraska and won the championship of the conference by defeating the Colorado team.

In honor of Dr. George D. Strayer, president of education at Columbia university, a dinner was given Thursday evening at the Grand hotel by the men students and instructors of the teachers college. Dr. Strayer has delivered five lectures this week at 2 o'clock in the afternoon in Social Science auditorium on the following subjects: "The Responsibility of the Nation in Education," "The Responsibility of the State in Education," "School Finance" and "Mental and Achievement Tests, Their Value and Their Dangers."

Hastings college summer school is progressing very well. It is one of the largest and best in the history of the school and thus far has been very successful. During the past week the observation and demonstration class in primary methods was started. In this class the various theories taught by Miss Elizabeth Lehr in the primary education department are demonstrated in practice upon a large group of primary children. The class is a regular part of the

The Smart Shoes For the Season Are At Magee's. All Styles and Sizes.

Ward-Warner Gift Shop Offers Unusual Going-away Gifts

Big Sale To Be Featured By Gold's

News! Such good news and so much of it that I scarcely know where to begin. The facts of the case, though are that Gold's recently purchased a Chicago stock of goods and has arrived and is to be placed on sale beginning Monday. There are dresses, coats, sweaters, shoes, in fact there is nothing there isn't in this stock. There are summer dresses that will sell for just a song almost and there are some things for the kiddies and even one. Turn to page three and read for yourself the wonderful bargains that Gold's will offer to you and your friends.

Latest Bobs and Waves At Mayer Bros.

Cocoa-Malt Means Health and Happiness To the Kiddies

After a warm morning of play there is nothing that the children enjoy so much or nothing that is so refreshing as a glass of cold cocoa-malt which the Robert's Dairy Wagon can serve at your door every morning. Right after nine o'clock just before time, and all the time, the children love cocoa-malt. Take it with you on your picnic parties for the kiddies and give them an added pleasure.

Dark Greens In Favor For Fall Hats

Dark greens are spoken of for the fall season and it is expected, will take on increasing importance. Pasted feather brims are being shown here, some of them made very interesting with belting ribbon crowns, and the feathers themselves, shaded in novel ways.

There are English walking hats two of the colors that distinguish the new season, showing a golden shade of brown much in evidence. These hats are made of metal foundations and are a subtle way of treating the slender silhouette for evening. The use of brown tulle over white satin is very striking. The full arrangement of the tulle drops from a band of fur which girdles the hips and which matches it perfectly.

## Diaphanous Effects In Tulle and Lace

In the evening gowns presented diaphanous effects are emphasized and metal bases are much in evidence. Sheer fabrics possess over metal foundations are a subtle way of treating the slender silhouette for evening. The use of brown tulle over white satin is very striking. The full arrangement of the tulle drops from a band of fur which girdles the hips and which matches it perfectly.

## Reds Lead For Evening Wear

A preponderance of reds suggesting blood orange tones is noted in the chiffon velvet wraps—one particularly arresting model combining a red and orange velvet much the same fashion as Viola cited for in yarn embroideries noted on several daytime coats.

Long-haired furs are chosen for collars, affording the flatting renditions of the cow-shaped neckline offered in several instances. There is a wide sweep of color choice; besides the reds mentioned, rich blues and ambers are much to the fore. Green is represented by occasional examples of jade, and again a pale apple tone combined with fuchsia embroideries. Black velvet with white ermine also typifies a mode frequently seen.

## Fabric and Color Interest Stressed

The ribbed fabrics are extensively shown, and brocades are introduced in both metal and silk materials. Crepe satin using both surfaces of the silk is perhaps the most general featured material for the new season, and reps is a favored cloth. In addition to the early silk street dresses, and the use of fine reps over flowered taffeta is one of the novelties.

Olive green and burgundy are two of the colors that distinguish the new season, showing a golden shade of brown much in evidence. These colors have been adapted for the most part to the dresses and ensemble costumes of more pretentious appeal while black is foremost in essential practical types. In first named group, closer simulations of the silk are shown in one piece models with a coat line of knee models with a coat line in redingotes fashion down the front.

## Embroidered Chiffons For the Evening

For dinner wear, embroidered chiffons, metal and colored laces, satins, both plain and brocaded, are sponsored, in sleeveless dresses, for the most part.

Overskirts, fulled out to simple bodices and often weighted with borders of flowers in the fabric, rich embroideries or appliques of red lace, are enlivened with gold threads are in the highlight.

Buttons Used In Fall Trimming

In one pleated frock of colored crepe, decorative sleeves of black velvet register as a style innovation. There is a repeated use in the tailored versions of buttons all the way up the front, or in similar line at the back or at the left side, fastening with several buttons. In these models, belts are smart and wide affairs of leather, and panels are braid bordered. Deep folds of the fabric appear in tier effect or in pointed inserts of many stripes, which slightly suggest plaiding.
